1925

FIRST ALL-COLLEGE EDITION
FEATURING SENIOR CLASS

MEMOIRS OF
IOWA STATE
AMES, IOWA
1924 ~ 1925

Foreword

THIS book is a reflection of the stuff from which Ames life is made. It has come from your thoughts and actions; from your busy hours in the classrooms and laboratories; yes, even from happy strolls in the fields and woods. It has grown from the thrills and conquests of last minutes on State Field and in State Gym, from the spirit which permeates the campus and causes that indescribable emotion which rises when "Fight, Ames, Fight" echoes across the campus.

We place in your hands this Special Edition of the Bomb of 1925, a mirror of the progress and of the personalities of Iowa State. If it succeeds in presenting a faithful delineation of the life of a greater college—if it has expressed the strength of the spirit of that life—if through the simplicity of its plan it has created for itself the right to live as a thing of beauty—not for a generation but for the future—then it has fulfilled its mission.

IN MEMORIAM
Ships that pass in the night, and
speak each other in passing,
Only a signal shown and a
distant voice in the darkness:
So on the Ocean of Life we pass
and speak one to another,
Only a look and a voice, and then
darkness again and silence.

—Longfellow

DEDICATION

*the Iowa State
Memorial
Union, the
dream of
students
and alumni*

*who conceived a state-
ly building overlooking
an incomparable cam-
pus, forming the very
center of its life. An
ever-remembering mem-
orial, a vision no long-
er a dream, but soon
a prized reality, a
high ideal attained.*

SMITH

POND & POND,
ARCHITECTS
STUDY FOR THE IOWA STATE MEMORIAL UNION
CHICAGO, ILL.

ONE OF THE PROPOSED STUDIES NOW BEING CONSIDERED BY THE MEMORIAL UNION BOARD

A NEW type of building is soon to rise on our campus—a building which will commemorate the patriotic devotion and sacrifice of Iowa State men and women in a world struggle. It will literally be built out of love for Alma Mater and a spirit of service for her, and in its uses it will perpetuate these qualities in all the generations of Ames students yet to come.

This building is Memorial Union—"A Home for Ames Spirit," and built of the very essence of that spirit!

The Memorial Union! A place where men and women can learn the meaning of true friendship and of service; a place to play in and to work in, and where the life of the University, in all its wholesome, character-building aspects, will find free expression; a place where there may be developed understanding, mutual confidence, cooperation

*"Then let us build, high up against the sky,
A splendid house for happiness and peace
Within whose doors all care and strife will cease,
Its joys a memory that will not die."*

A STUDY FOR THE ENTRANCE

It is to stand as a place where the student can come to know intimately the life of his University; a place where he can take his "dad," or a friend, and say, "This building is the heart of our campus life and spirit. Here's where we come together to talk over the points of view we get in our classes, to discuss our mutual problems, and where we form our solid concepts of life and duty. Here's where opinions are exchanged and judgments are tempered by conservative and enlivened by radical. Here's where we plan those activities that enrich the life of our University. Here's where we welcome alumni when they return. Here we have enshrined our *lares et penates*. Here is our home."

In this great structure will be an auditorium where we may get many things to enrich our lives—the swelling surge of a wonderful symphony or the soul-stirring tones of a Kreisler; the earnest debates of skilled student "wranglers"; the diversions of dramatics; the festivities of a "prom"; the inspiration from men and women who speak out of a rich experience. This auditorium will be a great step forward for Iowa State.

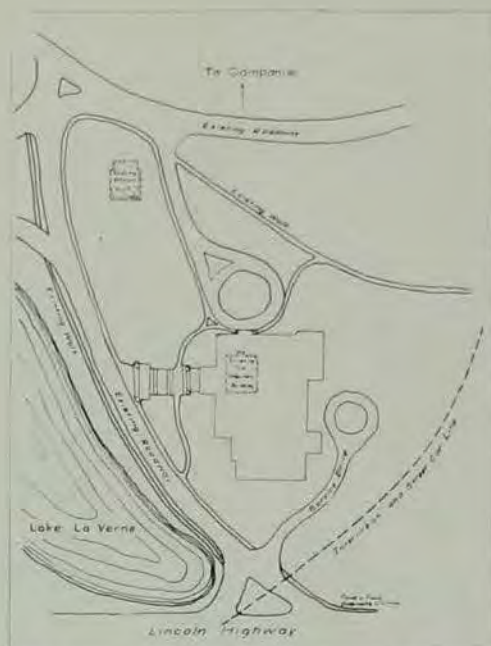

The wide lobby and its lounges will truly be places for the cultivation of real democracy. They will stand for hospitality, quiet, friendly hospitality for every person who enters. Here students may find and meet friends and enjoy intimate talk with them before crackling fires; here the travel-weary alumnus will find the Ames of his dreams and memories—the one place that will always have a welcome for him. Here friendships may be cemented which will be choicest treasure in after life.

A STUDY FOR THE WOMEN'S LOUNGE

A STUDY FOR THE COMMON LOUNGE

THE ABOVE ETCHING SHOWS THE LOCATION OF MEMORIAL UNION SITE AS DEDICATED AT SPECIAL CONVOCATION APRIL 22, 1925

IOWA STATE men and women may well be proud that they are the builders and part owners of such a building as is planned in Memorial Union. Although the architects have not yet completed their studies of this structure, and we are presenting only sketches which are subject to change, yet these pictures suggest a building which will become greater and greater as it weaves itself into the pattern of life at Iowa State.

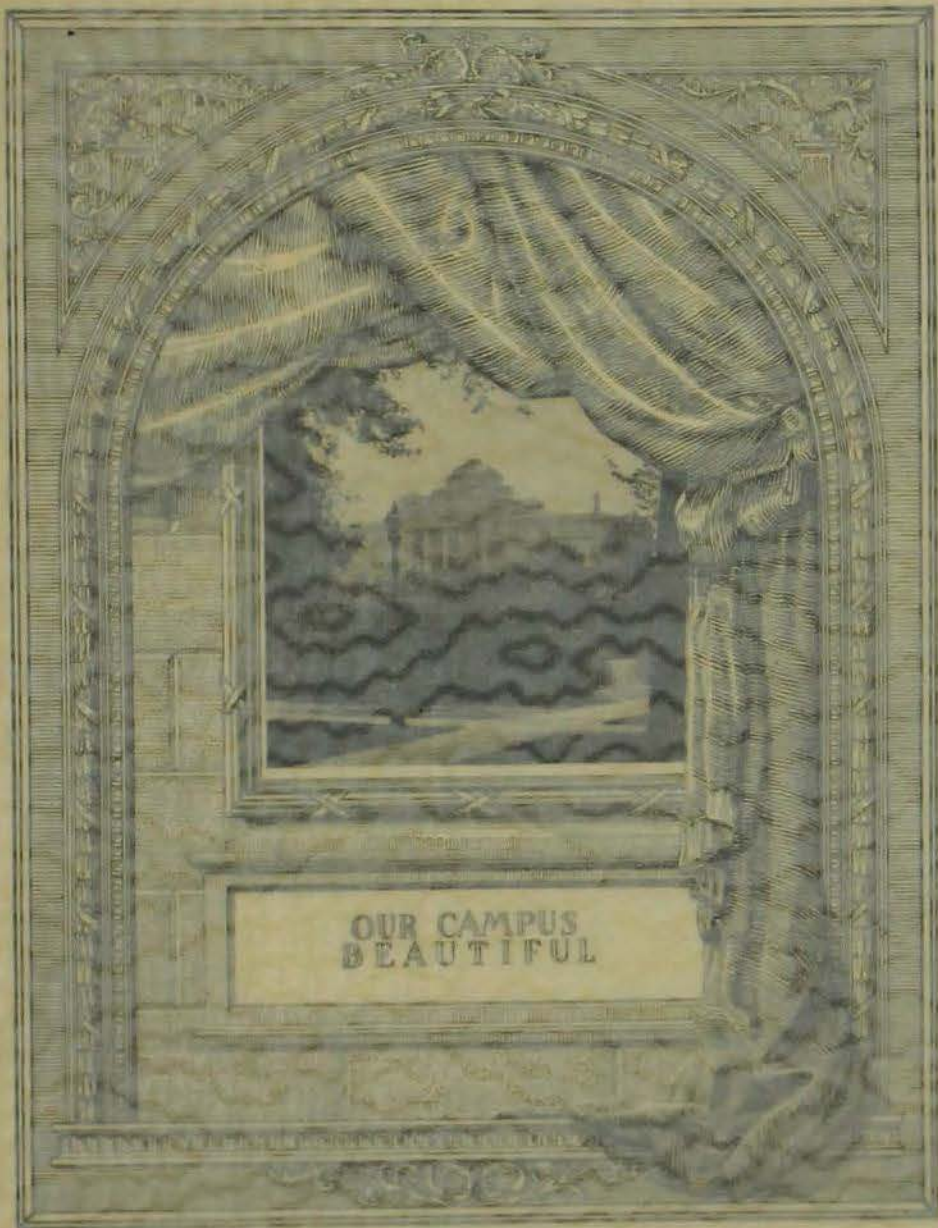

Remarkable progress has been made in the Memorial Union campaign, even though financial conditions have been adverse. At this time more than \$775,000 has actually been pledged and a generous portion of this has already been paid in. A special effort for larger gifts than \$100 life memberships is under way and it seems certain that the goal of a million dollars will be reached this calendar year.

Messrs. Pond and Pond, architects of Chicago, who have designed a number of Unions, are at work on plans and the general form of the building will be decided upon as soon as possible.

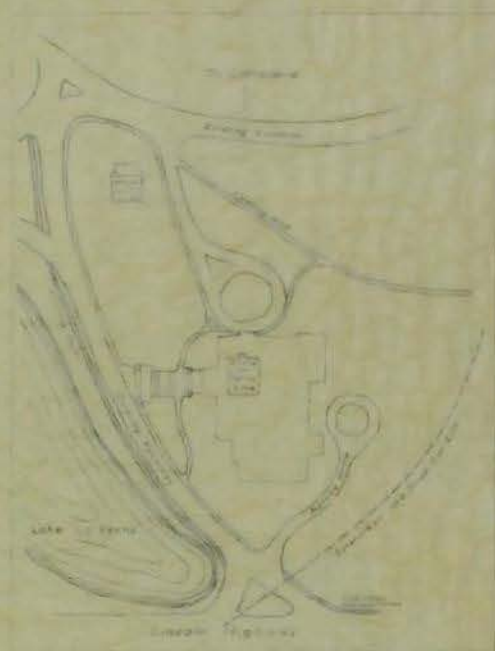

The site has been chosen and it has been dedicated by an all-university ceremony.

This great enterprise has moved steadily forward. There has never been a time, since the student body and faculty started the campaign with such enthusiasm and with amazing generosity, that it has not moved on. The future of the project never looked brighter than right now and it seems certain of early consummation.

And perhaps not until Memorial Union is up and in actual use will we realize what a splendid thing we have done for Iowa State and with what vision and wisdom we have built it.

ADMINISTRATION

GOVERNOR HAMMILL

WE TAKE pride in our public system of education, because of the high rank which our public schools and institutions of higher learning have attained among those of the nation. The high average intelligence and morality of our people is very gratifying and commendable. Good as these conditions are, Iowa must keep in the forefront of the educational progress. Advantages of a generation ago cannot meet the needs of the present time and to a lesser extent the needs of generations to come.

Our colleges are the most democratic institutions we have. People from all classes and walks of life may meet here on a common basis. The state colleges and the State University form a grand terrace of educational opportunity which should be supported liberally in order that none who seek entrance therein shall be deprived of the most efficient training possible within the financial ability of the people to reasonably provide. The best preparation our state and nation can foster in the making of citizenship is a sound body, a clear mind, a pure heart, ability to do something well, and faith in the love promulgated by the Prince of Peace.

JOHN HAMMILL.

State Board of Education

P. K. Holbrook, D. D. Murphy, Pres., Geo. T. Baker
 Chas. H. Thomas, E. P. Schoentgen, Anna Lawther, Merrill Green

PRESIDENT PEARSON

THROUGH research and education, Iowa State College is serving the people of the state in many ways. The great ambition of the college is to teach the truth, whether new or old, in the educational fields within the scope of the institution. Students are being trained to become useful workers and leaders in vocations in which at least 80 per cent of the people of the state are directly engaged. The whole purpose of the institution in finding and teaching facts, in helping to strengthen character, and in training for service and leadership can be summarized in the words, "Good Citizenship."

R. A. PEARSON, *President.*

Chaplain

DOCTOR CESSNA

My one wish for this great student body is that, in this time of making life adjustments, you shall have a vital acquaintance with Jesus Christ—a feeling that "you can almost shake hands with Him." Not back to Jesus, but forward with Him. Not back to Him simply as a historic character, but forward with Him as a living Presence.

Not — "I should like to have been with Him then"
 But — "I would rather be with Him now."
And you may.

O. H. CESSNA.

Dean of Women

DEAN STANTON

Any phase of the life, work or play of the women students is of vital interest to the Dean of Women. Accommodations which insure a comfortable, happy and desirable home life conducive to the real work at hand; activities with the attendant questions of health and scholarship; intercourse with fellow-students and faculty which maintains the high social and moral ideals of the college—these are sources of the problems, the solution of which is my responsibility.

JULIA W. STANTON.

Junior Dean

DEAN ROBERTS

It is the purpose of the Junior College to help students adjust themselves to the new environment of college life. Generally this advice and help begins by correspondence before the student enters college and continues through the first two years of his stay. Iowa State College has an enviable record for high scholarship and it is one of the main purposes of the Junior College to see that each incoming class knows these standards and feels its responsibility in helping to maintain them.

MARIA M. ROBERTS.

Dean of Men

DEAN FOSTER

The door of the office of the Dean of Men is always open to any student seeking counsel. This brings to his attention a wide variety of intimate, personal matters. He serves as a member of a number of college committees dealing with student affairs. Recently the directorship of the Summer Session has been combined with this office. Nearly fourteen hundred were enrolled in the first term and eight hundred in the second term of the 1924 Summer Session.

J. E. FOSTER.

Business Manager

HERMAN KNAPP

To administer, budget and pay out the funds of Iowa State College under the direction of the President and Board of Education, is our task. To save the people of the state every penny possible without loss of efficiency is our daily problem. To follow the golden rule is our motto.

HERMAN KNAPP.

Registrar

J. R. SAGE

The office of the Registrar greets the student as he enters college with his high school credits in his hand and keeps in touch with him throughout his entire course. It furnishes his marks each quarter, prints the college directory, prepares the annual catalogue, issues fraternity initiation permits, determines eligibility for honor societies, and finally prepares his diploma at the end of his course.

J. R. SAGE.

Alumni Secretary

H. E. PRIDE

The General Alumni Association publishes the *Alumnus*, a monthly magazine of information and news; maintains comprehensive alumni files; prepares and publishes alumni directories; strives to keep the alumni informed on all important matters and fosters cooperation between the alumni and the college. Service to alumni, service to the college—these are the foundation stones of the association.

H. E. PRIDE.

Superintendent of Buildings and Grounds

THOMAS SLOSS

Superintendent of Buildings and Grounds has general supervision of all buildings on the campus, the power plant, and water and sewer systems, all roads in and around the campus, all repairs and improvements on buildings and grounds; the supervision and inspection of all of the new buildings erected by contract.

It is my business to keep buildings and grounds in the best possible condition at a minimum expenditure of funds.

THOMAS SLOSS.

The Graduate College

*"A little learning is a dangerous thing;
Drink deep, or taste not the Pierian spring;
Their shallow draughts intoxicate the brain,
And drinking largely sobers us again."*

—POPE.

DEAN BUCHANAN

THE Graduate College was conceived in the early days of Iowa State College. In the catalogue of the year in which the first degrees were granted (1872) there appears the name of a graduate student. The men on the first faculty were among the foremost teachers and scientists of their day, and appreciated the necessity of advanced training. Growth was slow for several decades. Even at the end of the third decade of the school's existence there were only a score of graduate students. Recently the number of students and facilities for work has increased very rapidly, until at present the total graduate enrollment for the year is about six hundred. They are doing advanced work in most of our technical subjects and in the sciences basic to the industries. They come from the four corners of the earth. Iowa State has definitely taken her place among the leaders in graduate work in technology.

R. E. BUCHANAN.

The College of Agriculture

Of all things from which gain is obtained, nothing is better than agriculture, nothing more productive, more delightful, more worthy of a man or a freeman.—CICERO.

DEAN CURTISS

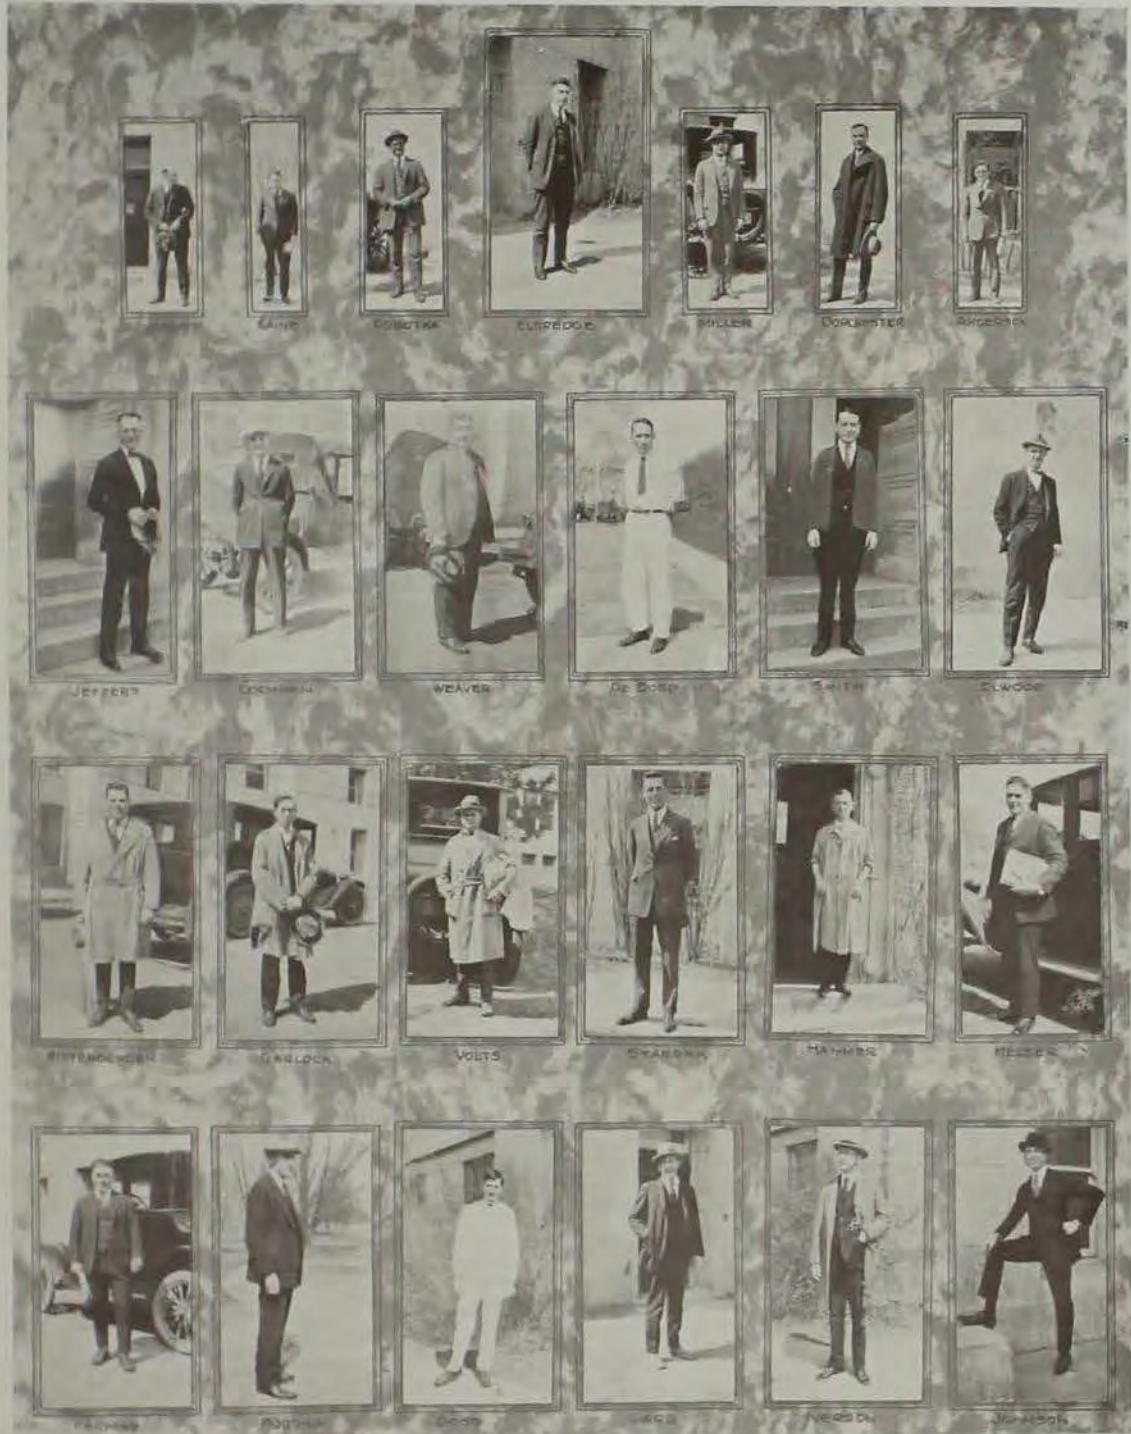

It is not so many years since all of the work in the division of agriculture at the Iowa State College was grouped under a single four-year course of study, and the entire enrollment in this course was represented by a single student. At that time there was no state appropriation for research work in agriculture, except a fund of fifteen hundred dollars of uncertain application, and the federal fund for research work was limited to fifteen thousand dollars annually.

The work of the division of agriculture has developed through various stages until it now embraces nine distinct departments of collegiate work and one of non-collegiate, and several of these contain divisions that might, in turn, constitute other departments. The total enrollment of agricultural students for this year will exceed thirteen hundred, which is the largest of all the agricultural colleges of the Central States.

C. F. CURTISS.

THE BOMB OF 1925

The College of Engineering

"Thus it is that the commonest objects are by science rendered precious; and, like manner, the engineer who plans and works with understanding of the natural laws that regulate the results of his operation rises to the dignity of a Sage."—RANKINE.

DEAN MARSTON

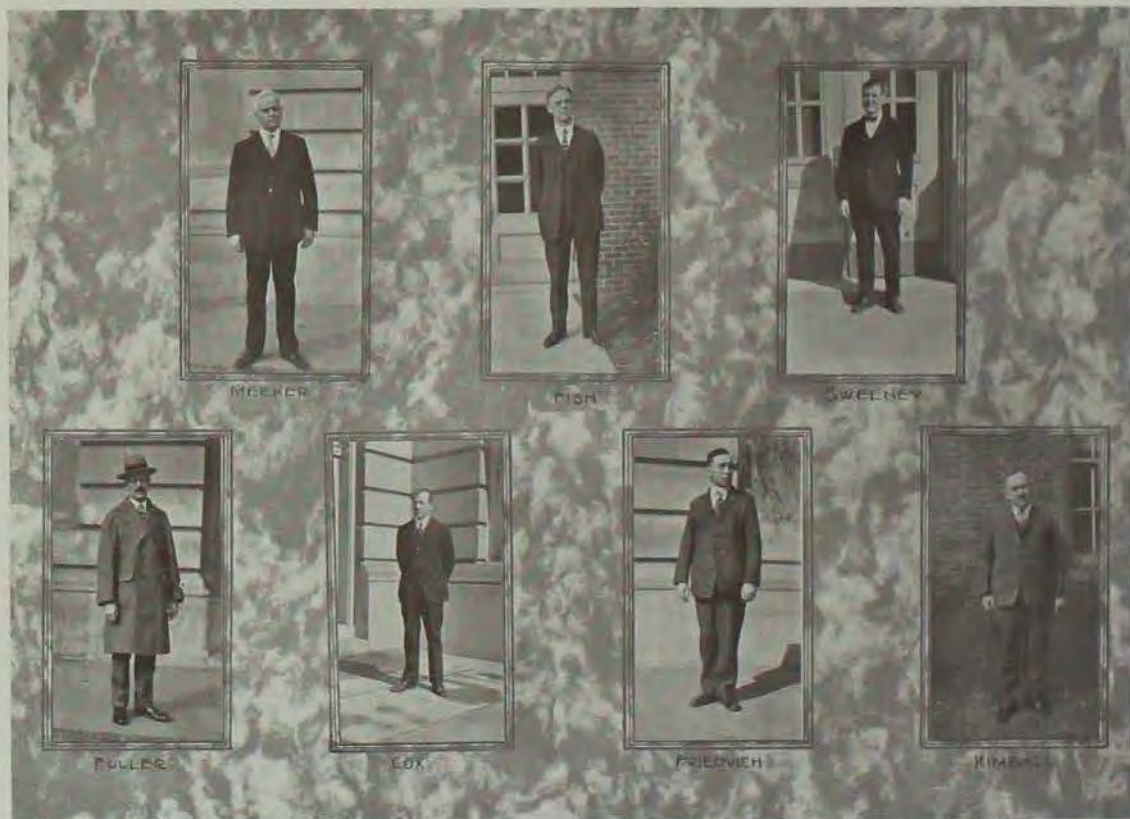

Engineering has been one of the major lines of work at Iowa State College from the first. Collegiate instruction of the highest grade is given in eight five-year and ten four-year courses, in nine different branches of the profession.

The number of collegiate engineering students now is about 1350, of whom approximately sixty are in the Graduate College. In addition, non-collegiate instruction is given to about two hundred mechanics and draftsmen.

The Iowa Engineering Experiment Station is an acknowledged pioneer and leader in engineering research, and has made important contributions to modern engineering science. Some of its discoveries save Iowa millions of dollars per year.

The engineering alumni of Iowa State College have attained high recognition in their profession, having achieved a large measure of personal success, and have rendered and are rendering professional services invaluable to Iowa and to the entire nation.

The College of Home Economics

*In her very style of looking
There was cognizance of cooking!
From her very dress were peeping
Indications of housekeeping.*

—BUCHANAN.

The year 1924-25 has brought to the Home Economics Division the assurance that the hopes and dreams of the past ten years are to come true—a beautiful new stone building, which expresses the fine ideals for which Home Economics stands, is just now rising at the north end of the campus quadrangle.

The work of the several departments is keeping abreast with the best that is offered in Home Economics. They are responding to the enlarged view of the scope of the work, which demands a deeper knowledge, and an appreciation of the scientific, social and economic questions which must be faced and solved by our people.

We are glad to extend greetings to all of you, and to our fine student body, also the guarantee of a hearty welcome to our incoming Freshmen.

The College of Veterinary Medicine

"The lessening of suffering in dumb creation, the prevention of diseases of animals communicable to man and the saving of millions of dollars worth of live stock from disease are tasks of sufficient importance to attract those who wish to render a valuable service to humanity, which is the true purpose of all professions."

The principal object and effort of the Veterinary Division is to train competent men for service to the live stock industry, the corner stone of America's wealth of which the veterinary profession is the greatest safeguard; to assist in protecting human health and happiness; to determine better methods of controlling and eradicating animal diseases; to develop professional character and ideals of service and citizenship.

The College of Industrial Science

Men love to wonder, and that is the seed of our science.
—EMERSON.

The Division of Industrial Science undertakes to supply the groundwork for the technical divisions in the fundamental sciences, the languages, mathematics, the humanities and military science. More than one-third of the work required of students in Agriculture, Home Economics, and Veterinary Medicine for the first two years is given in this division, while the Engineers do two-thirds of their work for the first two years in the Industrial Science Division.

In addition to the foundation work done for the technical divisions, students are permitted to major in one or another of the physical and natural sciences, mathematics and military science and tactics.

These courses are not Liberal Arts courses, but are intended to fit the student for certain specialized fields which are related to the industries of the state and nation.

The class of 1925 after four short years, is preparing to leave the portals of our Alma Mater to take up the greater work to follow. During this time we have set a standard that will serve as a criterion for future classes. The names of many of our class are indelibly inscribed on the honor rolls of Iowa State.

An Alumnus has told us what our Alma Mater expects of us—"to render useful, intelligent, and unselfish service to our neighbors, to our community, and to our Government." We accept the trust.

HAROLD BREWER	Secretary-Treasurer	CLARENCE TAMM	Secretary-Treasurer

The two-year courses in Agriculture and Trades, and Trades and Industries have been equally recognized in campus activities this year.

The courses have been improved, many new students have been enrolled during the winter quarter, and much effective publicity work has been done in the way of broadcasting radio programs by two-year men. Each man stressed one major branch of the two-year work in a short talk, and the two-year quartet lightened the program by singing humorous songs between talks.

The Junior Class returned to school last fall with the realization that the burden of activities of the upper classmen were upon them. Leaders in all activities have correspondingly risen from our ranks to shoulder these burdens. They have been carried with credit to our class, to the individuals, and to Iowa State.

During these last three years we have fallen short in many of our tasks and ambitions, but on the eve of our Senior year we pause to reconsecrate our efforts to the fulfillment of the aim of every class—that of strengthening an Ames Spirit that will endure throughout the years. May we do this through a development of a greater group consciousness and a more united Class of '26.

C. T. COWNIE, *President.*

In the fall of 1923 we entered Iowa State as Freshmen. We little realized at that time what college was all about and what a large part we were to play in its activities. Before coming we were impressed by the wonderful achievements and possibilities at Ames and we immediately solved a great problem by choosing Iowa State as our college.

From the beginning we proved our strength and spirit by defeating the Sophomores in the annual pushball fray. Our Freshman athletic teams were a credit to our class and brought to the fore an abundance of future varsity material.

The Sophomore year found us back again, fewer in numbers but stronger than ever in spirit, a fact that we brought out by another victory over the Freshmen in the pushball contest. The fact that we were Sophomores only increased our efforts to do something big for Iowa State. We now had a part in every activity on the campus. In everything that is undertaken the Sophomores may be found giving all that is in them for Iowa State.

With the opening of the 1924-25 school year the Iowa State campus saw a greater influx of new students than ever before and when the initial meeting of the class was held, practically the entire enrollment turned out to elect their first officers.

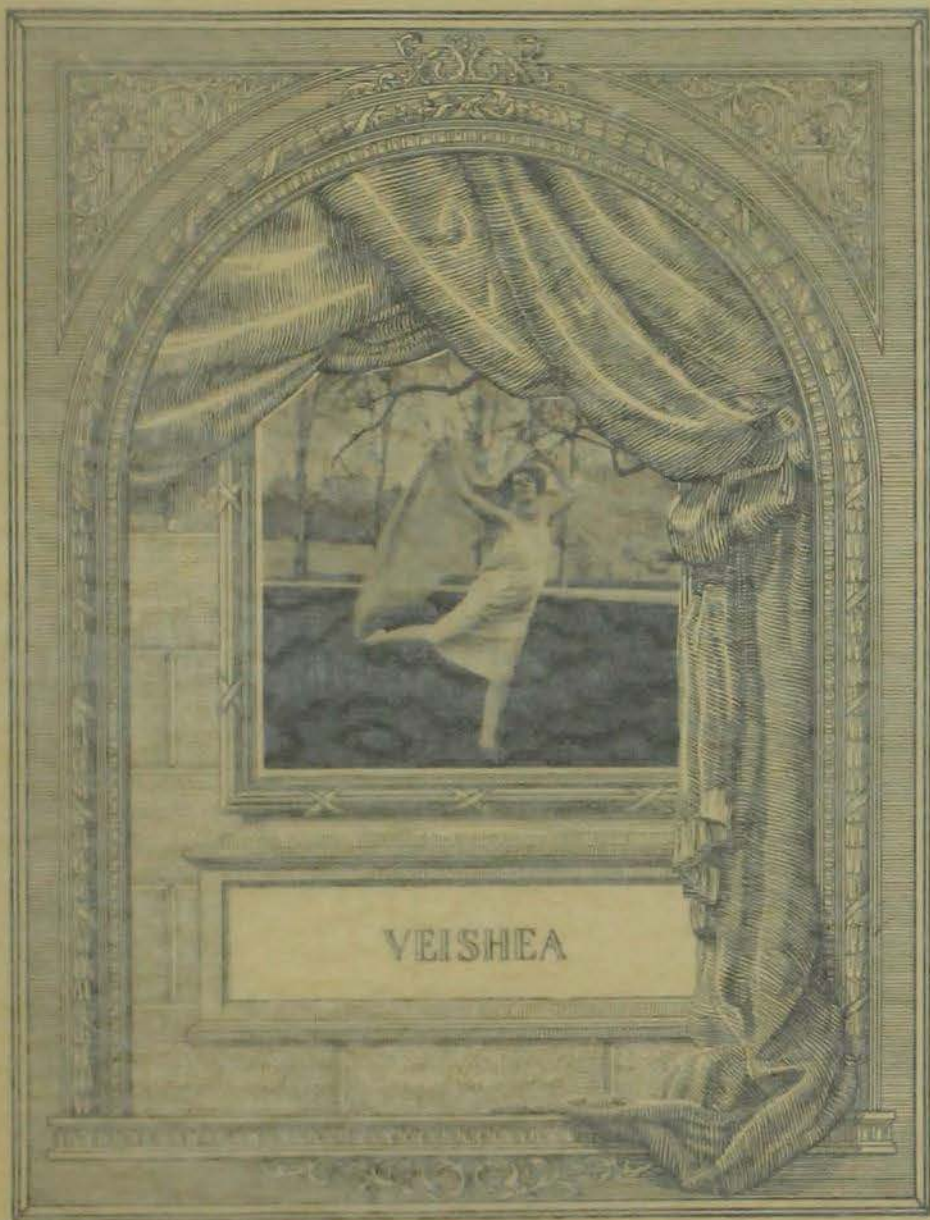

The new Freshman class set an example for future years in the matter of finances. By increasing the class dues from 25 to 50 cents, the same as other classes, they obviated financial complications and collected a sufficient amount to leave a substantial nest-egg for starting their next year's class activities.

Athletically the preps proved to be well up to or above standard. Many members of prep teams are expected to take varsity places as they become eligible next year.

PROGRAMS

Visitors, including parents, alumni, and friends from all over Iowa came to Ames to see Iowa State College at work and play as depicted in its great three-day exposition which took place during the 15th to the 17th of last May. Its success marked the culmination of over three months' effort to make the 1924 Veishea the greatest in its three-year history.

Early in the school year the general committee was selected and plans were soon under way. Publicity was state wide. Everybody licked

stickers, posters were much in evidence, and students were well supplied with program cards to take back home during the spring vacation.

As the time approached, the atmosphere became more saturated with Veishea spirit. Everyone was confident that the well-planned programs would be carried out successfully. They were, and thousands of guests were inspired by the spirit which, after all, is only typical of Ames. Turn on.

CONVOCAATION

IN STATE GYM

MARCHED FROM CENTRAL

NOW YA SEE THEM- NOW YA DONT

LEAPING FLAMES

OFFICIALLY OPENED

The moving up ceremony officially opened the third annual Veishea at 10:30 Thursday morning. Freshmen who had been conscientiously wearing their prep caps during the year were forever relieved of their insignia by feeding the leaping flames of the huge bonfire with their scarlet bonnets.

Immediately after the moving up ceremony Carl Russell Fish, noted American historian and speaker and head of the American history department of the University of Wisconsin, addressed convocation.

With one of the big attractions of the carnival lying in the athletic program, Iowa State had a big drawing card for out-of-town visitors. A varsity baseball game, won Thursday afternoon from Washington University, was followed the next morning by another varsity game lost to the Pikers. Thursday's contest was a thriller from start to finish, ending two to one in favor of the Ames men.

"DANCE OF THE FLOWERS"

"400 PEOPLE WITNESSED"

"YE LITTLE CHILDREN"

"YE FALCONERS"

"THE MAY POLE DANCE"

"YE FROG WHO CHANGED HIS COAT - YE GOAT WHO LOST HIS PLATE"

"YE ANTICS"

Quite a contrast to the swift action of the baseball game was the May Fete, which attracted fourteen hundred people to the greenward east of the campus, where members of the home economics division, under the joint direction of Miss Marion Calcord and Miss Winifred Tilden, of the physical education department, presented "The Wishing Chair," the

them of which was based on the spirit of Old English May Day. The scenario for the May Fete, which was selected in an all-college contest, was written by Ruth Elaine Wilson.

The May Queen, who is elected by the co-eds, but whose identity is kept secret until the pageant is given, was Helen Herr.

"YE SPIRIT OF THE GREENWOOD"

YE TRUMPETERS

YE GREEN LEAVES

"THE CROWNING OF THE QUEEN"

"MUCH HOMAGE DID THEY DO"

YE LAST DAYS OF APRIL DORIS ANDERSON

HELEN HERE CROWNED QUEEN

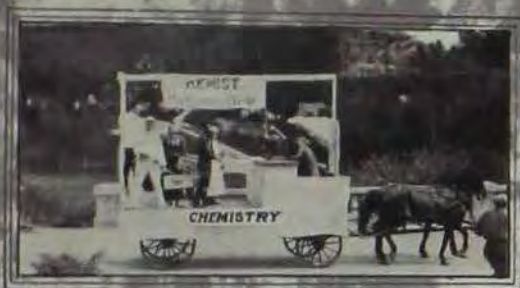

The play was characterized by picturesque English scenes, quaint costumes and several dances, among which were "Aurora" by Albee Bowie, "Last Days of April" by Doris Anderson, and "Myrtle, Magnolia and Mimosa" by Ruth Shave, Ruby Faul and Kathryn Lepley.

Arranging for both dancers and non-dancers, the committee sched-

uled both the Veishea gym dance and the presentation of "The Mikado" by the music department for Thursday evening. "Much" Lorenz and his twelve-piece orchestra furnished music for a capacity crowd of dancers. The operetta, "The Mikado," was characterized by Japanese costumes and settings in striking colors.

"PHYSICAL EDUCATION"

"PLAQUES WERE OFFERED"

"FOR THE BEST FLOATS"

"IN EACH DIVISION"

"TOOK SECOND PLACE"

"SWEEPSTAKES"

"FIRST FOR VETS"

Sweepstakes in the Veisken parade was won by the dairy husbandry department with the float, "Prosperity follows the dairy cow." Poultry husbandry department took second place with a float symbolizing Iowa as the "egg basket of the world."

It was estimated that fifteen thousand people saw the parade. Besides the thousands on the campus, great downtown throngs witnessed the

story of Iowa State's contribution to civilization as depicted by the floats. Plaques were offered for the best floats entered in each division. The chemical engineers won in the engineering division; the physics department in the industrial science division; the poultry department in the agricultural division; physical education in the home economics division; and the veterinary division on the single float entered.

HONORABLE MENTION

"MANY ORGANIZATIONS"

ENTERED FEATURES 2

MILITARY DISPLAY

"IN THE PARADE"

THE STORY OF 2

"IOWA STATES"

"CONTRIBUTION"

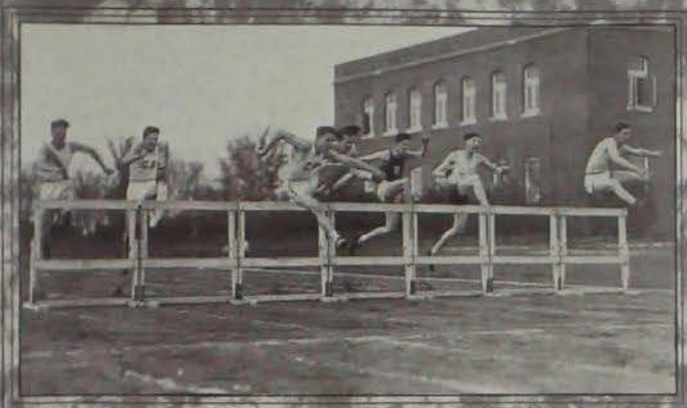

Over fifty departmental and feature floats were entered in the parade, which was formed back of Ag hall and followed a route past Central building to Campustown and then downtown.

Many organizations entered features in the parade which added much to the affair. Pi Kappa Alpha won the cup offered to the winner in this section.

Friday morning saw the opening of the state high school track meet,

which brought over three hundred athletes to our campus. In the top picture on the next page they are going over the high sticks for one of Cedar Rapids high school's firsts. Cuhel, who has the habit, ramped off with these honors, tying the meet record at a flat sixteen seconds. Morrison of Carroll and Gawnt of Marshalltown took second and third.

Iowa's college and university athletes met on State Field Friday in a preliminary battle for state honors on the track. Finals in the meet,

"OVER THE HIGH STICKS"

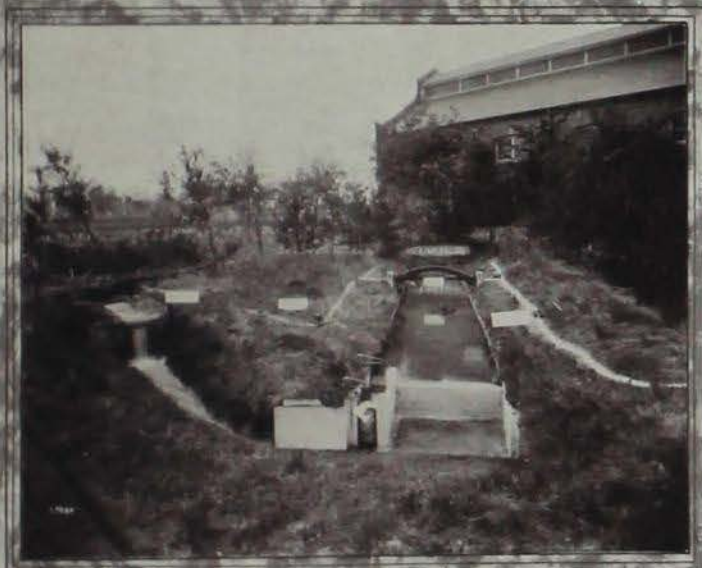

"WITHS ITS DANCE"

"HEADIVISION FIRST IN OPEN HOUSE"

"SALESBOOTHS"

OPEN HOUSE DISPLAY - CIVIL ENGINEERS

"SIDESHOWS"

held the next afternoon, were exciting to the utmost with a world's record shattered by its former holder, and a great number of state records either bested or equaled.

The prep school baseball tournament brought thirty-five of the leading prep nines of the state here for competition. Collins high school won the championship.

The carnival Friday afternoon and evening served as a source of amuse-

ment for the college students and visitors with its dance, its sideshows and its sales booths.

Friday evening and Saturday morning Iowa State was really on display when the five divisions of the college opened their doors in their annual open house. Prizes were awarded for the best displays, and Iowa State was on exhibition to the best advantage to visitor or student who went through the various halls.

THE
AUTHORS

"TOM, DICK AND HARRY"

"SHIP AHOY!" "SOME BOY!"

"MAH JONGG PAH JONGG"

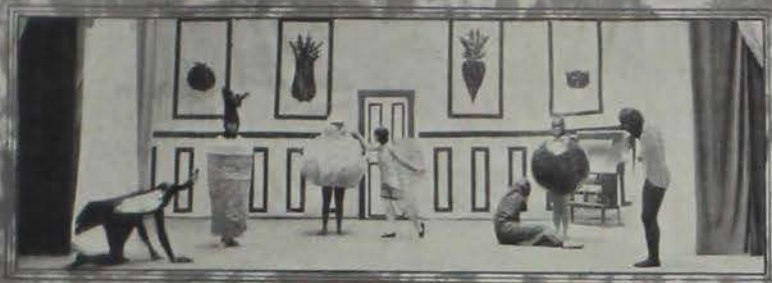

FERTILIZER AND PROCRASTINATION"

Featuring a ballet scene with unusually complete scenic effects and classic dances, "Yalami," the three-act musical comedy presented in State gym Saturday night as the closing entertainment of the Veishea program, met with unanimous approval from the crowd of twenty-six hundred people who witnessed the production.

A fantastic plot, portraying the troubles of a young naval officer in escaping from a family tradition, formed the major theme. Every hundred years in the Pendleton family the youngest of the three sons is

stricken with a spell which makes him abandon his old name and call himself "Yalami."

This name proves his undoing for it sounds like "You love me" and when spoken by the youngest son attracts the love of all women. The inevitable result of this spell is that this son becomes an outcast and the innocent cause of ghastly crimes. The only way to avoid the fulfillment of this tradition is to have the son fall in love with some girl and be refused.

THE GARDEN CHORUS

"O WE'RE THE GARDENERS

THE MONKEY

"IT ALL DEPENDS ON GRANNY"

THE LEADS

"GOD, MY GRAN NEW HI HORSE"

"Mrs. Cynthia Pendleton" or "Granny," played by Ida Cornforth, attempts to protect her son, "Albert," E. B. Umy, from the tradition, and enlists the aid of "Virginia Beaugarde," Nancy Elliott. "Virginia" attracts the love of "Albert," refuses him in order to break the spell of the tradition, and then accepts him, not as "Yolani" but as "Albert."

Humorous effects were introduced by the other characters in the play. Geverna A. Erickson, as "Brilliantina," the Swedish scullery maid, captivated the audience with her frequent ejaculations and her conversa-

tion over the telephone in the second act. T. H. Peddie and Mona Thompson, as "Fertilizer" and "Procrastination," colored gardener and cook at the Pendleton home, brought many laughs from the audience.

The ballet scene, "Romance of Thanis," presented in the third act as a part of the ball given by "Granny" in honor of her son, surpasses anything of its kind seen by the writer in college productions. It was unique, in that it presented a plot of its own by interpretive dances. The leads in the ballet scene were taken by Helen Herr and Loren K. Kohle.

THE LEADS WERE TAKEN BY—

ENTER THE KING AND QUEEN

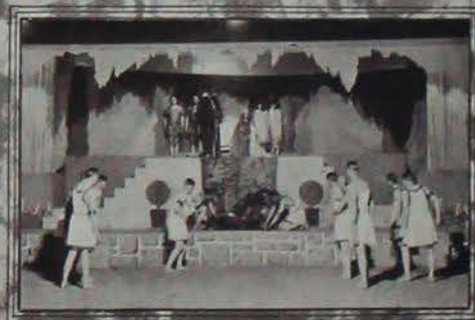

THE WARRIORS DANCE

HELEN HERR AND LOREN KAHLE

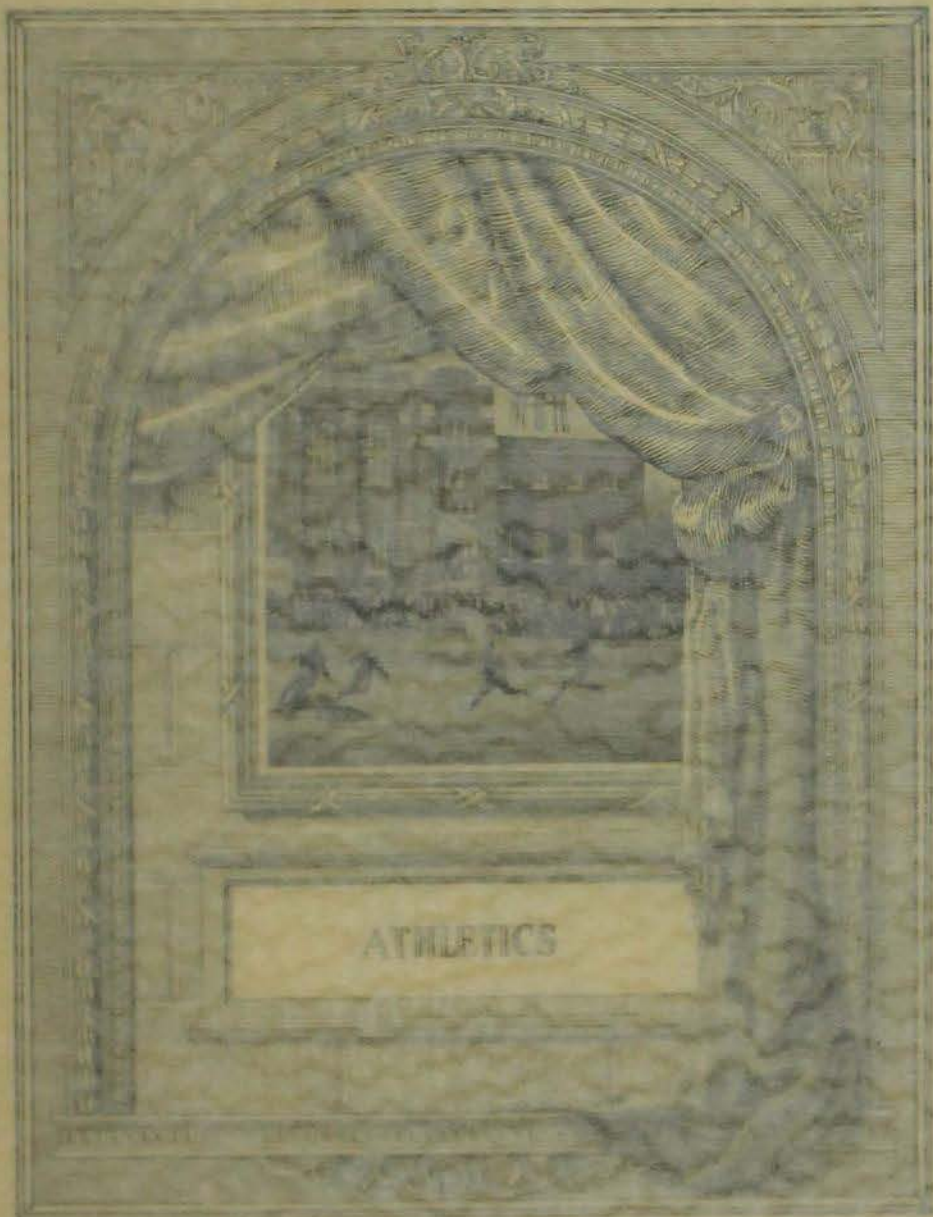

HONOR TO THE QUEEN

THE PRISON CAPTURED

The "Waltz Fascination" and "Yalami Means You Love Me" songs, the major lyrics of the production, made an instant hit with the crowd. The play opened with the Polo chorus, costumed as the players, singing the catchy lyric, "Hi-Horse." The Sailor chorus, appearing early in the first act, made a quick hit with the audience in the feature dance and song, "Ship Ahoy! Some Boy!"

Among the musical hits of the evening were the numbers "J'oct. No. J'ew," "We're All of the Family Tree," and "Old Girl of Mine." An entr'acte, "Mah-Jongg-Pah-Jongg," given at the opening of the third act, illustrated the favorite pastime of the guests at the house party. Clever costuming and stage effects added to the scene.

ATHLETICS

T. N. METCALF
Director of Athletics

The Administration

The past year has been a notable one in Intercollegiate Athletics at Iowa State. The high points of the year are:

1. A Missouri Valley Conference Championship in baseball.
2. A cross-country team that won its two triangular meets and finished second in the Conference.
3. One of the best football teams in the Middle West; a team which played an extremely difficult schedule and was superior in strength and in performance to all football teams that have represented Iowa State for many years.
4. A boxing team which won all its dual meets, losing but four bouts.
5. A wrestling team which placed second in the Missouri Valley, first in the Western Intercollegiate and which won its six dual meets with the loss of but four bouts.
6. An indoor track team which won its only dual meet, and relay teams which met and defeated Iowa, Nebraska (twice), Notre Dame (twice), Kansas Aggies, Michigan, Wisconsin and Chicago, and set new records for the two-mile relay at the Kansas City Athletic Club Meet and the Medley Relay at the Illinois Relays.

The year is notable also in that it marks the starting of work on an additional unit of eight thousand nine hundred seats for the stadium.

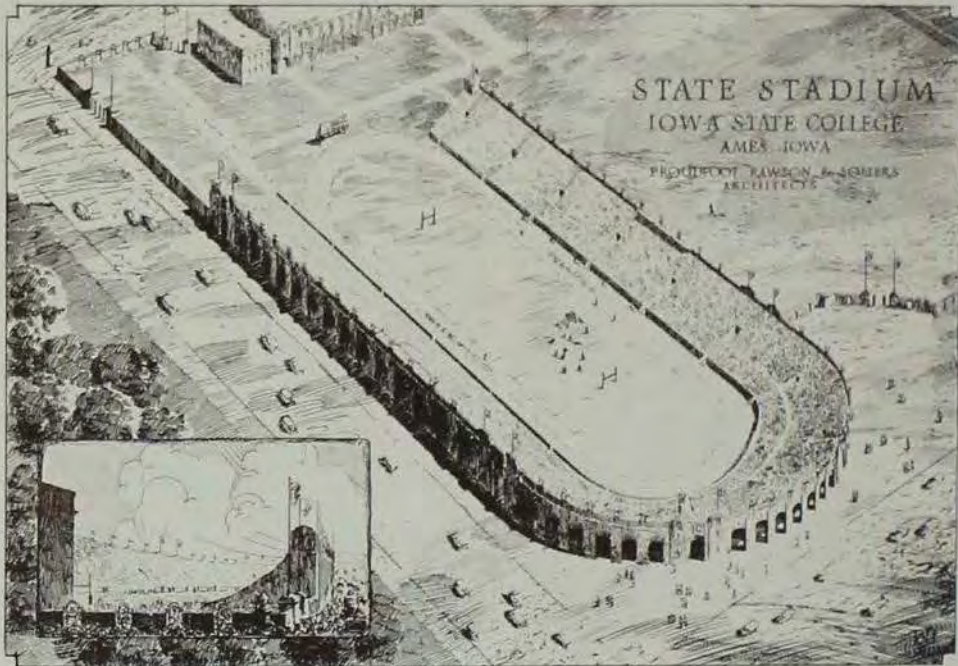

The outlook for the future is bright. With the loyal support and co-operation of students, alumni, faculty, and townspeople, the excellent facilities for our work, the strong coaching staff, and the ever-improving athletic squads, Iowa State's place in the athletic world should continue to rise.

T. N. METCALF.

The Coaching Staff

Daubert, Chambers, Hauser, Otopalik, F. Willaman,
McPhee, Chandler, S. Willaman, Metcalf, Ross

For a number of years it has been evident that an enlargement in the seating capacity of the Iowa State bleachers was a necessity. Such football games as the Homecoming and Drake contests have put an almost impossible task upon the shoulders of the athletic committee in trying to seat the ticket demand.

In April of this year work was commenced on a block of new seats similar to the section of concrete bleachers that were previously available. The new section which will take care of eight thousand nine

hundred people in comparison to the five thousand six hundred of the old section, is to form with that part the nucleus for a very adequate stadium which is expected to grace the State field before many years have passed.

The new section, costing \$72,000, is located exactly opposite the first one and is of the same height and length. However, the seats in the new division start two feet above the ground in comparison to seven feet in the older one.

Football

Starting out with a successful spring practice, and ending with a victory over the Drake Bulldogs, the 1924 football season was a success from every viewpoint.

The initial game was 23-13 win over Nebraska Wesleyan on State Field, and proved to be a good stiff practice game for the Wisconsin game which came the following week at Madison. It was in the game with the Badgers that the real strength of the Cyclones became known. Playing against a team that outweighed them, the Cyclones outplayed their rivals for three quarters, only to allow Wisconsin to push over two touchdowns in the final minutes of the game. Ames used the forward pass for gains of more than two hundred yards in this game, and from that time on the aerial attack of the Cyclones was a constant worry to their foes.

Kansas was the next victim of the Cyclone passing machine, Ames winning by a score of 13-10. The winning place kick was negotiated in the last few minutes of play.

On the following week a "Homecoming" crowd saw the Ames team outplay the Missouri Tigers during the whole game only to lose 7-0. The Missouri touchdown was the result of a forward pass which was the only one the Tigers succeeded in completing.

After an idle Saturday, Ames next met and decisively defeated the Kansas Aggies, 21-0, scoring by every possible means. The next Saturday marked the climax of the season when Ames tied the Minnesota team in one of the best games of the season. At the final whistle the score stood 7-7.

In the Grinnell game the team suffered a slump, and lost by the score of 14-13. After this game, the team came back and redeemed themselves by running the roller over the Drake team for a score of 10-0.

The Coaches

Sam Willaman, with his brother, came to Iowa State College in 1922, having a three-year contract in which to make good. That is a hard assignment to fill after coaching at a high school, but there seems to be no doubt that he has more than made good. Before coming to Iowa State "Sam" Willaman was in charge of all athletics for four years at East Cleveland Technical High School. He played three years of varsity football at Ohio State and later spent three years under Wilee at his alma mater. His brother, Frank, has worked with him for many years. Frank's training has been similar to the other half of the combination.

There is little doubt as to head coach "Sam" Willaman's ability. Starting out with no striking material in 1922 he has developed some very good gridiron men in his stay at Ames. However, it was not until this year that he was able to get an ideal training system, with Frank teaching the Freshmen his brother's style of play. The harvest of this excellent idea, of course, has not been reaped as yet, but the fruit is very apparent and pleasing to think of. "Sam" inaugurated the idea of the spring football tourney in Iowa State. It is a system that brings out the men and puts over the stuff for the start of the following fall. The success of the system is borne out by the huge number of men that were out this spring.

During the fall season of 1924 Coach "Sam" Willaman had many men helping him in coaching the varsity. A picture of the group is shown in this section.

SAM WILLAMAN
Coach

Hauser, line coach, and Chambers, trainer, are new men at Iowa State this year and, like the rest, have performed very efficiently.

This year's team was a very creditable one, and now that the cooperative system has been started, they are expected to be even better. The aerial attack of the 1924 aggregation was a terror to opposing teams and had them continually worrying. Such strong teams as Wisconsin and Minnesota were astounded at the potentiality of the Cyclone attack. The team's defensive play was also a big improvement this year.

McPhee, Peckinpauz, Chandler, Hauser, S. Willaman, Allison, F. Willaman, Chambers, Metcalf

FRANK WILLAMAN
Coach

Prep Football

The following men were awarded numerals for freshman football:

Backfield men: Cory, Hall, Harvianian, Henninger, Hine, Larick, Smalley, Weiss, Zink, Townsend, Meeter.

Linemen: Asmus, Ewalt, Fischer, Helming, Kidd, Kingery, Krekōw, Lamont.

The freshmen were coached by the following men:

Head coach, Frank Willaman.

Assistant coach, Firkins.

Assistant coach, Birge.

Assistant coach, Alsin.

Assistant coach, Lieutenant Peckinpough.

About one hundred eighty-five men answered Coach Frank Willaman's call for freshman football. Out of this number a squad of approximately one hundred was kept throughout the entire season.

The men who made up the first squad were used the most to scrimmage the varsity and showed the qualities of future Cyclones. The backfield especially performed very well. With such men as Cory, Hall, Weiss and a few others as strong points, the freshmen were able to furnish good opposition to their opponents.

The fullback position was taken care of by Cory, who could plunge through the line at will, and who also played a strong defensive game.

Hall, who filled one of the halfback berths, may be termed a triple-threat man. He did all the passing,

punting, and his share of carrying the ball around the ends.

Weiss was the leader of the preps. Although somewhat light, he showed his worth by instilling much pep into the team and handling the team in good fashion.

Kingery was probably the outstanding man on the line. He played one of the ends most of the time, but is capable of filling any position on the line. He is likely to have his name in next year's varsity lineup.

Fisher played one of the guards, and used his weight to good advantage. He was one of the largest men on the line, and may be seen in action next year.

Ewalt was the prep center. He will probably be one of the men fighting for that position on the varsity next year.

Firkins, Peckinpough, Wallace, Zink, Asmus, Krekōw, Kingery, Cory, Kidd, Smalley, Hall, Willaman, Henninger, Maxwell, Fisher, Ewalt, Lamont, Helming, Weiss

CAPTAIN LEONARD T. RAFF

Basket Ball

Although there were five men on hand from last year's squad, Ames did not enjoy a very successful basket ball season. Out of sixteen games played the Cyclone eagers were only able to "cop" once. This game was won from Oklahoma University at the time when Oklahoma was leading the conference.

Several games lost during the season might be well called "hard-luck" contests. Ames lost to Oklahoma 27 to 24 in the early part of the season. Drake won two games, the first game ending with the score 23 to 22, and the second with the score 23 to 19. Missouri won a "thriller" by the score 17 to 15.

There were eleven letters given out, six being major A's, four minor A's, and a manager's letter. Those to receive major A's were: Captain Raff, captain-elect Anderson, Fisher, Jacobsen, Arnold and Miller. Those to receive minor A's were: Coe, Wright, Klingaman and Wheeler. Although Wheeler had never played in a varsity game he was awarded a minor A for being a member of the squad for three years. Van Roekel was awarded the manager's letter.

Klingaman (F.)	2	0	4
Wright (F.)	1	0	2
Totals	100	100	300

Jacobsen led the Cyclone hoopsters with a total of 90 points. Arnold was second with 49 points and Captain Raff was third with 48 points.

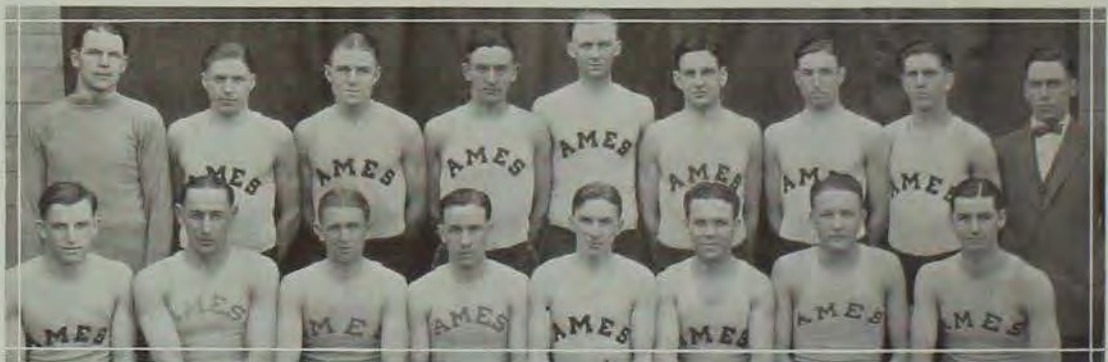

A total of 300 points were scored to opponents 484 points.

Although not very many games were chalked up in the win column, some good playing was exhibited by various players on the squad. Captain Raff started out in good fashion, leading his team in point scoring in the first half of the season, but his old injury returned forcing him to retire from a number of the games.

Jacobsen, three-letter man, was high point man for Ames when the season closed with ninety points to his credit. At the beginning of the season he did not seem able to find the basket, but as the season went on he improved so that he was closely guarded by opposing teams.

Anderson, captain-elect, did not show up so well in the early part of the season, but fought his way to a regular berth at forward by the end of the season. His floorwork was especially noticeable, both offensively and defensively. Despite his absence from regular play in the early part of the season he ranked second to Jacobson in team scoring.

Elliott, former Ames high school star, was doped to be Raff's

running mate at forward when the season opened, for they were both exceptionally fast, but this combination did not function the way Coach Chandler would have it, and Elliot was displaced by Anderson and Coe.

Coe played his first year of varsity basketball, having won his numeral on the prep squad. He was used at both the guard and forward positions, but seemed to be better fitted for the latter berth. He played a strong defensive game and worked quite well with Chandler's system of short passing.

Nothing has been said about the two Cyclone guards. Much credit should be given Arnold and Miller, the two regular guards. Arnold was playing his second year of varsity ball, while Miller was playing his first. Although Arnold was substituted for frequently, Miller holds the unique record of play-

ing every minute in every game. The two guards were a strong defensive combination, and they were largely responsible for holding the opposing teams to small scores. In almost every game they forced their opponents to make use of long shots in order to score.

Fisher, from last year's squad, played a regular forward position after Raff was taken out and performed in a commendable fashion, proving to be a satisfactory running mate to Anderson. His shots were fairly good and he played a good floor game.

Wright and Klingaman were two players who broke into the lineup very frequently. They were very able substitutes, both being forwards. Wright was a member of last year's squad, while Klingaman was playing his first year.

W. WEISS	

"Prep" basket ball loomed up exceptionally well this year. Never before has there been such a promising group of basketeers assembled on this campus. In every game with the varsity they won by overwhelming scores. They not only played a strong offensive game, but also guarded well. A good supply of men were available for every position.

The outstanding players on the squad were as follows: Stayer, Lande, Martens, forwards; Hay, Anders, Petersen, centers; Hall, Kling, Fisher, Corey, guards.

Stayer and Lande proved a good scoring combination, using the short pass to good advantage. They handled the ball exceptionally well and are quick to break from defense to offense, which was a characteristic of the entire squad.

Hall and Kling proved to be a big stumbling block to opposing forwards when it came to making baskets. Hay at center used his height to good advantage. He covered the floor well and was a very good shot at both long and short range. He may be used to fill the vacancy made by the graduation of Jacobsen on the varsity squad next year.

CAPTAIN WILLEM D. GEORGE

Baseball

Won . . . 7
 Lost . . . 3
 Per Cent .700

Correctly spoken of as the "hitless wonders," the Cyclones, aided by dazzling pitching and hard work, brought the Valley pennant to Iowa State in a closely contested schedule of ten games.

Working like beavers, although handicapped by the lack of veteran players, they accomplished the huge task of winning seven out of ten Valley games played. Missouri and Washington proved to be the hardest to put away. However, their success proved to be of more destruction to other contenders.

The Cyclone pitching was superb and was marked by the absence of lefthanders. Not a southpaw reported, and the lack of hitting practice against the "erratic wrong-siders" was the real reason for one of the two Piker victories.

As a whole, the team was much stronger on the defense than on the offense, the bulwarks resting in the hurling and the work of the team. The championship owes much for its return to the excellent efforts of Captain "Bill" George and Captain-elect "Ole" Jacobson, who played the game in "bang-up" style for the entire season.

The schedule was unique in the fact that the Ames men only met Washington, Kansas and Missouri. However, these were the leading trouble makers of the conference.

Take two good infielders (a third baseman and a shortstop), the captain catcher and a first string twirler from a second place aggregation, and you would expect a "cellar" club. However, the Cyclones with these gaps filled by new men worked themselves into the Championship of the Valley.

Not since 1919 has the gonfalon rested in Ames, and then its lustre was clouded by a short season.

Only the versatile diamond performer, Captain George; first baseman, "Ole" Jacobson; keystone

guardian, "Charley" Towne; pitcher, Clausen, and left fielder, "Micky" Menough, were veterans from the 1923 campaign.

Probably the most valuable work of the new men was that of "Bob" Fisher, who came from the "prep" squad. His playing progressed with season, transferring himself from an excited, somewhat erratic player at the start to a rather much improved fielder and batter. Runkle, before Fisher, was a good player; but "Bob's" work, coupled with his good arm, leaves little

Lundberg, Menough, Meadows, Fisher, Wolf

CAPTAIN GEORGE
Center Field and
Third Base

SMITH
Pitcher

to want and much to be expected. He found his batting eye in the last few games and raised his average to .270 for the season.

Next in line, among the new ones, was Hughes, whose batting average of .275 places him third in the Ames list. Comparatively speaking, his fielding would put him much lower than such men as Catcher Margeum, who batted much less, and Third Baseman A. Towne, who was both weak in batting and throwing.

The work of the veterans was of such caliber that they could not be displaced from their regular positions.

In picking the team's most valuable player, one is assuming a task that could not be satisfactorily answered to please everyone. However, if one would use major league tactics of 1924, he would pick H. Smith, the elongated flinger, who had a winning percentage of .834 for the season. "Slim's" sidearm delivery was at no time an easy mark for the opposition; and at times his hitting took on a pleasing aspect.

Captain "Bill" George was hard to relegate to second best, as his versatility in playing both centerfield and third base in bang-up style, coupled with a .293 batting average, was a large factor in bringing in the "Valley bacon." Third high is Captain-elect "Ole" Jacobson, who led the Cyclone offensive with a .333 batting average. His good work as a steadying influence and as a plasterer of the "old horsehide" was deserving of the honor he received.

Menough was the "peppy" fielder of which he has always been characteristic in overcoming his smallness in stature to shine in the game. Clausen, whose pitching record was even .500 percentage, winning 2 and losing 2, was handicapped much of the season by sickness.

The playing of such men as Captain George and the other veterans who have played their last game for Iowa State will be much missed and pleasantly recalled.

PRE-SEASON CONTESTS

Early contests were in the form of practice tilts, the first being with the Pella "Dutchmen." Friday's (April 4th) contest resulted in an 18-4 defeat for the Central aggregation, with Wright and Lougee doing the hurling for the Cyclones.

Saturday (April 5th) the Ames men played a better brand of baseball and "whitewashed" the Pella nine 10-0, while Lougee and Lundberg took care of the pitching.

Although the Cyclones were scheduled to play Coe on April 12th, it was necessary to postpone the contest until April 15th because of snow. (This is typical of numerous difficulties in training conditions endured by the Ames men in their drive for the championship.) The game resulted in a 7-2 defeat for the Cyclones, who were both outlucked and outplayed. Mosher, Lougee and Garrison tried to put them past the Kohawks.

WIN ONE, LOSE ONE, WITH PIKERS

Nevertheless, on April 18th, the Iowa State men opened the season with a "bang," and with the regular pitchers on hand. With Smith taking care of the mound duty, Ames came out on the long end of a 3-1 score in their tussle with the battling "Pikers."

On the following day, the Washington bunch just wouldn't succumb, and came from behind in the ninth inning to win 4-3 off of Clausen's good efforts in educating the pill.

WIN TWO GAMES AT MISSOURI

For Monday and Tuesday (April 21st and 22d), the Cyclones moved up to Columbia, Missouri, where they dimmed the Piker win by beating the Tigers two in a row.

In Monday's contest, which ended 9-4, Smith allowed the opposition nine hits, five of them coming in the second inning. The Tiger slashes were for naught,

as the Ames men had tucked "it" away in their half of the second with seven markers collected, due to much hitting and Reagen's wildness.

Tuesday's fray was a 6-1 victory for the Cyclones, whose offensive was again led by the excellent hitting of Captain "Bill" George. Clausen was hurling in good style, as the Missourians were able to connect safely only six times. A. Towne's third-basing was superb.

AMES 6—ARMOUR TECH. 5

Armour Tech. of Chicago opposed "Chandler's men" on State field Friday, May 2d. After a thrilling exhibition of the national pastime, the Cyclones captured the honors with a 6-5 score when Jacobson's hit broke up a tie in the ninth inning. The Ames outfit was both hitting and fielding in good style, and Margerum's catching showed much improvement.

AMES WINS ONE AND LOSES ONE AT WASHINGTON

CHARLES TOWNE
Second Base

MENOUGH
Left Field

KANSAS TRIP WAS A SUCCESS

May 9th and 10th were hard on the Jayhawkers, as they dropped a "pair" to Ames, on their last southern trip.

Smith's hurling was invincible, allowing the "Sunflower" men but three hits for the nine innings. Captain George with two hits, one a home run; Hughes with two hits, and Menough, C. Towne and Margerum with singles were largely responsible for the 4-1 victory.

Saturday, May 10th, Clausen kept the eight Kansas blows well scattered, and the Ames men combined a little heady ball with their four hits to give themselves a 3-1 win over the Jayhawkers. Hughes, who smacked the "apple" for a .428 average, and George, who connected at a .333 clip, were the batting leaders of the Kansas invasion.

With a won and lost average of .833, the Cyclones went into a tie with Oklahoma for the Valley leadership. It was apparent that Ames had a chance for the championship and were pretty sure to finish one-two-three.

Both Kansas State and Nebraska played opportune ball, and succeeded in dawning the Sconers at the right time while Ames played .500 ball in the crucial four games that followed.

TAKE AND GIVE IN SECOND PIKERS' SERIES

Thursday (May 14th) the Cyclones won out, 2-1, in a very hotly contested game with Washington at Ames, in which both teams lost a home run by having a batter fail to touch a base. Mudd for the Pikers and A. Towne of Ames were the victims. Jacobson, with a perfect batting average of two doubles out of two times at the plate, led the attack. The pitching was sensational, with Smith having the edge on Levy of the Pikers, who allowed two hits, one more than "Slim" gave out. Both men sent seven men back to the bench, after doing nothing more than mix up the atmosphere.

Friday, May 15th, was a bad day for the Cardinal and Gold, as it put them back in a tie with Oklahoma for first place. Previous to this contest, the Cyclones had not been forced to face a portsider; and Thym's southpaw slants could not be successfully or substan-

SAFE!

HEURKA
Right Field

MARGORRUM
Catcher

tially solved. Thus the Pikers were able to gain a 7 to 2 victory over the Iowa State men with Clausen hurling.

At this point of the race the menacing Sooners were sufficiently tamed when the Cornhuskers and the Kansas Aggies took them into camp four straight. Missouri then put the Washington Pikers in such a position that it was only necessary for Ames to "cop" once in their two-game series with the Tigers. What happened follows:

WON ONE OUT OF TWO FROM MISSOURI TO WIN VALLEY CONFERENCE

Saturday morning's contest (May 31st) went to the men from the "show-me" state, the final score being 3 to 2. The Iowa State men both outplayed and out-hit the Tigers, and Smith's work on the mound considerably outshined that of Waters for the Missourians. But the game was lost on an error when Clausen dropped a long fly, letting in a Tiger runner.

It was on Saturday afternoon, May 31st, the last Valley contest, that the Cyclones' fighting spirit finally won out. Smith, who lost on a little hard luck in the morning, got into the afternoon contest in the fifth inning, in time to save the game. In this, he was materially aided by a six-run batting rampage which won the game and the Championship for Iowa State.

This last series was a boon to the batting averages of most of the Cyclone players, including "Mickey" Menough, the Cyclone sacrifice man, whose average always is more or less low due to his position in the batting order. However, "Mickey's" fielding was excellent, and he made a "life-saving" throw to the plate to cut off a run in that last game.

LOSE POST-SEASON GAME TO MINNESOTA

On June 4th, the Cyclones met defeat at the hands of the fast Minnesota team in a post-season contest held in Minneapolis. No doubt the season's strain and the excitement of the championship struggle had something to do with their defeat in the "Lake State."

In the spring of 1924, more than for many years previous, did the freshman aggregation appear more as a ball team, rather than just a collection of yearlings. They were an organization displaying a brand of "pep" and baseball that was pleasing to watch.

Manship on third base is probably the neatest and most graceful man at the far corner that has been seen here for many years. In fact, the whole infield lacked little in the line of defense.

In the outfield the lineup was nearly as good, being led by Kruse in centerfield, who could cover the middle garden in fine style, and who was the outstanding hitter of the first-year men.

Murphy had first choice as the prep receiver. His peppy work, coupled with his defensive play, were very noticeable. Brotherton, who had a good arm, but who was weak with the stick, was next in line as a backstop.

While Babb was the outstanding twirler for the first-year men, a number of the other men, such as Adkins and Troxel, showed to an advantage.

The team, as a whole, no doubt owes the most of its good work to the able coaching of Dr. Dvorak. His experience in minor league ball was apparent in the fine showing of the yearlings.

Track

CAPTAIN CARROLL HAMMERLY

When the 1924 track squad doffed its spikes at the conclusion of the season, the Iowa State banners had been borne through the heaviest track calendar of several years. From the middle of April to the fore part of June the Cyclone tracksters were busy, each weekend.

The Ames strength, as usual, made itself manifest in the middle distance events; although, as a whole, the team showed far better balance than the previous year. Especially significant is the fact that of the twelve letters granted this year six were won in the field events; whereas, last year the field men captured but four of the thirteen awards.

Although handicapped somewhat by the novelty of becoming accustomed to a new coaching system, introduced by Head Coach S. S. Willaman and Assistant Coach Frank Willaman, the men responded nobly, and carried the Cardinal and Gold through a fairly successful season.

Two state records bowed to the efforts of Cyclone track men and were replaced by new marks that bid fair to stay awhile. The state record of :21 6/10 in the 220-yard dash was tied by Ralph Maine, the Ames dash man. The two new marks upon the state track records were placed there by George McIntire, who was clocked at 4:25 2/5 in the mile, and Charles Mounce, who tossed the 16-pound sphere for a new record of 41 feet 6 3/5 inches. All of these marks were made in the State Meet held at Ames on May 17.

THE BOMB OF 1925

KANSAS RELAY CARNIVAL

At Lawrence, Kansas, on April 18th the Cyclone cinder artists encountered their first opposition of the outdoor season. Entering the University Medley Relay, Ames was unable to secure better than fourth place. The quartet of runners from the University of Texas annexed this event in 7:32 2/10, thereby setting a new Kansas Relay record which is likely to stick upon the books for a long time to come. For Ames, the baton carriers were: Hammerly for the 440-yard, Maine the 220, McIntire the 880, and Bierbaum the mile.

DRAKE RELAYS

The following weekend at Des Moines in the Mid-Western Relay classic the Ames spikesters were still unable to hit their stride, and were barely nosed out by the Northwestern team in the Two Mile University Relay event. Hammerly, Miller, Bierbaum and McIntire bore the Ames colors.

MINNESOTA DUAL

On May 3d at Minneapolis the Cyclone squad encountered the Gopher track men on their home grounds, and were defeated 80 points to the Ames 46. This is the same team that two months before, in Ames territory, had suffered a similar treatment. The Minnesota team possessed the advantage that any home team has of its entire squad strength while the visitors brought their best men only.

MAINE
Dashes

CAPTAIN HAMMERLY
Half and Quarter Mile

Clean sweeps in the 120-yard high hurdles and the high and broad jumps gave the northmen a decided advantage when the final tally of the points was made.

Catherwood of Minnesota and Maine of Ames had their own way in the dashes, Catherwood taking the 100 with Maine pressing close at his heels, and Maine reversing the situation in the 220, when he copped first place with Catherwood running second.

The mile event went as miles usually go when Ames men are entered. Bierbaum and McIntire of Ames placed first and second, respectively, leaving Brown of Minnesota tagging along in third place. The time was exceptionally good.

The high and low stick toppers from the north grabbed off all the points except third place in the lows which Miller saved for the Ames scoreboard. Towler, the Gopher ace, took both events.

Morrison scarcely beat out Greenlee of Ames in the quarter mile run after the Cyclone runner had pushed him closely all

the way around the oval. In the two-mile event Brown showed his heels to the Iowa State distance men and won the first position for Minnesota although Griffith and Bollinger, both of Ames, followed him closely to the tape.

In the half mile, another Ames specialty, Ames through the person of Captain Hammerly added another victory to her already swelled list in the middle distance. Meeker of Ames took third in this race.

Owen and Meyers added first and second place tallies, respectively, to the Ames ledger when the pole vault was finished. Owen ascended 12 feet to gain first place.

Gross of Minnesota, with a heave of 42 feet, 1/2 inch, in the shot and 125 feet, 11 1/2 inches, in the discus throw, copped both tests. Mounce and Tawzer of Ames gave him competition in the shotput while Hitch made him put forth his best efforts in the platter throw. Cody of Ames added the final Cyclone tallies when he secured the position of runner-up to Schjoll in the javelin toss.

MICHIGAN-AGGIES DUAL

Suddenly hitting their stride the following weekend on the home cinders, the Cyclones romped over the Michigan Farmers with apparent ease and left the field with an overwhelming score of 102 points to the 29 Michigan counters. The Iowa State speedsters shutout the Aggies in six of the fourteen events, scoring grand slams in the mile, discus, shot put, quarter-mile, two-mile and half-mile. But, four firsts were garnered by the luke state men.

The Cyclones pulled their characteristic stunt in the mile run when Bierbaum, Dempster and Brown cracked the tape successively.

Another clean sweep was registered in the discus when Tawzer, Hitch and Mounce tallied a rapid one, two, three in this event. The shot put also swelled the Iowa State ledger by adding counters for all three places when Mounce took first closely pushed by Tawzer and Meyers.

In the pole vault, Meyers and Owens, of Ames, tied for first. Crane and Halihan, of Michigan Aggies, tied for third. The quarter-mile proved another Ames stronghold when Hammerly crossed the tape first, followed closely by his teammates, Holcomb and Liehty.

The dashes proved to be the thrillers of the day with Maine and Buck, of Ames, fighting it out with Herdell, the Aggie visitor. The century fell to Herdell in the excellent time of :10 flat. Maine pushed him closely the entire distance, and took second while Buck had to be content with third place. The 220 was hard fought, with Maine making a better showing in the final few yards. Herdell finished second, and Buck again was third.

The only event in which the Michigan men were able to beat out the corn state men for the first two places was the high jump in which Preston and Kurtz, of the visitors, placed first and second, respectively. Christy, Walling and Owens, all of Ames, tied for third.

The two-mile fell to the Ames distance men who were not forced to exert themselves at all to win. Bollinger, Griffith and Drew gathered the places for Iowa State.

Both of the hurdles went to the Aggies when Van Noppen took the 120-yard highs and Herdell copped the 220-yard lows. Crawford and Sadler finished the high hurdles for Ames, and Miller and Sadler repeated the stunt in the lows.

Ames finished the day by swamping the visitors in the half mile, and taking the mile relay after a thrilling battle.

The Missouri Valley mile at Lincoln, Nebraska. McIntire of Ames has the lead and Bierbaum, his teammate, is fourth. Davis of Oklahoma A. & M., who is in second place, took the event in 4:29.3/10. Bierbaum was second.

STATE MEET

The annual state classic took place on State Field on May 17th. The powerful, well-balanced Iowa squad took first honors from the entry list of eight corn state college teams by gathering the lion's share of the firsts, taking ten of the sixteen events. Ames took second place. Competition was exceptionally stiff in every event, and no school secured a monopoly in any event. Spectators were assured of an interesting battle for first place whenever the starter's gun barked.

The meet started off auspiciously enough, but before the full program was run off the weather man frowned upon the sportsmen and sent a drizzle that lasted for the balance of the affair. A slight wind slowed the participants somewhat. Despite this fact two new records were established, another tied, the low barrier record lowered to a new world's record, which was not allowed by reason of the slight breeze, and another mark in the high sticks smashed but which was not put on the books, due to the knocking over of two hurdles.

The first record to go was the shot put. Mounce of Ames established a new mark of 41 feet 6 3/5 inches in this event.

The dashes furnished the big surprises for the Cyclone en-

horts. "Chubbie" Maine, Cardinal and Gold sprinter, breasted Roberts of Iowa, Schwarmweber of Grinnell, and Jones of Grinnell to the tape in the 220 and tied the state record of :21 6/10 seconds in the event. Maine displayed a fighting finish which, through a terrific burst of speed, clinched the first position for Ames. In the "century" Brookins, Old Gold trackster, put up a brilliant sprint to nose out Maine, who was followed by Roberts of Iowa and Young of Drake, who was doped as a serious contender for the dash.

Perhaps the feature event of the day was the performance of Brookins, Old Gold hurdler, in the low hurdles. Brookins skimmed over the low barriers with a bare breath of air at his back, in the phenomenal time of :23 seconds flat. Were it not for the slight breeze, Brookins would have been credited with a new state and world's record in the event, smashing the old mark by a considerable margin. Taylor of Grinnell, who afterward set a new Olympic record for the 400 meter hurdles at the Olympics for Uncle Sam, chased the Iowa athlete to the tape.

Tolles and Montgomery of Des Moines University gave Coulter of Iowa City plenty of competition in the quarter, but the pace set by Coulter was a little too hot for the Des Moines men who finally fell back into second and third places.

Half mile in Missouri Valley Conference meet at Lincoln. Hammerly of Ames flashes across in 1:58 2/10; Gardner (Nebr.), second; McLeath (Grinnell), third, and Willman (Washington), fourth.

MISSOURI VALLEY MEET

The two days, May 23d and 24th, must have placed a jinx upon the Ames cinder artists. On those two days at Lincoln, Nebraska, the annual Missouri Valley track meet was scheduled, and a galaxy of stars from the valley institutions assembled there to test their merits in competition. Nebraska, favored from the start on home ground, swept through the affair to an overwhelming victory. Washington and Grinnell followed the Cornhuskers while Ames was seventh.

WESTERN CONFERENCE (BIG TEN)

Two Ames tracksters were sent in to Chicago to attend the Big Ten meet on May 31st. Maine in the dashes and Hammerly in the half-mile, represented the Iowa State institution. Hammerly took fifth in a large field of starters in the 880-yard, but Maine failed to place.

120-YARD HIGH HURDLES, MICHIGAN AGGIE-AMES DUAL

Van Noppen (M.A.), first; Crawford (A), second; Sadler (A), third. Time, 16 3/5. The high stick toppers are negotiating the first hurdle.

HOME MEET

The annual local battle between the class and devotees took place on State Field, June 2d, and resulted in a tie between the Seniors and the Juniors. The meet was replete with thrills, as first one class and then another would forge to the front with the final outcome narrowed down to the upper two classes. As the final event was called, the mile relay, the Seniors possessed an advantage of two scant points. The outcome of the meet depended upon the victory in the quartet event and the Juniors

rose to the emergency by battling furiously the entire race, and finally taking the event into camp with the Seniors trailing slightly behind. The final score was: Seniors and Juniors, 58; Sophomores 25, and Freshmen 22.

The meet was far from slow. With varsity squad members as well as all other track aspirants eligible, the marks were presentable indeed. Nine marks registered that day were well over the records made in the meet the previous year, while but four were beneath them.

Second section of the mile relay, Missouri Valley meet. Kansas breaks the tape, Washington second and Al Miller, Ames anchor man, is third.

Mounce breaks the record in the State meet.

Osborne of Illinois vaulting at the Drake Relays.

Northwestern wins the two-mile relay at Drake Relays. Ames placed second.

On May 20th the Frosh Cyclones tested their mettle on the track, via telegraph, with the other Missouri Valley Freshman squads. All events were run against time, and the results sent to Washington University at St. Louis where the winners were determined and the team scores compiled. In this annual skirmish with valley preps the youngsters scored fourth place. Grinnell took first with 43 points, Missouri second with 28½ and Drake slipped in behind the young Tigers with 26 5/6 tallies.

A new prep track record for these telegraphic meets was set by Conger of Ames who stepped off the mile in 4:34 2/5. Oklahoma Freshmen were responsible for two new marks, one of 3:37 1/10 in the mile relay and the other of 12 feet 1½ inches in the pole vault.

Another first was captured by Ames when Suit took the quarter-mile run in :51.9/10. Copeland ran third

in the low barriers, and also tied for the same place in both the century dash and the high sticks. Conger, who ran the half as well as the full mile earned another Ames counter by taking fourth position in that event.

Iowa State pushed Oklahoma to a new record in the mile relay but the Sooner Frosh were a fraction of a second too fast for the "corn state" preps. Lawrence of Ames placed third in the discuss.

Considering the fact that most of these events were run against practically no competition, and against time only, the marks were exceptionally good and might have been better if competition had been present to push them more.

The Cyclone prep track men were under the tutelage of Coach Beanblossom who also handled the varsity cross-country men.

Copeland, Lawrence, —, Shanken, —, —, Schlegel, Brauns, Wolter
Lyons, Switzer, Kruse, Day, Bonnell, Arnold, Mathews, Bein, Salman, Montgomery, Conrad
—, Moffett, Burnison, Suit, Rossler, Conger, Witmer, —, Storey, Collins

CAPTAIN GEORGE S. MCINTIRE

Cross-Country

Ames has long been blessed with consistently good cross-country teams. Ever since the inception of this long-winded sport upon the athletic calendar of Iowa State College the Cardinal and Gold honors have regularly emerged from the harrier meets with high honors.

Opening the 1924 season with characteristic Cyclone style, the Ames harriers took the measure of the Drake and Oklahoma squads over the Drake course at Des Moines on October 25th. The final score: Ames, 30; Drake, 40, and Oklahoma, 54.

The following week end, against Drake and Grinnell, at Ames, the Iowa State team, without the aid of their captain, turned in another impressive victory. Conger, of Ames, breasted the tape well ahead of his nearest opponent in this run. The final score: Ames, 32; Drake, 40, and Grinnell, 50.

For the first time in eleven years of Missouri Valley competition the Cyclone colors were dipped when the strong, well-balanced Kansas Aggie aggregation took the annual "valley" classic after a thrilling race over the Drake course on November 8th. Drew was the first Cyclone runner to finish. Ames got second in the meet, Drake third and Kansas University fourth. Rutherford, the Oklahoma flyer, won individual honors by flashing over the course in 26:62 8/10.

EMBREE
Manager

At the Big Ten Western Conference the Iowa State steppers placed sixth in a very large field of exceptionally fast teams. This meet, which was held at Ann Arbor, Michigan, on November 22d, was slowed up considerably by the poor condition of the course, due to rains.

With the close of the cross-country season, so also ended the brilliant career of Captain McIntire, always a certain point getter and dependable mainstay for the Cardinal and Gold. "Mac" was handicapped during part of the season with a bad knee, but despite

this handicap he always finished gamely and well to the front.

"Paddy" Drew, a reliable and plucky runner, who made a splendid showing all season, was elected to the captaincy of the 1925 squad.

Conger, a sophomore, in his first year of hill-and-dale running displayed a ground-covering ability that augurs well for the future of Ames cross-country.

J. N. Embree ably filled the position of student manager.

Drew, Griffith, Conger, Bonnell, McIntire, Burnison, Beanblossom

Wrestling

CAPTAIN RALDR A. PRUNTY

Ever since this class entered Iowa State, it has been with a manner of satisfaction and confidence that the wrestling team was spoken of. However, the 1925 aggregation, led by Captain Prunty, was a team of rare balance and ability. It was singular in its versatility for a shift in the heavier weights, and more than justified any confidence placed in it.

Otopalik's ability as a wrestling coach has proven to have no peer in the Valley, and was very pronounced in the conspicuous showing of the team. "Oto" is turning out amateur stars to represent the state which has been so long famous for its professional wrestlers and which is somewhat deficient in that respect at this time.

Of the six dual meets scheduled, not one was lost by the Ames grapplers. This in itself is a remarkable record, much augmented by virtue of meeting such strong teams as West Virginia, Kansas and Nebraska. Two of these meets were with Minnesota and Northwestern of the Big Ten. They proved to be no harder than the Valley representations.

More noticeable than any is the title of "Western Conference Wrestling Champions" gained by the Cyclones at Minneapolis on March 21st. Added to this, they have the honor of being "runners-up" for the Missouri Valley Championship, which was captured by the Oklahoma Aggies, who are not members of the "Valley" conference.

Barring the heavyweight, there was quite a bit of competition for the various positions. All of the veterans made things difficult for new men to qualify.

The 115-pound class was well fortified with the indispensable and crafty Boyvey of Boone, Iowa. Boyvey was a consistent winner, gaining falls in a minimum time on numerous occasions. Kurtz, 125-pound man who is also a 1924 letter man, handled the division when the Northwestern team showed up overweight. Stewart, due to his size and lack of experience, had no chance of displacing the Boone man.

Kurtz held the 125-pound place, and performed in a striking manner. He was a consistent winner, wrestling in good form the bulk of the season. Marsh represented the weight on one occasion and did well, as was the case against Kansas when Hazen tried for Ames.

Meyers held sway most of the time in the lightweight class. However, he was extended and pressed some by Schmidt, who was also a letter winner from 1924 and a very hard worker.

GERALD WOODHULL
Captain-Elect

Otopolik
Coach

Boyvey
145 Pound

Woodhull, from last year's team, and Grooms, last year's phenomenal Freshman, divided the work in the 145-pound class. Woodhull's hard work and excellent personality formed the basis for winning him the title of next year's captain. His work was flawless, losing not a single match anywhere during the entire season, including the Western Conference meet.

The 158-pound man was none other than Captain Prunty, who took care of place in fine style, as well as tending to the 175-pound opponent instead on one evening. Nelson then handled the 158-pound competitor, making a good showing in the "captain's" weight.

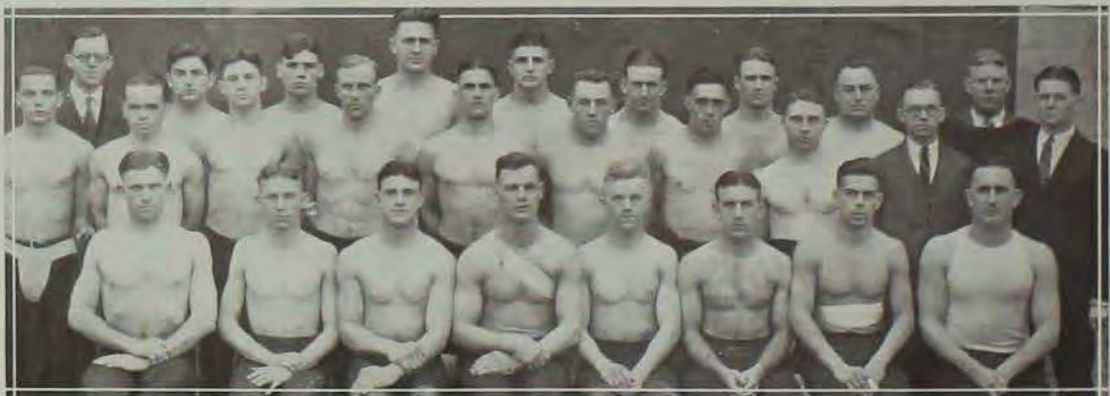

Pillard piloted the light heavyweight work most of the time. Like Prunty, he moved up a notch and represented Iowa State in the "heavies" once in a while. In that case either Nelson or Prunty met the "decision" man's opponents.

Lawrence, the heavyweight man, was not quite the standard of some past Cardinal and Gold representatives, but he acquitted himself creditably. His worst difficulty was lack of experience. He is strong and should develop into an especially valuable man.

AMES 18-KANSAS UNIVERSITY 5

Downing the University of Kansas by the score of 18 to 5 was the first lap of the victorious season's run. The Jayhawkers met their defeat January 29 at the State gym. Kurtz, the regular Cyclone 125-pound man, was unable to compete because of the ill effects of a recent vaccination.

Boyvey started the season in grand style, gaining a fall over Cramer of the Jayhawks in the fast time of two minutes and thirty-four seconds. The victory came as the result of a half-nelson and a body lock. Due to the Cyclone's speed and aggressiveness, this match proved to be the most exciting of the evening.

Liljedahl, Wolf, Carter, Herriot, Lawrence, Reighard, Woodhull, Peckinpaugh, Chambers
Worley, Stewart, Hood, Hazen, Wimmer, Grooms, Marsh, Wright, Erion, Parkhurst
Nelson, Boyvey, Prunty, Pillard, Schmidt, Meyers, Kurtz, Otopalik

KURTZ
125 Pound

MEYERS
135 Pound

Hazen, who took Kurtz's place against Stirton of Kansas, was thrown in five minutes and twenty-four seconds. Hazen is a new man to the game at Iowa State and succumbed to a headlock.

The falls for the evening were complete when Meyers threw Fearing with a double-bar lock. The Iowa State man took only a little over five minutes to turn the trick.

Grooms tried hard to down Reigle of Kansas, but had to be content with a decision as a result of his large time advantage.

Prunty, who was still suffering from fire burns, won a decision from Weibung. The captain had a time advantage of ten minutes and ten seconds.

Nelson, who really is a 158-pound man, performed in the 175-pound class for Ames, and proved to be too game for the Kansas man. He had a time advantage of four minutes.

Pillard, wrestling in the heavyweight class, lost no time in getting behind and he stayed there. He had a time advantage of ten minutes and thirty-five seconds over Smith of Kansas.

AMES 14—NEBRASKA 0

After resting for two weeks (or better stated as after tuning up for two weeks) the Cyclones journeyed to Lincoln, Nebraska, for February 14th, where they met and defeated the Cornhuskers. Not a fall was gained during the meet, Ames winning every match by decisions. The score was 14 to 0.

Boyvey went after his man true to form but was unable to get his customary fall. He won with a time advantage of eight minutes and ten seconds.

Kurtz in his first meet of the year nearly obtained the coveted fall, but also had to settle with a time advantage. He was behind for ten minutes and fifty-five seconds.

Meyers was going for sure and got his decision with an advantage of eleven minutes and twenty-five seconds.

Skinner, the Cornhusker captain and last year's Western Conference champion, made things difficult for a while, but Woodhull showed his true merit. He got behind Skinner to get the decision with five minutes and thirteen seconds time advantage.

Grooms, wrestling in the 158-pound class, tried about every way possible to gain a fall, but, like his mates, failed. His advantage was a little better than eight minutes.

Captain Prunty had his man in a bad way on three different occasions, but he managed to hold out for the time. Prunty, like Grooms, had moved up a class. His time advantage was a trifle less than eleven minutes.

Pillard, handling the heavyweight division for the second time of the year, got his dependable decision.

AMES 17—MICHIGAN AGGIES 3

Meeting the Michigan Aggies for their first clash with teams outside the Valley, the Cyclones piled up the top-heavy score of 17 to 3. The visitors gained their three points due to a decision over Marsh. As in the last meet, Grooms and Captain Prunty moved up a weight.

Boyvey had his way once more and took Gibbs so fast that when he settled down the match was over and five points were on the Cyclone tally. Boyvey got the fall in the remarkably short time of one minute and twelve seconds.

Williamson gathered the only markers the Michigan men were able to take when he got a decision over Marsh in the 125-pound class. The visitor had over seven minutes on the Cyclone representative.

Schmidt wrestled two overtime periods with Hansen of the Aggies, but they were so closely matched that the judges still called it a draw after the extras.

Woodhull, with an advantage of nine minutes and twenty seconds, gained the decision over Burnquist from the "Ford" state.

Grooms worked well in the 158-pound tangle, gain-

GROOMS
145 Pound

PRUNTY
128 Pound

ing the decision with nearly eleven and a half minutes advantage.

In a little more than eight minutes the Cyclone captain gained a fall over Landsburg. The Michigan's man's downfall was accomplished when Prunty applied a head scissors and an arm lock.

Lawrence, making his first appearance for Iowa State, got behind early, and had an advantage of nearly eleven minutes, thus getting the decision over Murray, the Aggie heavyweight.

AMES 12—WEST VIRGINIA 5

West Virginia sent her wrestlers out West to gather in more honors for her well-known team. Their force was augmented by the fact that two of their men had been Olympic alternates, but this combination was not strong enough.

Boyvey was unable to get his usual fall, but got a decision over Smith of the Virginians in a rather hard tussle. The Cyclone's advantage was just a bit more than six minutes.

The next match was the closest and probably the hardest of the evening. Kurtz and Fisher put up a real scrap throughout. Kurtz, however, succeeded in getting the decision with a time advantage of two minutes and ten seconds.

Meyers met the first Olympic man in the 135-pound class. He got behind Millender at once, and put forth all effort to gain a fall. The Iowa State man's aggressiveness proved to be his downfall, as he got himself in a bad position, which the Easterner took advantage of by obtaining a fall in somewhat over six minutes. A head scissors and an arm lock did the trick.

Grooms' match with Wylie turned out to be a ringer for the 125-pound clash and possibly a little more exciting. The Ames man had a time advantage of a minute and a half to get the decision.

Suder of West Virginia managed to save himself at the last instant on several occasions in his match with Captain Prunty. The Cyclone, working in his

regular weight, had the time advantage of seven minutes and thirty-seven seconds.

Pittsenburger, the other Olympic man, went behind Pillard at once, but was unable to keep the Cyclone underneath. Back at his regular weight, the Iowa State man proved too strong for his opponent and stayed in the rear to win the decision with an advantage of nearly six and a half minutes.

Lawrence, taking care of the heavyweight position for the second time of the year, also gained a decision. He soon was behind his man and worked on him continually.

AMES 15—NORTHWESTERN 0

As per usual, on March 5th, the Northwestern men were easy, and would not wrestle, thus making falls nearly impossible. It was a "different" meet in some respects, due to some of the Purple men being overweight.

Kurtz, Ames 125-pound man, wrestled Birdsall in what was called the 115-pound class due to the overweight proposition. After five minutes Kurtz went behind and took nearly seven minutes in which to gain a fall. The Northwestern man gave in to a body scissors.

Schmidt moved down to the 125-pound class because of Anderson's overweight. The Ames man won with a time advantage of over ten minutes.

Meyers had things easy with McPherson in the 135-pound division. His advantage was eleven and one-half minutes.

Nelson, in the 158-pound class, and Hathway, of the visitors, put on the most interesting match of the evening. The end of the regular time found matters a draw. Both men consented to one minute extra periods. The Purple man lost the toss and went underneath first. However, he soon got loose, as did Nelson in the next period, and the match was called a draw.

On two different occasions Woodhull nearly had the desired fall on Vissering. This match had the most

PILLARD
175 Pounds

LAWRENCE
Heavyweight

action and went to the next year's captain of the Cyclones with an advantage of four minutes and nineteen seconds behind.

Lawrence worked in the light heavies this time and won with the time advantage of eleven minutes and fifteen seconds.

Lawery, captain of next year's football squad at Northwestern, opposed the Cyclone heavyweight, who was Pillard. Football was not the game and the Ames man won handily with an advantage of almost seven minutes.

AMES 15—MINNESOTA 2

By beating Minnesota 15 to 2 at the State gym on Saturday, March 7, the Cyclones clinched the right to claim the intercollegiate wrestling championship of the Middle West. Captain Prunty, Grooms and Pillard watched the meet from the side lines.

Hendrickson, in the 115-pound weight, served to get Boyvey back in the fall class again. The Cyclone "whiz," using his favorite half-nelson coupled with a body chancery, put the visitor away in a trifle more than two minutes.

Dally of Minnesota got a body scissors on Kurtz which the Ames man finally wriggled out of, losing the match by a decision of nine minutes and thirty-seven seconds.

Meyers had four minutes and twenty-four seconds time on Easter, and added the markers to the Cyclone score.

Woodhull took the measure of Pedersen in the 145-pound class.

Nelson, handling the 158-pound weight for the Cyclones, defeated Hammer with a time advantage of nine minutes and thirty-seven seconds.

Reighard, wrestling in his first match of the year, got the decision with practically three minutes advantage over Craft of the Gophers.

Lawrence had over nine minutes to his credit in or-

der to get the decision over Catanzara, the Minneapolis heavyweight.

MISSOURI VALLEY MEET

Ames, Nebraska, Kansas University, Oklahoma University, Washington, Kansas Aggies, Oklahoma Aggies and Missouri entered the Missouri Valley tournament held at Lincoln, Nebraska, to decide the Valley wrestling champions. In the meet, which was held March 13 and 14, the Cyclones were represented by Craig, 108; Boyvey, 115; Kurtz, 125; Grooms, 145; Captain Prunty, 158; Nelson, 175, and Pillard in the heavyweight.

Although the Iowa State men captured the most falls, they finished second to the Oklahoma Aggies, who were going good. Ames collected two falls in the first round, one draw in the same round, one decision in the second round and four falls and a decision in the semi-finals.

Of the four Cyclones to enter the finals only two emerged victorious, although each man acquitted himself superbly.

Kurtz won the decision in the finals with a time advantage of six minutes and forty seconds.

Meyers met Brigham of the Aggies in the most evenly matched mix of the finals. When the regular period was up the Oklahoma man had over a minute advantage, but that was not sufficient for a decision. Meyers started underneath in the first of the two extra periods. However, he was out from under in fifteen seconds, and the rest of the period was even up. Meyers acquired the slight advantage of fourteen seconds in the next period. The match was called a draw, this being the first occasion on which Brigham had failed to throw his man.

Lockbaugh, who coaches the Oklahoma team, and who won a second at Paris while on the Olympic team, opposed Captain Prunty in the finals. This match proved to be one of the fastest of the meet, going to

NELSON
158 Pound

PARKHURST
Manager

SCHMIDT
174 Pound

the Oklahoman with a time advantage of eight minutes after all efforts to get a fall had failed.

Pillard met Smith of Kansas in the finals of the heavyweight class. Although Smith outweighed him by fifteen pounds the Cyclone representative got his trusty "decision." The match went two extra periods, Pillard getting a time advantage of two minutes and thirty-two seconds.

WESTERN CONFERENCE MEET

March 21 the Cyclones finished the wrestling season by taking the auspicious title of Western Intercollegiate Wrestling Champions. The victory came as the result of the Iowa State men carrying off four individual championships and a second place at the Minneapolis meet. Second place went to Iowa and third to Indiana. The score was Ames 23, Iowa 12 and Indiana 12.

Captain Prunty has the excellent title of having won the Western championship two years in a row, while Kurtz has the distinction of winning both the Valley and Western championship in one year.

In the final round Boyvey met Kakaki, the star of the Chicago team, and worked his hardest. The efforts were not in vain, as he emerged champion with a time advantage of one minute and twenty seconds.

In his run for first place Kurtz encountered and defeated Dally, the Gopher representative, to whom he lost the decision at Ames about two weeks previous. In the finals he defeated Snyder of Ohio with a time advantage of six and one-quarter minutes.

After defeating Easter of Minnesota, Schmidt was eliminated in the semifinals by Graham of Chicago.

Petersen of Minnesota opposed Woodhull in the finals, but met the same fate as when the two tangled at the State gym. Woodhull's advantage was one minute and fifty-five seconds.

After first defeating Hammer of Wisconsin and Hathway of Northwestern, Prunty defeated Grattan of Iowa with a time advantage of two minutes and twenty-four seconds. This was Prunty's second successive Western championship.

Childs of Indiana defeated Lawrence, performing in the 175-pound class, after he had gained a nine minute time advantage over the Hoosier man.

Pillard was much outweighed throughout the meet and was finally defeated in the semifinals by Fisher from Indiana with an advantage of but two minutes.

THE SEASON'S RECORD FOR THE CYCLONE TEAM MEMBERS

- 115 BOYVEY, HAROLD—Won five dual meets, second in Valley and first in the Western Conference meet.
- 125 KURTZ, CLELL—Won four dual meets, first in Valley and Western Conference meet.
- MARSH and HAZEN—Lost one dual meet.
- 135 MEYERS, DWIGHT—Won four dual meets, lost one; second in Valley.
- SCHMIDT, VERNE—Won one dual meet, tied one; to semifinals at Western Conference.
- 145 WOODHULL, G. W.—Won four dual meets and first in Western Conference.
- GROOMS, CLAIRE—Won four dual meets and third in the Valley meet.
- 158 PRUNTY, RALPH—Won four dual meets, second in Valley and first in the Western Conference.
- NELSON, RUSSELL—Won two dual meets and tied one.
- 175 and Heavyweight—
- PILLARD, HENRY—Won four dual meets, first in Valley and second in Western Conference.
- LAWRENCE, CURTIS—Won four dual meets.
- REIGHARD, RALPH—Won one dual meet.

Boxing

CAPTAIN ROBERT J. DUNBAR
145 Pound

Starting the season with the darkest of prospects, Coach "Mike" Chambers whipped the Cyclone fighters into a shape that enabled them to travel another complete season without defeat.

This unique feat was accomplished with three entirely new men in a team composed of seven, and without the services of the captain-elect, Wesley Clampit, whose singular style and skill carried him to the finals of the Olympic tryouts last spring.

Due to the lack of opponents, the Cyclone team met only the fast Kansas Aggies outfit here, and the Notre Dame "terriers" in their own ring.

Never, since the "fistic sport" was added to the Cyclone athletics, has the Cardinal and Gold been defeated; and this year's clean slate only further enhanced her glory.

From the first workout it was apparent that the "bantams" would cause no trouble for Chambers, as he had Cilley, the clever Argentinian mixer from the 1924 aggregation to rely on. The "olive-skinned lad" was pushed rather hard at times in the training goes by Hogan, whose aggressiveness was strengthened by much improvement over his last year's showing. However, Cilley's size and experience gave him the call over both Hogan and Long, both of whom would be gladly welcomed at any other less-fortified time or place.

CHAMBERS
Coach

Long was also a contender for the 125-pound class, but was once more in the background due to the presence of "Eddie" Rouser, last year's captain and fancy "mitt slinger." Rouser, like Cilley, has been a pioneer in Cyclone "leather pushing."

In the 135-pound class "Mike" filled his first big gap with Loren Kintz, a new man. Captain Dunbar, last year's lightweight, was returned to his natural place, in the 145-pound class. Kintz, who is naturally a "hard hitter" and a game bird, was developed into a boxer having a better defense and more "ring" ability.

As already has been stated, Captain Dunbar took care of the welterweight position, and boxed in his usual sharp and conservative manner, although not pushed for his job by a serious contender.

Carroll Bloom, a last year's freshman and captain-elect for next year, filled the shoes of Peacock, last year's 158-pound "mauler," who did not return to school. This weight, like all the others except the bantam, was shy of reserve material. However, the "elongated" boxer was never disabled.

Leonard Dolan proved to be Chambers' best bet in the 175-pound class, and seems to be a hitter of promise if he can get in shape. Dolan is one of the new men, and took the place of Sherwood, the unique "swinger" in this class, on the 1924 aggregation.

No doubt the heavyweight division afforded Coach Chambers the most trouble. Larson and Vaughn were the

Long, Kintz, Rouser, Chambers, Trailer, Cilley
Dunbar, Dolan, Larson, Bloom, Vaughn

CILLEY
115 Pound

principal competitors and showed up to better advantage than any of the many tried. Larson, who was a guard on the '24 football team, finally was given the gloves, and he justified all faith placed in him by showing much improvement and plastering his way to the deciding victory of the Notre Dame meet.

February 13th the Kansas Aggies invaded the Cyclone ring, only to meet defeat in six out of the seven bouts. Iowa State's men were clearly and decisively better than their opponents, whose only win was decision over Larson, due to his inexperience more than anything else.

Ricardo Cilley started things for Ames by winning the judges' undivided decision over Walgron, of the Aggies. The go was a speedy one, and went to Cilley on his boxing, including his ability to land the most effectively.

Rouser, who was landing throughout, won easily from Stewart in the feather-weight "argument." "Eddie" seemed to bewilder the Wildcat man with his assortment of blows.

Kintz let loose with his usual explosives, and gained a technical knockout over Miller in the first round, thus adding to the Cyclone possibilities.

Captain Dunbar came next and cinched the victory by a decision, after taking an extra period to convince the judges. Neither Hoelzel, who was the captain of "wild kitties," or Dunbar seemed very anxious to mix things.

Bloom continued the good things, and hit Huey, of the Kansas outfit, with ease and much speed. The tall captain-elect had it "all his way" for the three rounds.

Dolan started in smashing from the beginning, and did not give Guthrie, the Aggies light-heavyweight, a chance to do his stuff. Blows and jolts rained so hard and fast that the referee decided that the representative from the "Sunflower" state had enough before the third round was finished.

Larson and Pierson traded wallops for the most of their tangle. Pierson's size and experience finally won out over the game "Swede," who put up a real fight.

On Saturday, February 21st, the Cyclones climbed into the Notre Dame ring, and put up the scrappiest showing that was ever necessary during the career (boxing) of the Cardinal and Gold. The meet was a thriller throughout, and "see-sawed" back and forth continually. It remained for Larson to settle the honors in the last and deciding bout. The big guard did it up right by flooring Maxwell for the count in the second round.

Dolan started the meet when he and Captain Springer, of the "Irishmen," got together for the first three rounds. The Notre Dame captain got things in their favor by winning on his superiority in finding the mark.

Cilley, who was Chambers' next choice, seemed to have got the wrong idea of things at the start. However, he woke up right, after kissing the canvas in the second round, and did a few favors for himself. The third round found him in a real fighting mood, a point to which Harvey could have testified after waking up from the effects of a knockout by a right-cross, closely followed by an uppercut.

ROUSER
125 Pound

KINTZ
135 Pound

BLOOM
158 Pound

The Indiana men again took the lead when Spillane caught Rouser on the chin with one of those sleep-makers." The former Cyclone captain appeared to have everything his own way in the first half of it, but met a stray one in his anxiousness to start things rolling.

Kintz and Goslin had one of those give-and-take affairs which furnished plenty of interest for the spectators, but which left both of the fighters much fatigued. The meet was once more even when Kintz received the judges' decision.

Skim, a Chinese welter, was the "Irish" representative in the 145-pound class, and he skimmed some of them in pretty fast. However, Captain Dunbar put matters in our favor by winning the decision in an extra round.

It was three-all after the 158-pound bout, as Canny,

veteran Notre Dame battler, outpointed Carroll Bloom in a fight which was in no way one-sided.

When things are bad, it is not just exactly sweet to think of depending on a new man, but that was what had to be done when Larson opposed Maxwell in the final and deciding battle, for that was what it was. From the first it was evident that it wasn't going to be any "tea party." They got together at the start, with the result that Larson got the worst of the first round, but was none the worse for the punishment. In the second Larson changed tactics and stayed close to the Notre Dame substitute football center. Using both right and left hooks, the big Cyclone plasterer floored Maxwell twice before laying him over the ropes, making "connections" good for "ten," thus winning the meet and ending another victorious season for the Iowa State men.

CAPTAIN WINFIELD MILLER

DAUBERT Coach

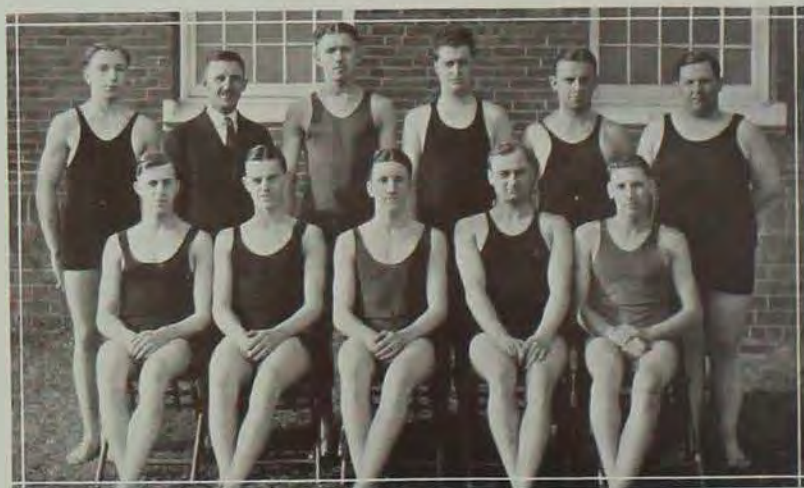

INDIVIDUAL POINTS WON

Butler	26
Schultz	25
Wright	22
Miller	20
Sulzbach	16
Jacobs	16
Sargeant	11
Vandeveld	10
Benner	7
Williams	6
Total	169

Taking second place in the Missouri Valley Conference meet, tying the crack Nebraska team, and winning from Drake both at home and away, is the splendid record made by the Iowa State swimming team this season. Talented generalship, combined with the fighting Cyclone spirit, instilled into the team as no one else could do it but Coach "Jake" Daubert, enabled the splashers to pile up 169 points by taking 12 firsts, 21 seconds, 14 thirds, and three fourth places. Butler, in his first year of varsity competition, with 26 points to his credit, was high point winner. Schultz, Wright and Captain Miller followed up with 25, 22, and 20 points, respectively.

CONFERENCE MEET

Every member of the Ames team scored in the finals at the Missouri Valley Conference meet, in which three records were shattered. Ames placed in every event but the 50-yard free style, and finished with 25 points, which was more than twice as many as her nearest opponent. Washington's veteran relay squad was pushed to the limit by the Ames team in the final go of the 160-yard relay. Jacobs copped second place in the final diving round and Schultz took fourth in the same event. Captain Miller placed fourth in the 200-yard breast stroke. In the 220-yard free style, Butler took third place. Sargeant, Miller, Sulzbach and

Sulzbach, Daubert, Benner, Williams, Jacobs, Sargeant
Wright, Butler, Miller, Schultz, Vandeveld

Vandervelde, in order named, copped thirds in the plunge, 150-yard back stroke, 100-yard free style, and the 440-yard distance swim. This meet closed the local swimming season. Captain Miller, Sargeant and Vandervelde, who graduate, will be a big loss to Coach Daubert, but several freshmen have been showing up well, so prospects look good for an even better team next year.

NEBRASKA MEET

Ames divided the score with Nebraska 34 to 34 in the hardest-fought dual meet of the Cyclone season. Nebraska's relay team finished in first place to start the meet. Jacobs showed the best form in diving, with Schultz a close second. This gave Ames the lead. Nebraska took first in the 50-yard dash, with Schultz and Benner second and third, respectively. Captain Miller placed second in the 200-yard breast stroke, with Wright third. Sulzbach and Butler took second and third, respectively, in the 220-yard free style. Sargeant copped first place in the plunge. Wright and Miller took first and second, respectively in the 150-yard back stroke. Butler scored third in the 100-yard free style. This finished the meet, leaving the score a tie.

DRAKE AT DES MOINES

Drake's swimming team felt the pangs of defeat for the second time this season at the hands of the Cyclone squad, when Daubert's men scored 49 of the 68 points. Since the first meet both relay teams had improved, but the Cyclones proved to be the stronger. Jacobs improved his diving enough to take first, with Schultz a close second. King, of Drake, was third. Schultz was nosed out of first place in the 40-yard dash, thus scoring second, followed closely by Benner. Dumont, holding the Valley record in the 220-yard breast stroke, was forced to his limit by Wright and Miller, who scored second and third in this race. Vandervelde regained his old stride and showed all the entrants a clean pair of heels in the 220-yard free style. Sargeant and Williams took second and third in the plunge. Wright and Miller had no competition in the 150-yard back stroke. Butler and Sulzbach were also easy winners in the 100-yard free style.

DRAKE AT AMES

Defeating Drake University in the home pool by a score of 51 to 17 was the start made by the Cyclone swimming team. Drake scored only two first places, those coming in the 40-yard dash and in the 200-yard breast stroke. Iowa State accounted for both second and third places in these events. In the 160-yard relay Ames won handily, with several yards to spare. The divers, Schultz and Jacobs, showed especially good form, taking first and second places, respectively. Schultz was nosed out of first place in the 40-yard dash by a margin of only a few inches. As was expected, Dumont, the Drake paddler who held the valley record in the 200-yard breast stroke, took first in this event, although Captain Miller, of the Cyclones, forced him to the limit. The 220-yard free style was a race between Vandervelde and Butler, both of Ames, in which Butler nosed out Vandervelde in the last few yards. The nearest Drake competitor was a length and a half of the pool behind. Williams and Sargeant took first and second, respectively, in the plunge. Captain Miller won the 150-yard back stroke with his team mate, Wright, a close second. Butler and Sulzbach scored first and second in the 100-yard free style. This gave Butler a total of 11 1/4 points, making him high point winner of the meet.

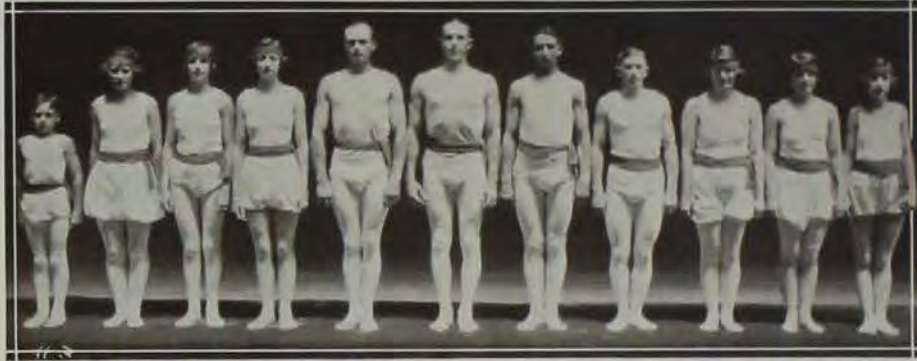

LIFE SAVING

Iowa State College is justly proud of having the largest Life Saving Corps in the world. Since March 1, 1921, when it was organized and chartered, the membership has grown until it numbers close to one thousand. Twenty-nine states and eleven foreign countries are represented in the organization. The corps is known throughout the world, being used as a model by the American Red Cross in their life-saving propaganda. Mr. Daubert, who trained and examined this group was appointed Dean of the American Red Cross Life Saving Institute at Lake Geneva, Wisconsin, June 1, 1924. Through his efforts, many life-saving organizations have been started in Iowa, as well as other states.

THE RED CROSS LIFE-SAVING CORPS

Tumbling

Although gymnastics and tumbling are not considered as sports as classified under the common category of the word, they deserve some mention. These groups which were coached by C. E. "Jake" Daubert were of unusual class and quality.

These groups were developed solely as a matter of personal interest on Mr. Daubert's part and are not of college classification. "Jake" learned the game under an old circus man and has a complete as well as a perfect understanding of the business. This has been apparent in the development of the groups, and more so in the exhibitions of the Harbach boys, who have become very proficient in the art of grace and equilibrium in acrobatic work.

Both the tumbling team as well as the mixed gym-

nastic team have been very popular in college entertainment throughout the year.

During last year's summer session both teams were on the evening vaudeville programs held in the gym under the direction of the men's physical training department.

The same groups were features of a show at Lake Comar last summer, as well as at Lake Geneva, Wisconsin.

In the fall the gymnasts and the tumblers were on the lists of acts presented at the Harvest Home Festival, put on by the city of Ames.

Their work was of such caliber at the evening show of the Engineer's Campfire that they were awarded the first prize for having the best act of the many presented.

Indoor Track

Perhaps the indoor season might well be termed as one of the most successful that the Cyclone hard-track performers have participated in for several years. Featured by the brilliant work of her relay teams, Ames was exceptionally well represented on the indoor tracks of the midwest.

KANSAS CITY ATHLETIC CLUB RELAYS

February 7, 1925

The first appearance of the Cyclone runners upon a competitive track for the season took place at Kansas City where they made such an impressive showing that they will long be remembered by the rabid track fan, who dotes upon the thrilling incidents of a close, hard-fought finish in a relay event.

In the open two-mile University relay, Ames, represented by Meeker, Crawford, Burnison, and Conger, wrestled almost certain victory from the hands of the Kansas Aggie, Notre Dame, and Nebraska runners, only after a whirlwind finish in which Conger of Ames made up a handicap of twenty yards to win. The incident was the breath-taking event of the meet.

In the special 600-yard run for the Douglas Cup, Pittenger of Missouri grabbed off first honors, with Lewis of Nebraska 2d, Greenlee of Ames 3d, and Suit of Ames 4th. Pittenger took second the previous year, bowing to Hammerly of Ames.

DRAKE-GRINNELL-AMES TRIANGULAR

February 13, 1925

Swinging his entire squad into action at one time, and for the first time of the season, Coach Willaman scored a hard-fought victory over the Pioneer and Bulldog tracksters. The score: Ames 54½, Grinnell 46, and Drake 27½, shows that the Grinnell athletes were the most feared of the two rival schools.

The better balance of the Cyclone team was manifested by the fact that, although Grinnell took six of the twelve firsts while Ames secured but four and Drake two, the second- and third-place men were consistent point winners for the Iowa State aggregation. Morgan Taylor of Grinnell and of Olympic low-hurdle reputation, was high-point scorer in the meet with thirteen tallies, collected by taking first places in the high jump and high hurdles and second place in the low stick race.

ALL COLLEGE INDOOR TRACK MEET

February 21, 1925

In the annual indoor classic between the classes the Freshmen smothered the upper classmen by the overwhelming total of 72½ points, to the Juniors' 24, Sophomores' 23½, and Seniors' 17. All in all, the meet was one of the fastest ever run off in State Gym.

Varsity runners were pitted against the class tracksters; although their points were not credited to the respective classes. In several of such race the gym records were tumbled to make way for better efforts. Crawford set up a new standard for the half mile and Conger did likewise for the mile.

Price, Beck, Moffitt, G. Dempster, Blessing, Wimer, K. Dempster, Cowland, Bonnell, Fegly, Grove, Gensicks, Malone, Story, Brew, Crawford, Sadler, Morling, Salt, Greenlee, Owens, Conger, Griffith, Christy, Meeker, He'camb, Burnison

ILLINOIS INDOOR RELAYS, URBANA, ILL.

February 28, 1925

Entering the two-mile medley relay, in which they held the carnival record, the Cyclones succeeded in smashing their old record and slipped the new mark up almost four seconds.

The Ames runners, Crawford, Burnison, Greenlee and Conger, tramped the 880, 440, 440 and mile, respectively, in 8:14 2/5 to establish the new mark. Iowa University crossed the line second, Notre Dame third, and Nebraska fourth. The "also-rans" were Chicago, Wisconsin, Kansas University, Michigan and Marquette.

Although the Iowa State men were forced to run under the handicap of the outside lane most of the time, they kept well to the front during the entire duration of the race. On the last leg, with the race a nip-and-tuck affair between the two star track burners of Iowa and Ames, Phelps and Conger, the two Hawkeyes forged to the front to fight it out. Conger of Iowa displayed a little too much speed for the desperately trying Old Gold man, and finally broke the tape fifteen yards in advance of his rival.

Meeker of Ames placed sixth in a field of sixteen

starters in the special 1,000-yard run in which the record for the carnival event was tied by Martin of Northwestern.

CLEVELAND ATHLETIC CLUB MEET

March 21, 1925

This indoor track meet, sponsored by the Cleveland Athletic Club, was held in the Cleveland Public Auditorium, the scene of the national Republican convention. A capacity crowd of between ten and twelve thousand track fans thronged the auditorium for the occasion.

The biggest event of the evening was the two-mile University Relay race to decide the possession of the solid gold loving cup presented by the *Cleveland News*.

Michigan, which earlier in the season had bowed to the Cardinal and Gold color bearers, took the event by a scant foot, after a thrilling battle with the Iowa State lads in every leg of the race. Ohio Wesleyan and Oberlin finished in third and fourth positions. The Ames colors were ably borne by Crawford, Burnison, Greenlee and Conger, who ran the half mile, two quarters, and the mile, respectively.

Kansas University	First
Ames	Second
Washington	Third
Missouri	Fourth
Nebraska	Fifth
Grinnell	Sixth
Drake	Seventh
Kansas Aggies	Eighth

Tennis in 1924 was not accorded the interest that was shown in previous years. However, this may be due to the fact that only two veterans from last year's team were on hand. These were Captain Paige and Ira Young, who played on the championship aggregation, and who were at the head of this year's team which was directed by Paige. The rest of the team was composed of Callahan and Seymour, who were new men, and who competed in only a few contests.

Throughout the Valley, the net men showed a marked improvement over previous years. This is, no doubt, the reason for the keen competition accorded the Cyclone representatives, as Paige and Young, ter-

rors of the 1923 campaign, were downed on several occasions.

In the Missouri Valley Tournament, held in Lincoln, Nebraska, May 24th, Ames was represented by Paige and Young. In the first round Captain Paige was nosed out by Glaskin, of Kansas University, one of the most slashing players of the valley, while Young, with some clever work, went to the finals, where he was eliminated by Rodgers, the other member of the shining Kansas representation. In the doubles, Paige and Young were defeated 9-7, 6-4 in their two final rounds by Rodger and Glaskin, the stellar Kansans.

Local interest shown undoubtedly accounts for the fact that no letters were awarded.

Player	Ames	Ames	Ames	Ames	Ames	Ames	Ames
	Missouri	Washington	Oklahoma	Kansas	Wash. U.	Nebraska	Grinnell

Callahan							rain

Intramural Athletics

"TO THE VICTORS BELONG THE SPOILS"

Iowa State College has just closed the most successful year in Intramural Athletics since the department's establishment several years ago. Frank Willaman, who was intramural director during the past year, is largely responsible for raising the standards of the department so high.

A new system for creating more interest was devised. In addition to giving the usual silver loving cup for championships, points were also given for entering a tournament, for winning first places, and for runners-up. The fraternity or organization receiving the largest number of points by the end of the year is to receive the largest silver cup, which is shown in the picture above. It is the largest that has ever been given for intramural competition at Iowa State College.

In order for this cup to become the permanent property of any organization, it must win it any four years.

Although this is the first year for this system, it has proven to be satisfactory, more men taking part in the sports this year than ever before. However, next year bids well to far exceed this one in developing the aims of the department.

FALL HAND BALL

In the fall the Adelantes showed up very well in hand ball by taking both doubles and singles championships. They were represented by Myers and Rylander in the doubles. Myers defeated Chang, of the Cosmopolitan Club, for the singles championship. Phi Kappa Psi was the loser in the final set in the doubles. Last spring's four best competitors were not entered.

Myers, Rylander

START OF INTRAMURAL CROSS-COUNTRY RUN

Pries, Olsen, Fertly, Grief, Vaughn, Collins

Axelsson, Welch
Carlquist, Vaggenhaller, Wood

SPRING TRACK

Spring track went to the Alpha Tau Omegas after a very hotly contested meet, in which there was plenty of competition as well as many entrants. Alpha Sigma Phi took second place when the final count and settlement had been made.

SWIMMING

Delta Epsilon won the championship in swimming by copping first in the 160-yard relay, 40-yard dash, and 100-yard swim. Their total points amounted to 19. Kappa Sigma was a close second, with 15 points, and Sigma Sigma was third, with 14 points.

Crist, Moore, Arnold

Campbell

Kouba

WRESTLING

By winning first in the 125-pound class and second in the 115-pound class, Lambda Chi Alpha gained the wrestling championship. They were represented by Christ in the 125-pound class and Arnold in the 115-pound class. The man they had entered in the 145-pound class was eliminated in the first round. Six teams tied for second place, each winning one first. These teams were:

Alpha Tau Omega
Aurora
Adelante

Chi Phi
Delta Chi
Alpha Sigma Phi

SPRING HANDBALL

The hand ball champions in the spring quarter were Kouba and Campbell, of Lambda Delta Chi. They received the cup by virtue of winning over the Sigma Alpha Epsilon, represented by "Pep" Young and Thornburg. It was a hard-fought set. There was no singles tournament held in the spring.

Greenlee, Webb, Berry, Howard, Scurr, Nowlin, Hudson,
Thomas, McCurdy

SPRING BASEBALL

This sport was entered into by forty teams. Theta Xi, after winning in their league, continued its winning to cinch the championship cup. They played the Lambda Delta Chi in the final game, and, after nine innings of close baseball, emerged the victors by the score of 6 to 4.

Carlson, Houtz, Moffet, McFarland

CROSS-COUNTRY RUN

Sigma Phi Epsilon topped the list in the cross-country run. They were represented by a well-balanced team. Moffet covered the course in excellent time, winning first place, but was closely followed by Malone and Cervi. Alpha Sigma Phi placed second in the final team standing and Beta Delta Rho third. Of the 120 men to start the run, 92 were able to complete the course.

Brown, Darnall,
Toslefs, Hauge, Ewalt

INDOOR TRACK

Indoor track was marked by keen competition, as was shown by the scoring in the final meet. The teams were divided into four leagues, and the two high teams of each league met in the finals. Phi Sigma Kappa came out on top with 23 points, Alpha Gamma Rho second with 21½ points, and Theta Delta Chi third with 17 points. Additional information:

A. G. R. and D. U., first and second, respectively, in Alpha League.

Alpha Sigma Phi and Theta Delta Chi, first and second, respectively, in Beta League.

Sigma Sigma and El Paso, first and second, respectively, in Sigma League.

Ausonians and Phi Sigma Kappa, first and second, respectively, in Delta League.

Nystrom, Svenson, Chas. Towne, Poole, Peterson,
Paulson, Marsden, Jackson, Balfrey,
Millard, Niles, Hallberg, Carmen Towne

PLAYGROUND BASEBALL

Playground baseball was introduced as an intramural sport for the first time in the fall quarter. Its popularity in intramural competition was shown by the fact that approximately 682 players competed and played not less than 312 games. Sigma Pi took the cup for the final championship by defeating Sigma Phi Epsilon 6 to 5.

Winners of leagues:

Acacia—Alpha League.

Sigma Phi Epsilon—Beta League.

Sigma Pi—Gamma League.

Delta Upsilon—Delta League.

West Street Club—Club League.

Burnison, Meeker, R. Samuelson, Baffey, C. Samuelson

FOUL SHOOTING

By tossing 146 fouls out of a possible 250, Sigma Pi won the cup in foul shooting. They had a well-balanced team, only one of their men being in the high five scores. Theta Chi was second in team scoring, with 142 baskets. The high men of the meet were Boller and Wallace, of the Alpha Gamma Rho, with 36 and 34, respectively, out of a possible 50. Copeland, of Sigma Kappa, and Burnison, of Sigma Pi, with 33 each, shared third place.

Behm, Vavra, Treadwell, Lomax, Crawford
Claude McBroom, Clyde McBroom, Nelson, Myers, Hill

BASKET BALL

Phi Kappa Psi took the championship in basket ball by defeating the Ausonians 19 to 12 in the final game. They won all their games in the tournament, displaying good team work throughout. The following organizations won in their respective leagues:

- Alpha Tau Omega—Alpha League.
- Alpha Gamma Rho—Beta League.
- Phi Kappa Psi—Delta League.
- Ausonia—Gamma League.
- Sigma Sigma—Sigma League.
- Welch Club—Club League.

"Tom"

Tom Campbell, jack of all trades at State gym, probably one of the best known of campus characters, died yesterday afternoon at 1:10 in the college hospital with heart trouble. The ailment had bothered him intermittently for the past year.

"Tom," as he is known to the gym habitues, has for the past ten years served as the watch dog of the closed practice on State field, has held the door against attack of the ones who didn't want to pay their way into meets, and has served in a generally useful capacity. —*Iowa State Student*, February 23, 1925.

*And ne'er did Grecian chisel trace,
A Nymph, a Naid, or a Grace,
Of finer form or lovelier face.*
—SCOTT.

MISS TILDEN

Women's Athletics

"Health—that she may feel the zest of life and enjoy the priceless heritage of physical well-being."

Physical Education is a means of developing a girl into a woman who is trustworthy, courageous, self-reliant, unselfish, fair minded, and loyal, and who is the possessor of a keen, alert mind and a strong, agile and sound body. Such a woman every college girl wishes to become.

"Athletics—that she may have the command of her body and enjoy the spontaneous response to her mind."

In all games and sports the college girl learns the spirit of sacrifices, subordinating herself to her team, and an appreciation of fair play. She learns the rights of others on her team, and of self-control, which so often prevents defeat, and, by no means least, she learns how to overcome obstacles and to keep on smiling.

"Motherhood—that she may know the crowning joys of womanhood and transmit to posterity values of transcendent worth." But, above all, Physical Education, carefully organized and supervised, makes it possible for all women "to possess the right to endow and bring forth human life.

WINIFRED R. TILDEN,

Head of Physical Education Department.

MISS SHANNON

Miss Jessie Shannon came to Iowa State College three years ago from the Kellogg Physical Education College at Battle Creek, Michigan. She is also a graduate of Simpson College, where she took her minor in physical education. This year Miss Shannon has had charge of dancing in the new studio. In the spring quarter she coached soccer, which is practically a new sport on the campus, and trained the students for the Veishea ballets in the night show, "Going Down."

MISS TAYLOR

Miss Leah Taylor of Mankato, Minnesota, is spending her first year at Iowa State College in charge of swimming, including Red Cross Swimming and W. A. A. She had her training at the Kellogg Physical Education College at Battle Creek, Michigan, where she took a very active part in the sports events of the college.

THE BOMB OF 1925

MISS HILL

Miss Madge Hill of Cherokee, Iowa, was graduated last year from the Kellogg Physical Education College at Battle Creek, Michigan, and came to Iowa State in the fall of 1924 to have charge of the Freshmen gymnasium classes throughout the year. At the Kellogg School she was president of the Senior class. This spring she has charge of the rehearsals for the Veisheit May Fete.

MISS KELLEY

Miss Mae Kelley has been in charge of the individual gymnasium work at our college for five years. During that time the enrollment has increased from fourteen girls to one hundred girls. She is a graduate of Oberlin College. For several summers she has attended the Harvard Medical School where she has received instruction which has helped her in the development of the individual gymnasium department.

MISS SHELBY

Miss Matilda Shelby, who is the W. A. A. sponsor, has created a great deal of interest among the girls in the third-hour sports. In the spring of 1924 she attended the National Athletic Conference of American College Women at Berkeley, California, and in the winter quarter, 1925, she was a delegate to the sectional conference of American College Women which was held at Urbana, Ill.

MISS KING

Miss Ruth King has had charge of the new course in playground which has been developed this year. She also started a course in campfire and has supervised the municipal playgrounds of Ames. She is a graduate of Nebraska University, and has been at Iowa State College for two years. Last year she taught swimming and has assisted in the Red Cross swimming classes this year.

THE WOMEN'S GYMNASIUM

The Women's Athletic Council

The Women's Athletic Council, consisting of the president, vice president, secretary, treasurer, representative from "A" fraternity, heads of each sport, and a member of the faculty, is the governing body of the Women's Athletic Association.

The purpose of the organization is to promote higher physical and mental efficiency, to stimulate interest in gymnastic and athletic activity, and to create college and class loyalty.

Any girl who has earned 100 points is eligible for membership in the Women's Athletic Association. When a girl has won 500 points she is entitled to a W. A. A. pin and for 1,000 points she may wear the official "A." Twenty-five points are given to the girls for making the squads, 100 points for the team, but no points are awarded for making the varsity team, since it is only honorary and the team seldom plays any games.

Each year one or two seniors who have shown special interest in athletics during their college course are awarded the official "AA" placed on a bleacher blanket.

Our W. A. A. is a member of the Athletic Conference of American College Women, the National Amateur Athletic Federation of America, and the National Hockey Association.

Hockey

VARSITY SQUAD

Tow, Swihart, Shelby, Wasser, Walker, Cleghorn, Proctor
Stell, Rutherford, Alexander, Marston, Laron

Miss Agnes H. Inrie, of Glasgow, Scotland, who is an English hockey coach, came to the United States again this year, under the auspices of the American Hockey Association, to coach the sport in American colleges. She coached the hockey classes of Iowa State in the fall of 1923 and also 1924.

A great deal of interest was shown throughout the season. Two hundred and seventy-eight girls reported for practice twice each week. Members of the squads were awarded 25 W. A. A. points and team members 100 W. A. A. points.

THE FIELD

Basket Ball

Two hundred and eighty-one girls took an active part in basket ball during the winter quarter. The sport was coached by Miss Matilda Shelby, W. A. A. sponsor.

The classes practiced for six weeks previous to the choosing of the squads, who spent three weeks in

preparation for the tournament. Each girl who was a member of a class squad was awarded 25 points for W. A. A. and team members received 100 points for W. A. A.

After the class games were played, a varsity team was selected, as follows:

Swimming

W. A. A. swimming was conducted as individual work in the fall and spring quarters and as class team work in the winter quarter. In the fall points were awarded according to the girl's ability in the various strokes and dives. The meet was held with two Naiads acting as judges and points were awarded for all strokes and dives done in good form.

The girls receiving W. A. A. points were:

DORA BUTLER	35	JOSEPHINE FOSTER	113
IDA MELDRUM	30	AMANDA BESSMER	83
REBECCA NELSON	20	FRANCES REYNOLDS	78
ANNE WESTROM	30	MABLE SHEPPARD	133
BERNICE MILLERKE	25	HELEN TREMAIN	58
GLADYS OLSON	40	VIVIAN BLAKE	115
MARY HALPHILL	103		

In the class swimming meet held during the winter quarter the freshmen won with a total score of 36 points, the juniors were second with 25 points, sopho-

mores third with 14 points, and the seniors fourth with 8 points.

Of the sixty-five girls out for class swimming teams, twenty-two girls were qualified for the team. They were:

<i>Seniors</i>	
GAIL REDFIELD	MARIE HORST
MARVEL SECOR	FLORENCE LARSON
<i>Sophomores</i>	
ANGELINE SCHOECH	ELEANOR WINTON
MARGARET CLEGHORN	GARNET TISSUE
SHIRLEY WILLIAMS	REBA RALES
<i>Juniors</i>	
SUE LYLE	MABEL SHEPARD
LUCILLE DEISCHER	DOROTHY LAROS
ANNA WESTROM	
<i>Freshmen</i>	
VIRGINIA ALEXANDER	JOSEPHINE FOSTER
DOROTHY STEWART	VIDA SECOR
ARLENE FELLINGHAM	MARY HALPHILL

The results of the meet are as follows:

- 40-yard crawl—Virginia Alexander.
- 40-yard back stroke—Arlene Fellingham.
- Plunge for distance—Dorothy Stewart.
- 100-yard free style—Virginia Alexander.
- Form—breast, side and rest back was won by the Freshmen.
- Relay—First, Freshmen; second, Junior; third, Senior.
- Diving—Junior, Dorothy Laros, first; Sophomore, Margaret Cleghorn, second.

CLASS TEAMS

Redfield, Secor (Seniors)
 Lyle, Deischer, Westrom, Shepard, Laros (Juniors)
 Schoesch, Cleghorn, Williams, Winton, Tissue (Sophomores)
 Alexander, Stewart, Fellingham, Foster, Secor, Halphill (Freshmen)

BREAKING FRONT STRANGLE HOLD

RED CROSS

This year about fifty girls passed their Red Cross Life Saving tests and were awarded the life saver's emblem and pin. W. A. A. points are not given for Red Cross swimming, as it is considered an award in itself.

In the Red Cross classes the girls learn to be safe swimmers, to break holds, to carry tired and unconscious swimmers, and to rescue objects in ten feet of water. They are also instructed in the methods of resuscitation.

Seven girls won their emblems in the fall quarter. They were:

SUE LYLE
DOROTHY OSBORNE
SHIRLEY WILLIAMS
MARGARET FRASER

MYRA HARDER
GAIL REDFIELD
GLADYS HOOKER

NAIADS

"Naiad" is an honorary swimming organization for women who have shown interest and special ability in swimming.

It was organized in 1922. The requirements for membership are: that each girl shall have a Red Cross life-saving emblem and the ability to do four standard dives and four strokes in good form.

Last fall, with the aid of the W. A. A. girls, the Naiad's gave a water pageant in the women's pool. Stunts, fancy dives, and water polo were featured.

New members initiated into the organization this year were:

DOROTHY COOLEY
DOROTHY LAROS
LEAH TAYLOR, honorary
(faculty)

MARGARET PROCTOR
MARGARET CLEGHORN
ELEANOR WINTON

THE NAIADS

Taylor, Cooley, Winton, King
Parker, Cleghorn, Laros, Butcher, Wasser

Track

Benson, Wylie, Hanson, Winton, Wilson, Putnam
Garner, Rutherford, Tow, Talbott, Steil

Track is a comparatively new sport for Iowa State co-eds and only thirty-six reported for practices. More freshmen than upper classmen reported, so a team was made up of the first-year girls and one from the upper-class girls. Teams were chosen from the individual records that the girls made in each event.

The grade schools and Campfire girls of Ames took part in the Track and Field Day last spring, which was held May 24.

The freshman team was composed of the following:

ETHEL BENSON	VIVIAN BLAKE
MARGARET HANSON	IVA KNELLER
ALICE STEIL	MARY TALBOTT
MARGARET TAYLOR	FRANCES TOW
OPAL WILSON	ELEANOR WINTON
	EFFIE WYLIE

Upper-class team members were:

ELIZABETH EVERETT	KATHERINE RUTHERFORD
IRMA GARNER	ANNE HENDERSHOT
HELEN PUTNAM	BARBARA WENTCH

The results and records of the Field Day Meet were as follows:

50-yard dash—Alice Steil (Fr), 7 1/5 seconds.
75-yard dash—Irma Garner (Upper), 10 2/5 seconds.
60-yard hurdles—Alice Steil (Fr), 10 1/5 seconds.
Discus—Ethel Benson (Fr), 67 feet 11 inches.
Hurlball—Helen Putnam (Upper), 53 feet 3 inches.
Basket ball—Iva Kneller (Fr), 63 feet 9 inches.
Baseball—Ethel Benson (Fr), 143 feet 6 inches.
Standing broad jump—Barbara Wentch (Upper), 6 feet 8 inches.

Running broad jump—Irma Garner (Upper), 12 feet 5 5/8 inches.

Hop, step and jump—Eleanor Winton (Fr), 25 feet 1 1/4 inches.

The grand total of the class scoring was 49 for the freshmen and 38 for the upper-class men, making Freshmen victors of the Track and Field Day. The individual high scorer was Irma Garner, a sophomore, with 14 points to her credit. Her nearest competitors were Alice Steil and Barbara Wentch, each with a score of 11 points.

A great deal of enthusiasm was created among the girls when the announcement was made of the accepted telegraphic competition between Iowa State and Northwestern. When the report was received it was found that Northwestern had defeated Iowa State, but the comparison of scores was an added incentive for the girls to do their best.

BREAKING THE TAPE

THE BROAD JUMP

Baseball

Baseball was one of the favorite sports in the spring of 1924. One hundred and twenty-five girls reported, so that each class had a team. Twenty-five points were given for squad membership and 100 points for being selected to play on the team.

Those who received 100 W. A. A. points were:

Freshmen

ESTHER GAMBLE
BLANCHE FUNK
ANNA MADILL
HELEN OSTBERG
LOUISE ROSENFIELD

VIRGIL KELLEY
MARTHA POET
EVELYN VAUGHT
HELENE CHERRY

ELM LODGE TEAM

Hall, Wherry, Saunders, Kneller, Gamble
Zeman, Casper, Manatt

Tennis

Smith, Adams, Conway, Kelby
Osborne, Bone, Hereford, Westcott

During the fall quarter of 1924 the new tennis courts were completed back of the Lodges and the girls had access to them at all times. A tournament was held during the fall quarter. Class teams were chosen, the winner and runner-up in each class to compose the class team. To be a member of the team, each girl spent two hours in practice weekly, passed a theory examination and was passing in all college work.

In order to gain the interest of more girls, class captains were elected by the head of the sport, Frances Westcott. At the close of the tournament three seniors, one junior, twelve sophomores and fifteen freshmen had met the requirements and from these the class teams were chosen.

Those who were chosen as team members and who received 100 points for W. A. A. in the fall quarter are:

<i>Seniors</i>	
ANNETTE ADAMS	MILDRED SMITH
<i>Juniors</i>	
DOROTHY OSBORNE	
<i>Sophomores</i>	
VIRGIL KELLEY	ESTHER CONWAY
<i>Freshmen</i>	
DOROTHY HEREFORD	DOROTHY BONE

In the fall this sport is developed by teams and in the spring it is developed on an individual basis.

Each girl who wins her games and is in the finals receives 100 points for W. A. A. For each game that she wins she receives 25 points for W. A. A. and 15 points is awarded to the loser if she keeps up her practice throughout the season.

THE GIRLS' NEW TENNIS COURTS

BALLET SCENE TAKEN FROM THE HEC VAUVIL

Archery

Archery, a new sport on the Iowa State campus, has had quite a successful year as far as having the number and the interest of the girls for participation. There were seventy girls who took archery for the required sport, twenty-three of which took it to receive W. A. A. points.

An archery competition was held on Field Day. Evelyn Vaught and Miss Matilda Shelby, archery coach, picked the class squads.

The freshman class won with a score of 17, seniors second with a score of 12, sophomores third with a score of 11, and the juniors fourth with a score of 8.

The individual high scorer was Helen Smith, with a score of 11; second came Helen Putnam, with a score of 8.

Five girls were given 100 points in W. A. A.:

HELEN SMITH
JANE BROADS

DOROTHY COOKE
EDITH HUTCHISON

ELLA LARSEN

Heavy Apparatus

Heavy apparatus was conducted as an individual sport, 100 W. A. A. points being given to those making the teams. Sophomore girls taking heavy apparatus as their required second-year physical education course are eligible to try out for the team.

A cup is awarded by the department for the best work done in heavy apparatus. Last year the cup was won by Blanche Belknap.

In the contest the work was done on the parallel bars, horse, giant stride, horizontal ladder, ropes and window ladder.

Those who made the team were:

MARY WASSER

JEAN LISCHER

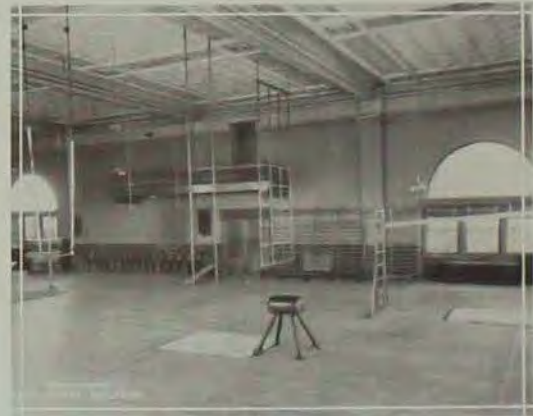

BLANCHE BELKNAP

ANN HENDERSHOTT

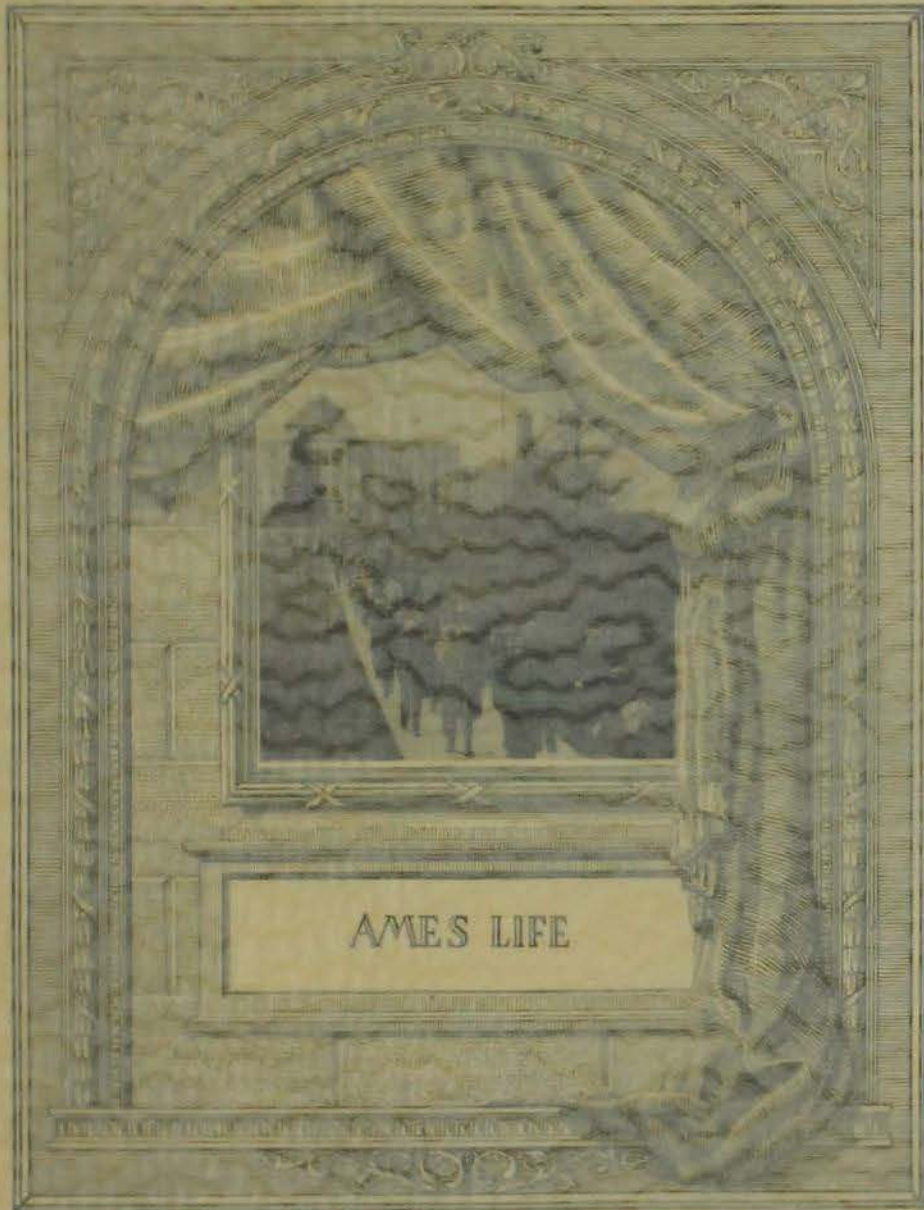

BARBARA WENTCH

THE PREPS WON THE FIELD MEET

THE WOMEN'S GYMNASIUM

AMES LIFE

DANCE WITH PINK FROM THE THE SADDLE.

Archery

Archery was held on the lower team fields, and girls in individual prize races as follows: the winner and the highest of the girls for participation. There were twenty girls competing archery for the winter sport, twenty three of which took home twelve W. A. points.

An archery competition was held on Field Day by Miss Vaughn and Miss Virginia Shellen, archery coach, under the following:

First prize was won with a score of 17, winners, second with a score of 12, sophomores third with a score of 11, and the runner fourth with a score of 5.

The individual high score was Helen Smith, with a score of 11, second was Helen Paterson, with a score of 10.

Five girls were given 100 points in W. A. A.

"WE WANT DUCK SOUP"

"GETTING OUT THE CATS"

"Championship of the Missouri Valley Nines" is the title that was clinched by the two baseball games with Missouri last May 31st. Not since 1919 has the Valley title rested here.

"The Twisters," a new pep organization started on the campus, put in their initial appearance during the afternoon game with Missouri. They staged an impressive ceremony and were largely responsible for the pep which marked the end of the season.

"Twas a glorious battle for the victorious Sophomores that was staged on State field preceding the Nebraska Wesleyan game. Stripped to the

waist and greased with lard, axle grease, and later with mud and slime from the field of battle, they struggled against the preps and foot by foot pushed the ball toward their line, at the same time writhing in pain under the tyrannical Twisters and double A pine board heaters.

"Pep resigned high on the campus, despite the Grinnell upset. "We want duck soup!" Never before during the season had the feeling run so high as it did during the week preceding the Drake game. Between every class and in every building the students assembled and made their wants known. The team came through. They got what they wanted!

SEVEN STEERS WERE PREPARED.

MANY CONCESSIONS.

CARNIVAL PEOPLE.

IN THE NATURAL AMPHITHEATRE.

FIREWORKS SPECTACULAR.

HUGE CAMPFIRES.

TO NORTH WOODS.

SIZZLING HOT DOUGHNUTS.

Seven steers were prepared and consumed at the annual Ag barbecue and reception at the beginning of the school year. Many concessions furnished amusement and a source of outlet for the entrance-admission tickets.

Squeak Gord's Okch orchestra furnished music for the bowery dance, which proved to be the center of attraction for those who desired to "trip the light fantastic."

"Here comes the engineers!" Such were the cries echoed across the campus at 4:00 o'clock one Friday afternoon early this fall. Couples seemed to meet here and there and with a blanket under "his" arm they would head for North Woods.

Business was good and the carnival people soon sold out. It is said that the co-eds in the doughnut booth consumed one full barrel of flour in the cooking of their sizzling hot, powdered-sugared, irresistible doughnuts. After the consummation of dinner and when darkness had fallen the two roaring, leaping, licking campfires guided the Engineer and his lady to their seats for the night shows in the natural amphitheatre.

Fireworks, indeed spectacular, added much to the gala event. The night show was composed of snappy vaudeville acts put on by campus organizations. Daubert's tumblers were awarded the first prize for the best skit presented during the show.

CAPACITY CROWDS

TOUCHDOWN AMES

SHRILL JUMP

MANY PHOTOGRAPHERS

THRILLS AT THE GRIDGRAPH

CLEM

CHUCK

Capacity crowds marked both the Home-coming and Drake games. With the addition of the new bleachers on the east side next fall no one will be turned away from the gates. The Bomb photographer traveled with the fans for these pictures. In the top picture the crowd is cheering "Mope" Behm while he makes another fifteen yards during the Drake game.

All who have attended the Relays need no introduction to the eastern announcer and his clever remarks. The other picture shows that reporters and news photographers were busy during the Relays.

The gridgraph furnished the stay-at-home fans the thrills for the away-from-home games. The gym was always filled to capacity and the graphic representation of the games play by play furnished thrills. Who says the crowds didn't go wild when "Mope" Behm made his touchdowns in the opening minutes of the Minnesota game?

Below we have "Clem," senior cheer leader, and "Chuck," junior cheer leader and announcer. "Chuck" says that he has ambitions along this line and we believe that he can run his eastern rival a close second.

TWISTERS ENTERTAINMENT

HOME BONFIRE

PEP MEETING

AND BETAS

A STUNT

PARADE

PLUNCHED ENTERTAINMENT

Although Home-coming came early in the season, much spirit was generated and on Friday the crowds began to make their appearance on the campus. Over 3,500 people attended the huge bonfire and pep meeting held on State field Friday night before the game.

Keen competition was shown in the house decorations. Sigma Phi Epsilon was awarded first among the fraternities and Delta Delta Delta among the sororities. Others that received honorable mention were: Tau Kappa Epsilon, Beta Delta Rho, Gamma Sigma Alpha, Phi Kappa and Delta Tau Delta.

A stunt parade furnished entertainment for the gathering crowds at the Missouri game. Between halves, the Twisters furnished more entertainment. The lady who volunteered to ride the steer, according to the announcer, Miss Dorothy McCarroll, was unsuccessful, even after much rehearsing. What?

Before a crowd of twelve thousand, the Cyclones were defeated by a score of 7-0. It was too bad that Missouri had to spoil our fun for the rest of the afternoon.

POLITICAL SPEECHES

Who says the coming generation isn't interested in politics? But wait just a minute, dear reader, until we explain. We didn't get enough political material to fill this page, so we had to fill in with some probation stunt snaps. Of course, the photograph of the four intelligent looking gentlemen in the upper left hand corner may be very logically placed on this page. They are the four class presidents who came out successful in the annual winter class elections.

But we were going to start out by saying that the excitement of the presidential election last fall was felt even on our campus. The Coolidge-Dawes coast-to-coast caravan stopped one noon and a few speeches were presented from Central steps to a large crowd of students. In the upper right-hand corner we have Phil La Follette presenting his father's doctrines to a large crowd which gathered in the streets near Campustown.

RESEARCH IN CEMENT CONSTRUCTION

SUFFERED A GREAT SETBACK

MUCH PAVING

THE NEW HOSPITAL

WAS ADDED

PROPOSED HOME ECONOMICS BUILDING

NEW BARN

A NEW LAUNDRY

CONSTRUCTION STARTED ON MEC BUILDING

HOSPITAL ADDITIONS

The building program which has been going on at Ames during the last few years has kept up its usual pace this year. Most of the old pavement was resurfaced last summer and much new pavement was added to the campus drives. While this work was in progress, however, the campus, which was in the midst of its summer beauty, suffered a great setback by the terrific windstorm which visited it. At first it looked as though its beauty was permanently ruined, but Tom Sloas soon had it cleaned up, so that when the students returned this fall everything was as usual.

Completion of the new Library, the hospital additions and the beginning of construction work on the new Home Economics building are the high marks for the year. Several new barns and pavilions are being built for the animal husbandry department, while the buildings and grounds headquarters have been moved to a new building near the power plant, thus eliminating the unsightly yards back of the athletic field. A new laundry has also been built near the power plant to take care of the college work.

POPULAR QUARTET

EXIT WAR—ENTER PEACE

REHEARSAL

A JOLLY SQUAD OF MUCKERACK

THE BAND CONCERT

CHORUS

CHORUS

EXIT—HEC VANDERL

Stage productions of different natures form a large part of Ames life. Here we present the popular and familiar faces of the A-M-E-S quartet, which helps to entertain everything from football crowds and gridiron banquets to Ames theatre patrons. The quartet cannot be considered without the Men's Glee Club, however. Besides giving a home concert and making many appearances at other times, it took several extended tours. Above, Yates, the Des Moines Register photographer, caught them just after they got off the train on their return from the Missouri Valley contest at Kansas City.

The Cosmopolitans' annual play, "Exit War—Enter Peace," was pronounced the finest production of its kind ever attempted at Iowa State. The Hec Vanderville featured more choruses than ever this year. 'Tis said, they even could ramp! Who says rehearsals aren't fun! Everyone seemed to get lots of kick out of Feishea rehearsals, thanks to Lester Edinex. We wonder why they brought in the live stock for this picture.

PARKING SPACE

BY STREET CARS

LAUNDRY GALORE

BUSSES

TRAINS

TAXIS

AND INTERURBANS

IN A HURRY

REGISTRATION LINES

AND CROWDS

Our photographer caught a variety of things for this page. Cars have become so numerous that parking space has been provided instead of using the drives for such purposes.

In the upper right hand corner is the mail truck. Uncle Sam does a thriving business handling laundry bags in Ames. Show this to your postmaster in the home town.

School was out at 11:00 o'clock and everyone was in a hurry to get

home for Christmas. Looks like our cameraman was on the job in spite of the cold. Students left the campus by every known means; they used street cars, busses, taxis, interurbans and trains.

Anxious to get home and yet anxious to get back to work. Again registration lines and crowds collected. It was not a new thing for the freshmen this time, however. Think how Herman Knopp thrives on registration day!

SURVEYING LAB

SPRING BRINGS FOURTH

THE BUILDINGS FOUR FOURTH

SUNSHINE CLUBS

THE PARADISE CORNER

THE CRANFORDS

OLSEN'S

MAIN STREET

FORDS

SOUTH SIDE

Maybe you think we wasted this page! Just wait. Maybe some day these pictures will recall many things to your minds, dear readers.

What is nicer than a surveying lab on a nice sunshiny spring afternoon? The engineers are kept busy on windy days. Ask them.

Spring also brings forth sunshine clubs. Why do the preps always avoid them?

Hourly the College buildings pour forth their crowds of students who have to hurry across the campus to their next class or perhaps to the post-office for a blue book or a bar.

Fords and the Cranford seem to be southside hangouts for the popular college men (as they are) and the unpinned co-ed.

Who cannot recall waiting on the Paradise corner for a car or bus, or taking a Friday night date down to Olson's via a crowded street car or bus?

June 12—Senior Prom.

Inter-Fraternity Council Dance

GEORGE C. LIGHTY

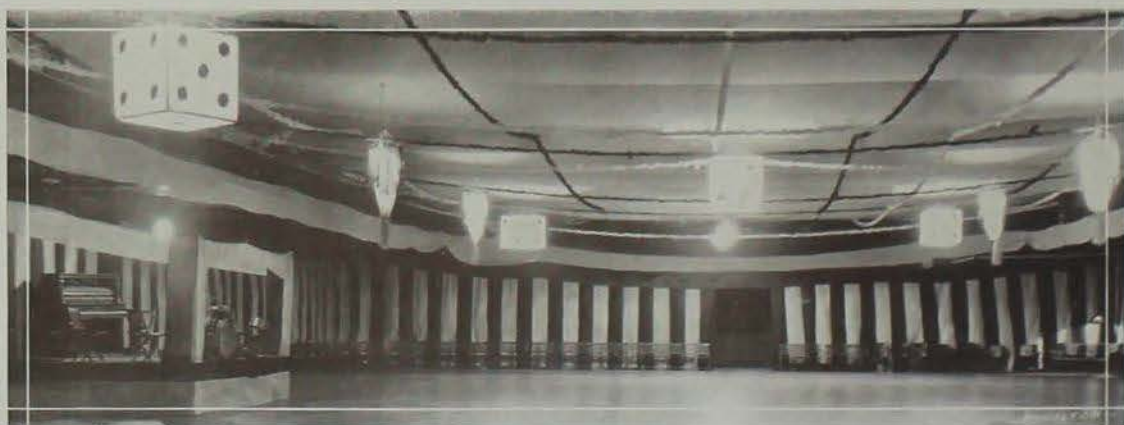

FRED POWERS

Within walls of black and white the Interfraternity Council entertained at a formal dance April 12, 1924. As the music issued from the black and white box at one side of the room the couples melted out over the floor into a veritable orgy of color. Beneath the dice-hung lights they swayed till the magic hour of twelve when they hurried away least the cabs and their drivers become pumpkins and mice again.

Committee in Charge

GEORGE C. LIGHTY

FRED POWERS

Military Ball

Gordon, Peterson, Harper, Steimbrecker

To Martial strains the captain and his lady led three hundred couples in the grand march which opened the Military Ball on May 3, 1924.

The usual barren gym, with its high-vaulted ceiling

and hard brick walls, was transformed into a fitting setting for this festival of army men with its hangings and streamers of red, white and blue. The uniforms of the men and the bugle calls which announced each dance gave a true military flavor to this gala array.

Committee in Charge

Chairman—Major George A. Harper.
Decorations—Captain Harold Steimbrecker.

Lighting—Major L. J. Peterson.
Music—Colonel Hugh E. Gordon.

A. A. Blanket Hop

ROY LONGSTREET
Chairman

"To the victor belongs the spoils," the "spoils" in this case consisting of "A" blankets, which were hung about the walls of the gymnasium. Overhead streamers of cardinal and gold lightly swung in the soft breeze which wafted in through the windows. At intermission the "victors" were presented with their blankets.

Senior Prom

HERBERT P. SIXUT
Chairman

And what is so rare as an eve in June—especially with a garden setting, white latticework fences with swinging gates, festoons of garden flowers and music which melts the heart? And while they danced unceasingly, Iowa State College was becoming one of the fondest memories of those who were graduating.

With the end of the Senior Prom on June 6, 1924, the seniors of that year ended their activities.

Junior Trot

In a courtyard of medieval Europe the Juniors danced on November 29, 1924. Through the open draw-bridges the guests entered and one could almost hear the clank of armor between the pauses in the music. From the low-swung ceiling little dim lights faintly gleamed and shone on the armor plates upon the walls.

TAU BETA PSI STEP INTO SOCIETY

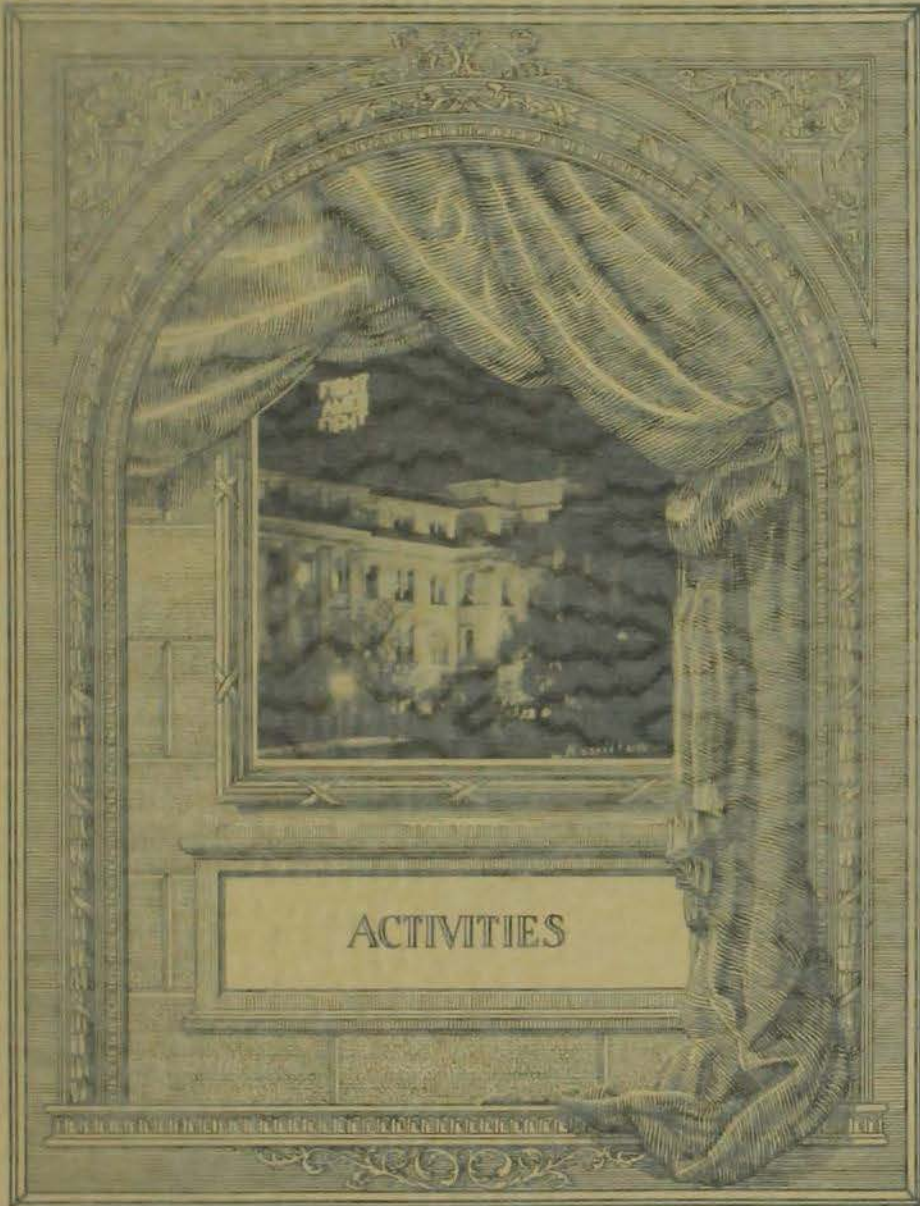

'TIS FUN TO BE BROKE, WHAT?

A SHORT YET HANDSOME

Though the social calendar lists only the all-college functions, it does not by any means include all of the best. Each organized house and society on the campus is responsible for some form of a "skin-dig" during the year. It may be the kind where you spend most of the day getting your tux pressed and your shoes shined, lying in bed with bleach on your face and arms, or rummaging in your closet for your oldest clothes—they all get into the paper.

Above appear pictures of the Tau Beta Psi's Formal held at the time of their national convention here last fall. Next, the tall, long boys in rather impoverished raiment, attended by their likewise informally-clad lady friends, at the T. L. B. hard times dance given at the Country Club last fall. The sawed-off boys appear last in formal attire taken at the time of the Pebul formal dance.

ARMS AND THE MAN

A Pleasant Play

by

GEORGE BERNARD SHAW

"Arms and the Man" is one of Shaw's cleverest bits of satire. It holds romantic love, hero worship and the glammers of war, up to ridicule. The scene is laid in the warring Balkan states. Raina, a young Bulgarian woman, discovers that her hero, Sergius is really not the man that she has pictured. Later she finds that Bluntschli, an enterprising young Swiss hotel keeper, holds the key to her affections. In a rather melodramatic, and, in some places startling, fashion, Shaw cleverly depicts the arrogant mother, the irritable father, the ambitious maid and the humble serving man whose foibles serve to balance the plot of the play.

ACT I. "The poor dear is worn out. Let him sleep."

Senior Class Play, "Arms and the Man"

ACT II. "Then stand back where we can't be seen!"

THE PLAYERS

CATHERINE PETKOFF, an arrogant Bulgarian lady
DOROTHY M. CASS
BAINA, her romantic daughter
MARION MILLER
LOUKA, a servant girl with ideas above her station
NITA KNOWLES
CAPTAIN PAUL BLUNTSCHLI, a Swiss serving in the
SERVIAN army
RALPH B. URMY, JR.
A Russian Officer
LOREN F. KALLE
NIKOLA, a servant betrothed to Louka
HERBERT A. HARMISON
MAJOR PAUL PETKOFF
HERBERT P. SINDT
MAJOR BERGIUS SARANOFF, Raina's fiancee
KENNETH J. MALTAZ

THE PLACE

ACT I. Night. Raina's room. A small town in Bulgaria near the Dragoman Pass. Late November.
ACT II. Morning. In the garden of Major Petkoff's house. March, the following year.
ACT III. In the library after lunch.

Summer Plays

"Kau Yen, where art thou?"

The Summer Session presented four one-act plays July 11, 1924.

THE BRONZE IDOL
By Ruth Elaine Wilson

BIMBO, THE PIRATE
By Booth Tarkington

"Drag him away from her!"

Miss Ruth Elaine Wilson, senior industrial science student, author of "Yalami", 1924 Veishea night show, and "The Wishing Chair", 1924 May fete, both presented at Iowa State College, again has distinguished herself. She is the author and director of "The Bronze Idol", presented with three other plays by the play production class, under the direction of Lester Raines, director of dramatics.

"The Bronze Idol" is rich in poetic imagery and offers splendid opportunity for scenic effects. Lighting artists and costumers worked with the actors to make the most of this.

The dragon, sprawling, in the background, eternal symbol of the orient, the drifting incense, the "immovable" idol in the soft glow of the lanterns, presented a beautiful setting for the play, through which the characters moved in mystic rites. The gossiping hand-maiden, the devotion of the priests, the offering of the beautiful Chin Li, bride to the great god Fu, is eclipsed by the return of her departed lover, the idol himself.

"It is I, Kau Yen, thy lover."

CAST FOR "THE BRONZE IDOL"

(A Miracle in the Manner of the Chinese.)

Time: The day before yesterday.

Place: At the shrine of the Bronze Idol.

SHENG, a student Monk	GEORGE A. HARPER
WANG CHI-TUNG, a slave woman from the house of Huang Tai Tsu	ELLEN E. BIRUM
FU, THE BRONZE IDOL	BRUCE A. GAMBLE
KANG YI, the high priest	D. VINCENT WILLIAMS
HU, a student Monk	J. RICHARD KEARNS
HUANG TAI TSU, a wealthy merchant	T. AUDREY ANDERSON
CHIN LI, his daughter	KATHARINE L. M. THOMAS
KAU YEN, the immortal lover	BRUCE A. GAMBLE
A Crowd of Worshippers outside the Shrine.	

Direction of Ruth Elaine Wilson.

This is the first production of this play.

Set by Leonard M. Barker.

CAST FOR "BIMBO THE PIRATE"

ROBERT	J. HENRY PFACTZ
LYDIA	PEARL HARRIS

Director	ALPHA ROTH

The Dear Departed.

Two Crooks and a Lady.

Junior Class

Presented
 "ICEBOUND"
 By OWEN DAVIS
 February 21, 1925

A characterization of people who see only the little things in life, was the bright spot in the presentation of "Icebound" by members of the junior class.

"Icebound! That's what we are! Icebound inside and out," said Ben Jordan, played by C. T. Cownie, and the carrying out of the whole idea of severity and smallness was well portrayed by the players.

The settings for the presentation of the play were remarkably well suited for the subject, everything speaking of severity gone beyond the dignity stage. Properties, old chairs, settees and the like were well chosen to lend the atmosphere of the New England home.

The part of Jane Crosby, was exceptionally well played by Ethel Greenway. In her part, Miss Greenway played opposite Ben Jordan, played by C. T. Cownie. Mr. Cownie did fine work in the interpretation of the part of the black sheep of the family, the wayward member who was brought out on top by the love of a woman.

Margherita Tarr, playing the part of a small boy, Orin, was a constant source of merriment to the audience, with a combination of clever acting and lines. Mrs. Ida H. Cornforth, playing the part of the small boy's mother, one of the Jordan sisters, was pleasing to the spectators.

As the first long play to be staged under the direction of Prof. C. A. Fritz since his coming to the campus last fall, "Icebound" proved a decided success.—The Iowa State Student.

Persons in Play

HENRY JORDAN	J. RICHARD KEARNS
EMMA, his wife	FRANCES WESTCOTT
NETTIE, her daughter by a former marriage	BEULAH ROBERTS
SADIE FELLOWS, once Sadie Jordan, a widow	IDA H. CORNFORTH
ORIN, her son	MARGHERITA TARR
ELLA JORDAN, the unmarried sister	KATHERN AYRES
BEN JORDAN	CHARLES T. COWNIE
JUDGE BRADFORD	G. H. RIEMAN
JANE CROSBY, second cousin to the Jordans	ETHEL GREENWAY
HANNAH, a servant	JESSIE HILL
JIM JAY, deputy sheriff	R. K. PORTER

The action takes place in the parlor of the Jordan homestead, Veazie, Maine.

MILITARY

*They taught him how to turn his toes,
And stand as stiff as starch,
I thought that it was love and May
But it was love and March.*

—Hoon.

Lt. Col. F. S. Young

Lieutenant Colonel F. S. Young relieved Colonel Shaffer as Professor of Military Science and Tactics at the Iowa State College on September 1, 1924. Colonel Young has served as a commissioned officer of the army since 1922. He is a graduate of the U. S. Army Staff College, the U. S. Army War College and served four years on the General Staff.

The Reserve Officers' Training Corps

The prospects for this being the banner year in the history of the R. O. T. C. at Iowa State College appear excellent. The high spirit of the corps, combined with the splendid support given by the President and Faculty, and the hearty cooperation of all Departments of the College, insure splendid results.

In the future the Reserve Officers of the Army will be drawn primarily from the R. O. T. C. It also will be the principal source from which will be drawn the officers for any future war. The War Department relies upon the graduate to become available in any national emergency and the National Plan of Defense is drawn with that idea in view.

The R. O. T. C. as an institution is in harmony with the views of Washington, Lincoln, Grant and Pershing. Aside from the professional qualifications involved as officers, the R. O. T. C. stands as a patriotic example of loyal citizens fulfilling their duties to the Republic.

Whether in civil life during Peace or in the Army during War the graduate of the R. O. T. C. will be known by his fine leadership, his splendid executive ability and the training that is essential to success.

F. S. Young.

RICHARD T. NICHOLS

In the last four years the program of Military Training has been developed rapidly at Iowa State. The army officers who are responsible for this development were handicapped greatly by the loss of the first new armory. It has been replaced and again the military program is being perfected and developed more than ever. One step in this development has been the new uniforms supplied to the members of the advanced course. A greater step will be made when the government supplies the same uniform to the entire unit, which will help lift the morale and interest of the basic men. One of the greatest compliments that the Artillery Unit received in the past year was made by Colonel Miller after reviewing the Field Artillery Unit. If this type of work is kept up there will be little question of Iowa State making the distinguished college rating. This spring the military department intends to introduce a new sport on the campus. They have been supplied with a number of good mounts suitable for polo, which will, in an indirect way, create a greater interest for military at Iowa State.

RICHARD T. NICHOLS,
Colonel, Corps of Cadets.

 J. KEARNS - Sergeant
 F. GRIFFIN - Sergeant
 C. FORRESTER - Sergeant
 M. MILLER - Sergeant

First Row: Wilmer, Smith, Allyn, Wicks, Muller, Alex, Robinson, Pabst, Callaghan, Watson, Miller, Marston, Kallenburg, Forrester, Peterson, Cook, Thomas, Bankson, Kewns, Wood, Caldwell, Chapman, Fulton, Ballard. Second Row: Pride, Paul, McEwan, Nannon, Stevens, Texrud, Smith, Sprague, Ormson, Kewns, Griffin, Herzog, Ruback, Horn, Miller, Offring, Hanson, Oming, Wagner, Mitchell, Moen, McLean. Third Row: Tufsen, Hill, Camp, Jarnsworth, Bergman, Handan, Shoemaker, Noble, Sillan, Richardson, Gissal, Oughton, Lomax, Brooks, Stillinger, Jones, Morgan, LaVasout, Wood, Arends, Iseninger, Sogard. Top Row: Holstrom, Murphy, Powell, Thompson, Bruner, Dale, Cox, Jones, Chambers, Wells, Vogel, Lusk, Woodbridge, Lundson, Pyle, Wright, Devnan, Redman, Davis, Tewkesbury, Coombs, Johnson.

A study of the records of enrollment in the Military Department from the time the B. O. T. C. Unit was established at this college in 1920 to the present time shows very satisfactory results. Starting in 1920 with approximately four hundred basic and three advanced students, there has been a steady increase, until in the Fall Quarter of 1924 there were one thousand and eighty seven basic and one hundred and fifty six advanced students. The number of advanced students given reserve commissions has increased from six in the year 1921-22 to forty-nine last year, making a total of eighty seven men commissioned to date.

UNIFORM FOR ADVANCED STUDENTS

The goal of the Military Department for the last four years has been the obtaining of a distinctive uniform for students taking the Advanced Course. During the past year this step has been taken. The advanced student now has a uniform which makes him feel a just pride in the work of the department and stamps him as an integral part of Iowa State College.

Jack will not become a dull boy at the R. O. T. C. summer camps, as a liberal amount of play as well as work is provided for. Athletics for everybody is the adopted policy. Each college and university is invited to enter baseball, tennis, track, boxing and wrestling teams in the field-day events.

Town State will be represented by better teams than heretofore, as a greater number of variety athletes in all branches of sport will attend camp.

It will mean much to the College as well as the R. O. T. C. unit if our boys return from camp with a lion's share of the trophies.

EARL M. PECKSPAUGH,
First Lieutenant Field Artillery (DOL).

THE OLD FORT AT CAMP SNELLING

The training of the summer R. O. T. C. Camps leads to the development of both physique and character. Besides the benefits derived from the physical side, the aim of this training is to engender a love of truthfulness, create a respect for the rights of others, develop fairness, honesty, integrity, loyalty and self-control. It in turn creates the ability to command and the power to lead and makes for better citizenship.

Polo has a very bright future at Iowa State College.

There are now seventy four horses in the R. O. T. C. stables and more are due to arrive. Over half of these horses were picked especially as polo prospects.

The "wooden horse," on which new polo players learn to handle a mallet, is in action and the training of the new ponies is under way, so that by the Fall Quarter of 1925 actual outdoor playing will be going on.

Advanced Military students only will be allowed to play.

The question, "Why must I attend a summer camp?" is often asked me by students contemplating entering the Advanced Course. The answer is, that the R. O. T. C. Summer Camps are designed to give the student the practical work that the limited time, expense, and climatic conditions prohibit being given him at his institution.

If a student were permitted to graduate from the Reserve Officers' Training Corps without this camp training, he would enter the Officers' Reserve Corps with a mass of theoretical knowledge, but with only a hazy conception of the relation that this theory bears to the practical application.

A THOUGHT FOR THE ADVANCED COURSE STUDENT

In a military academy the upperclassmen have the responsibility of training the new cadets in things military.

In an R. O. T. C. unit the advanced course student should feel this same responsibility and, in meeting it, should get that thing which is paramount in a civil or a military life, "the ability to handle men." He should work on the basis that the knowledge of military drill is secondary, while the practice of organizing details and handling men so that they produce the desired results is primary.

This thought is presented to show one of the many ways that military training may fit the student for his activities during peace as well as for war.

COMMUTATION OF RATION LINE

The Veterinary Unit of the Reserve Officers' Training Corps was established at Iowa State College January 2, 1922. It is the largest of the four R. O. T. C. units now in existence in the United States. The course is divided into a basic, compulsory, and an advanced, volunteer, course. The per cent of men eligible to take the advanced course and enrolling in it has gradually increased each year until the present year, when 90 per cent of the eligible men entered the advanced course.

FORT SNELLING CLUB

The Cadet Officers Association

The Cadet Officers Association was founded with the primary purpose of promoting a feeling of good fellowship among students in the advanced corps; to bring student officers and faculty officers of the military department into closer touch with one another; to promote School Spirit by cooperating with the other departments of this college and with other institutions; to secure a broader and more practical knowledge of military science.

The R. O. T. C. is an indispensable principal in our national defense plan, and is of a nature that would not develop in any one the desire for war, but would, in case of a national crisis, prepare him for the services which would be of greatest value to his country. It develops his mind, character, and body by a system of training, based on precision, alertness and a well-timed physical effort.

Among the activities of the society are the sponsoring of the annual Military Circus, which is held near the end of the winter quarter, and the Cadet Officers Uniform hop.

THE R. O. T. C. RIFLE TEAM

The R. O. T. C. Rifle Team started the 1924-1925 gallery season with only three veterans left from last year's team. Twenty-five men turned out during the fall quarter, and with the first matches of the season during the winter quarter, ten of them were firing good scores. During the gallery season of 1924-1925, the team fired in twenty-four matches with other R. O. T. C. teams and emerged victors in twelve of the matches. Three of the matches were lost by only a few points. The team placed ninth in the Seventh Corps Area match.

Honors for high individual scores during the match season went to Norton, who was high man in 17 matches, and in the Hurst Trophy Match. Lyman was high man in seven matches, and in the Engineers Trophy match.

THE BOMB OF 1925

One writer, for instance, excels at a plan, or a title page, another works away the body of the book; and a third is a dab at an index. —GOLDSMITH.

Forty students "devoted to a greater and better Iowa State," as the paper's slogan says, might be a fitting description of the staff that three times a week, points its efforts toward the Monday, Wednesday and Friday issue of the Student.

The staff, working from its new office in Ag Hall, is engaged in a never-ending battle toward a goal of better newspapering, a journalism that is above the "just journalism" class.

The Iowa Engineer, founded in 1894, is published monthly during the college year by the Ames Engineers, students of the division of engineering. It is truly published by the Ames Engineers, for, with hardly an exception, all editorial material is contributed by engineering alumni of Iowa State. The outstanding activity fostered by the Engineer this past year is the publication of a directory of Ames engineering alumni, of whom there are approximately 2500 at the present time.

With twenty other college engineering magazines the Iowa Engineer is a member of Engineering College Magazines Associated. Seven members of the Engineer were in attendance at the annual convention of this organization held in Madison, Wisconsin, in 1924.

This year has been one of growth for the Iowa Agriculturist. A good volume of advertising kept the finances at a point where a long-wanted dream of the magazine might be realized—that of larger issues. Ten issues were put out during the year, the possibility of a mid-summer number having been precluded because of the change in printing establishments. All of these numbers were uniformly larger than for any previous year.

With the establishment of the Collegiate Press came also the moving of the office of the Agriculturist from the first floor of Agricultural Hall to the basement where it enjoys close proximity to the pressroom.

Throughout the year, the Agriculturist continued to pursue the policy upon which it was built, that of reporting the leading events and news having to do with findings in the agricultural experiment station, student life on the agricultural campus and alumni and extension service notes.

Home Economics students publish monthly the Iowa Homemaker, a magazine whose ideal is the improvement and maintenance of the Home.

After four increasingly successful years of existence, it has recently been made the official publication of the Iowa State Home Economics Association, reaching in this capacity Home Economics persons in every corner of the state. The circulation has been correspondingly increased by this step and greater interest stimulated for its success and continued life.

The Collegiate Press, Inc.

WHERE "THE STUDENT" IS PRINTED

A well equipped printing plant for the publication of student newspapers and magazines has been realized on the campus this year. It is owned cooperatively by the Student, the Agriculturist, the Engineer, and the Home-maker, through the Collegiate Press, Incorporated, a non-pennitentiary profit corporation organized by them. It is located in the large, semi-circular basement room under the annex of Agricultural Hall, where also are offices of the interested publications.

This plant does not engage in commercial printing, but confines its work to the newspapers and magazines of the College. Besides this, it does a limited amount of work for the College—merely enough to keep the shop working efficiently. Besides the four periodicals above, the plant prints Horizons, Green Gander, and the Forestry year-book.

The founders of the plant saw three main advantages to be derived from this undertaking. The first of these would be the financial economy which the shop would make possible for the student publications; the second would be the great economy of the time of students who work on the publications due to the convenient location of the plant; the third would be the training in the technical sides of printing and newspaper and magazine making which the shop makes available to students. The experience of this year has shown that all of these advantages are being realized.

THESE LINTYPES ARE IN OPERATION DAY AND NIGHT

As long ago as 1913, when under the guidance of F. W. Beekman, head of the department of technical journalism, the publication boards of the Student and the Agriculturist were formed, the idea of a plant to publish student periodicals was conceived. From that time these publications and others have set aside money in sinking funds with the idea that it might be used at some time to finance the installation of a plant.

This dream of more than ten years was realized last fall. It was found during the summer that the Agricultural hall annex basement could be secured for a printing plant. A plan of operation and financing was worked out and articles of incorporation were filed late in August. Mr. Beekman was intrusted with the job of equipping the plant and putting it in operation. With less than a month to go before the opening of school, he secured the necessary machinery, got it installed, hired help and was ready to turn out printing by September 16.

The members of the first board of directors of the corporation include: F. W. Beekman, chairman, and C. E. Mason, for the Student; M. D. Helser and Harvey Pflueger, for the Agriculturist; Edwin Kurtz and R. W. Beekman, for the Engineer; Miss Florence Busse and Reva Pierce, for the Home-maker; F. M. Reck, at large. W. E. Holmes, formerly of Waterloo, an experienced printer, is superintendent of the plant.

HERE STUDENTS ELBOW WITH THE MAKEUP DEPARTMENT AND GET PRACTICAL EXPERIENCE IN NEWS PAPER WORK

MUSIC

*One man with a dream, at pleasure,
Shall go forth and conquer a crown,
And three with a new song's measure
Can trample a kingdom down.*
—A. W. E. O'SHAUGHNESSY

Iowa State College Band

The Iowa State College Band was organized in its present form in the Fall of 1920 under the direction of Osear Hatch Hawley, who has been the conductor since that time. Admission to the Band is by competitive examination. Normally, the band consists of eighty players and about twenty-five vacancies occur at the end of each year. To fill these vacancies there are from one hundred to one hundred fifty applicants and the players accepted must be very good musicians, else they are not accepted whether the vacancies are filled or not. The band gives one concert for which an admission is charged each year. In addition many free concerts are played—on the campus in pleasant weather, in the gymnasium during the winter, in the radio room for broadcasting. The band usually makes two or three trips to other cities for games during the season. During the years of 1924-25 the band made two trips to Des Moines and one trip to Minneapolis. The band plays as a military organization at many functions (parades and inspections of the military unit) during the year. It is called on frequently for music—for the Little International, the Military Circus, the Veishea, the Engineers picnic, the Industrial Science picnic, Memorial day services, all games whether indoor or outdoor, and winds up the year with a special concert on the President's lawn on the evening of Baccalaureate Sunday.

The Iowa State Glee Club is chosen each year from the men who come to the tryouts which are held each spring and fall. Since the club became a member of the Missouri Valley Interscholastic Glee Club Association only undergraduates are chosen but the rules of this association allow the use of first-year men.

This season the club made a tour at holiday time through the northwestern part of the state. On this tour the Club was assisted by the Iowa State Serenaders. On Feb. 9th the Club competed in the contest held at Kansas City and were second in the final count, being only 6 points behind the winner, Missouri Uni-

versity, with a grade of 249 points out of a possible 300. It is interesting to know that Missouri University took third place in the contest in New York City.

The home concert was held March 13th, in State Gymnasium and in spite of the very bad storm there was a good audience and the club received very hearty applause after each appearance.

There are many vacancies being made this year in the club by graduation and the management wishes to encourage every singer to come out for the try-outs this spring and fall.

HOME CONCERT

MIRIAM VON KROG	President
MARIE RAYNESS	Business Manager
KATHERINE HOLDEN	Publicity
MARY REED	Pianist
MISS ROSALIND COOK	Director

The Girls' Glee Club of Iowa State College is a representative group chosen each year from the many girls who appear for tryouts. The reward for outstanding talent and faithful attendance is a gold "A" designed especially for musical activities for girls.

There have been given this season a number of concerts in nearby towns and a home concert in February.

Uniform dress has been chosen consisting of white jackets, blouses and skirts with black ties. These are worn at all appearances of the club at college functions. Formal dress is worn at all concerts.

The club is well balanced and has made marked progress this year under the leadership of Miss Rosalind Cook.

Iowa State Symphony Orchestra

PROFESSOR HAWLEY
Director

This body of players was organized some five years ago and soon reached symphonic proportions because of the many excellent musicians in the student body and faculty of an institution of the size of Iowa State College. First rehearsals were held during the winter quarter of 1920-21 and the orchestra of fifty to sixty players has been giving concerts under the direction of Prof. Oscar Hatch Hawley since that time. The Orchestra appears on the Artist Concert Series each season, plays radio concerts, plays for the Messiah presentation, and appears in special numbers on Baccalaureate Sunday and at Commencement the following day. Any member of the faculty or student body who can play well and is willing to work hard is admitted to this orchestra.

DEBATES

*'Twas blow for blow, disputing inch by inch,
For one would not retreat, nor t'other flinch.
—SELECTED.*

The Season

R. H. WAGNER
Coach

With thirteen intercollegiate contests on the season's schedule, nearly twice as many as last year, one international contest, the first ever held on the local campus, and twice as many men reporting for the activity as in former years, the 1924-25 debate season proved successful from many standpoints.

In practically all of the contests held, the Oxford plan of debate, and variations of it, first extensively introduced by Assistant Professor Russell Wagner, director of debate, last year, were employed, including such features as the audience decision, open forum discussion and split-team features. In addition two expert judge decision contests were held, but in general the new plan met with the most success.

A great deal of interest and enthusiasm in debate was created by the initial contest with Oxford University of England. Approximately 500 people attended the contest, the only one on the prohibition question, and many ticket orders were received from surrounding high schools. From that time until the contest with Denver University, which closed the season April 7, interest in the activity ran high.

Another feature of the season was the sending of a team to the East coast during spring vacation, during which six teams, representing many of the leading schools in the eastern portion of the United States, were met. The success of the trip was marked, and at present plans are under way for a similar trip next year, although in all probability it will very likely be made in the opposite direction. There is also a chance that a team from Cambridge, England, which toured the eastern portion of the United States last year, may make a trip to the middle west with the result that Iowa State may hold another international contest next year.

Ames-Oxford University

Sprole, Kern, McKee

Malcolm McDonald
Queens College

J. D. Woodruff
New College

M. S. Hollis
Balliol College

The debating season opened at Iowa State this year on Monday evening, October, 27, when the team from Oxford University, England, came to the local campus for a clash on the question, "Resolved that this House Condemns the Principles of Prohibition."

Due to the fact that it was the first international contest ever held on the Iowa State campus and that one of the Oxford team members, Malcolm Macdonald, was the son of Great Britain's prime minister, the contest was of more than usual interest and over 500 people attended.

Iowa State defended the negative of the question while Macdonald, assisted by his colleagues, M. S. Hollis and J. D. Woodruff, attacked the principle of prohibition.

Everett McKee, Mitchell Sprole and Horace Kern were the Iowa State representatives, with President R. A. Pearson presiding over the contest.

However, the Oxford men evidently were not able to make the audience see that prohibition was the wrong sort of institution as the vote taken at the conclusion of the argument, showed 147 members of the audience in favor of condemning prohibition while 327 expressed themselves as in favor of it. However, the ballot did not indicate which team did the better debating, the object being to determine how each individual in the audience viewed the subject under discussion.

Ames-Grinnell

Owens, Sampson, Mighell

Peterson, Kennedy, Jefferson

The first debate of the winter quarter was a dual with Grinnell College in the Foreign Policy question with the Iowa State men upholding the affirmative at home on the night of January 9. C. J. Owens, DeWitt Sampson and R. L. Mighell were the men selected for the team.

The vote taken at the conclusion of the discussion revealed 83 members of the audience favoring the Iowa State viewpoint while 33 agreed with the Pioneer arguers that the present system should be upheld.

The ballots employed in the contest in addition to furnishing a vote on the question regardless of which team the audience thought did the better debating, also provided for an expression of shift of opinion. The count at the conclusion of the debate showed a slight shift to the affirmative.

Professor John Brindley, head of the economic science department at Iowa State, presided over the debate.

On Wednesday, January 14, the Iowa State negative team journeyed to Grinnell for the second debate of the dual meet. L. O. Peterson, J. M. Kennedy and C. H. Jefferson were the men selected to make the trip.

At the Pioneer school, as in the contest held in Agricultural assembly the preceding Friday, the audience upheld the affirmative team in condemning the foreign policy, with the result that the Iowa State men were advancing a cause which only one-third of the audience believed in. The vote taken on the question was 32-16 in favor of condemning the foreign policy.

Disregarding the factor of which team did the better debating, the dual contest showed that both audiences believed the policy of the United States since the World War to be faulty and subject to improvement.

Ames-Drake-Kansas State Teachers' College

Kennedy, Mighell

Wilson, Kent, Owens

As part of the public speaking department's contribution to the annual Farm and Home week program, a debate was scheduled with Kansas State Teachers College of Emporia, Kansas, for Thursday, February 5, on the question of "Congress Overriding Decisions of the Supreme Court by a Two-thirds Majority, in Regard to Acts of Congress."

Only two men were allowed to a side and the essential features of the Oxford plan of debate were carried out, namely, audience decision and open forum discussion.

R. L. Mighell and J. M. Kennedy, both members of the teams which clashed with Grinnell previously in the quarter, represented Iowa State on the affirmative of the question, while Kansas State Teachers College, represented by Royal Alcott and Paul Mureland, defended the present system.

The audience was equally divided on the question, although a

shift of opinion was noticeable from the negative to the affirmative.

The last debate of the winter quarter was held February 16 in the Boone High school auditorium at Boone with Drake University advancing the affirmative of the question that Iowa State employed against the Kansas State Teachers.

By an agreement between the coaches of the respective teams, the only vote to be considered in the contest was how the audience stood on the question; that is, how they believed at the conclusion of the debate.

The contest was interesting from start to finish with the result that the audience was almost divided in opinion, 129 expressing themselves as favoring the view advanced by the Bulldogs while 139 favored the Iowa State team's point of view.

J. K. Kent, C. J. Owens and J. Ralph Wilson represented Iowa State with O. H. Chatterton, Dillon Hunter and Melissa Carroll advancing the affirmative cause for Drake.

The Eastern Trip

Sampson, Peterson, Edwards

On March 20, R. V. Peterson, Ford K. Edwards and DeWitt Sampson, accompanied by Assistant Professor Russell Wagner, left Ames for a debate tour in the East which took them as far as New York City.

For several weeks prior to their departure, members of the team were busy working up briefs on the questions to be used during the trip. Three questions were used, namely, the Supreme court, Foreign Policy and Parliamentary system of government questions, all of which have been questions of intercollegiate contests on the campus.

The first contest on the team's itinerary was with the University of Pittsburgh on the Foreign Policy question. Following the debate, Iowa State alumni held an informal banquet in honor of the team.

The team next journeyed to New York City to meet New York University on the Supreme Court question. The next team to be encountered was the one representing Swarthmore College and the Foreign Policy question was again used.

From Swarthmore the men traveled to Cornell University for a three-school debate on the Supreme Court question. Cornell University, Western Reserve and Iowa State were each represented with two men each, one member from each school debating on each side of the question. The audience voted about two to one in favor of the negative.

At Cornell, the quartet boarded the train for East Lansing, Mich., and the next night met Michigan Aggie trio on the Parliamentary System of Government question. The contest was a part of the Purdue-Michigan Aggie-Iowa State triangular debate and Iowa State won the expert-judge decision.

The final contest of the trip was with Western State Normal at Kalamazoo, Mich., on the Supreme Court question. Throughout the trip the Iowa State men stood affirmatively on the Foreign Policy and Supreme Court questions and negatively on the Parliamentary System of Government proposal. They returned to Ames March 29. Assistant Professor Wagner expressed himself as well pleased with the trip and it is planned to take another one of a similar nature next year.

Ames-Purdue

Kent, Kennedy, McKee

The only expert-judge decision debate held on the campus during the year was with Purdue University, and was the final contest of the annual Michigan Agricultural College-Purdue-Iowa State triangular affair.

The contest was of importance, due to the fact that both Iowa State and Purdue had previously obtained decisions over the Michigan Aggie teams. It was hotly contested from start to finish but the Boiler-makers proved too much for the local men and the decision, made by W. A. Brindley, dean of Fort Dodge junior college, went to the visitors.

J. K. Kent, Everett McKee and J. M. Kennedy advanced the cause of a parliamentary system of government for the United States while the Purdue team condemned the idea.

Ames-Denver

Peterson, Wilson, Owens

Whether or not Congress should be empowered to override decisions of the Supreme Court, by a two-thirds majority, when the latter body declares an act of the former unconstitutional, was the question for the final intercollegiate contest which was held Monday, April 6 with Denver University.

The Oxford plan of debate was followed throughout with split teams, audience decision and open forum discussion.

The affirmative view of the question was advanced by C. J. Owens and L. O. Peterson of Iowa State, assisted by Jerome Hellerstein of Denver University. J. Ralph Wilson, the remaining Iowa State man, joined hands with the two negative speakers.

The count of the ballots, made following the contest, showed eleven people shifting their opinion from the negative to the affirmative, with only four changing from affirmative to negative.

JUDGING TEAMS

*'Tis with our judgments as our watches, none
Go just alike, yet each believes his own.*

—POPE

International Livestock Judging Team

Margerum, Serrell, White, Parkin
Shearer (Coach), Kildee (Head of A. H. Department)
Kerr, Grassie, Denner

The twenty-fifth anniversary of the Chicago International Live Stock Show brought out a record entry of judging teams. Twenty-four teams answered roll-call Saturday morning, November 29. They came from widely separated institutions, Alberta and Ontario, in Canada, and the states of Massachusetts, Virginia, Texas, and Wyoming marking the outer boundaries.

The Iowa State team was composed of J. F. Grassie, M. H. Kerr, G. G. Parkin, E. W. Serrell, and Stanley White, with S. G. Denner and E. B. Margerum as

alternates. This team placed sixth on total score, being just thirty points behind Missouri, the second team. Nebraska University won first place. The Iowa State team was second in beef-cattle judging and fourth in horse judging. They also won the beautiful trophy cup put up by the Percheron Society of America, for the best team in judging Percheron horses.

This team also took part in a preliminary contest at the Kansas City Royal Live Stock Show, winning tenth place, twelve teams competing.

Dairy Cattle Judging Team

Kallenberg, Torgrim, Mighell
Ely (Coach), Mark

On September 9, five men, who had ranked highest in the judging work in A. H. 300 in the spring, reported at the dairy farm for tryouts for the team. These men were R. T. Nelson, George Mark, Willard Torgrim, R. L. Mighell, and R. C. Kallenberg. After the try-outs at the dairy farm and at various dairy farms surrounding the city, the team was selected on September 15. It consisted of Torgrim, Mark, Mighell, and Kallenberg.

On September 19 the team proceeded to Waterloo for work on the dairy farms near there in preparation for the judging contest at the Dairy Cattle Congress, which was held on September 22. Mighell was the alternate in this contest. The standings of the teams were as follows: Wisconsin, Ohio, Illinois, Nebraska, Minnesota, Texas, Iowa State, Kansas, North Dakota,

Missouri, Purdue, South Dakota. Among the individuals, Mark was third in the contest.

The National Intercollegiate judging contest was held at Milwaukee in connection with the National Dairy Exposition on September 27. Mighell was also the alternate in this contest. The standings of the teams in this contest were as follows: Michigan, Wisconsin, Nebraska, Oklahoma, Missouri, Ontario, California, Ohio, Kansas, Texas, Purdue, West Virginia, Oregon, Iowa State, Minnesota, South Dakota, New York, Tennessee, Virginia, New Hampshire. The last four teams entered in the contest were not announced. Of the twenty-four teams entered, the Iowa State team ranked thirteenth in Ayrshires, twentieth in Guernseys, third in Holsteins, and fifteenth in Jerseys. The ranking for the team over all breeds in the contest was fourteenth.

Poultry Judging Team

Niles, Shore, Cobb, Springer
Bittenbender (Coach), Mila

The contest is divided into three divisions, namely, exhibition judging, production judging, and written examination. Sweepstakes is the total score of the three divisions.

The Iowa State team won a permanent silver cup for first exhibition judging team. Each man on the team won a gold medal for the team writing the best examination covering the American Standard of Per-

fection. This takes the place of the regular written reasons, which are usually a part of the contest.

Springer won a gold medal for the highest individual honors and another medal for being the best exhibition judge.

The Rhode Island Red Club of America offered a breed cup for the best judging of Rhode Island Reds, which was also won by Iowa State.

Dairy Products Judging Team

Moore, Stephens, Storvick, Griese

The following Senior Dairy students were selected to represent Iowa State in the Dairy Products judging contest, which was carried on in connection with the National Dairy Show, which was held at Milwaukee, Wisconsin: Roy O. Storvick, Werner W. Griese, and Fern T. Moore, with C. Y. Stephens as alternate.

The teams participating in the contest ranked as follows: Iowa State College, Pennsylvania State College, University of California, Ohio State University, Oregon Agricultural College, Purdue University, Massachusetts Agricultural College, University of West Virginia, University of Nebraska, and the University of Wisconsin.

The Ames team won the greatest victory ever won

by any college, winning the Dairy Show cup for having the highest ranking team; the J. G. Cherry cup for having the highest ranking team in butter judging, and the National Milk Producers' Federation cup for having the highest ranking man in milk judging.

Griese won a gold medal for ranking highest of all contestants, another gold medal for ranking highest in milk judging, and a bronze medal for being third in butter judging.

Storvick received a gold medal for ranking highest in butter judging and a silver medal for placing second on all products.

Moore received a silver medal for ranking second in butter judging.

Shearer (Coach), Brown, White, Parkin, Grassie, Margerum, Denner

Swine Judging Team

The sixth annual Swine Judging Contest was held in 1924 at Peoria, in connection with the National Swine Show.

Iowa State was represented by the following men: Denner, Grassie, Margerum, and White, with Brown as alternate.

Six teams from leading swine producing states competed and finished in the following order: Kentucky, Nebraska, Iowa State, Ohio, and Illinois.

Iowa State now has a record of two firsts, three thirds, and one fourth in this contest.

Grain Judging Team

The Iowa State Grain Judging team placed second at the International Live Stock and Grain Show. Eight teams competed, ranking as follows: Kansas, Iowa State, Montana, North Carolina, West Virginia, Michigan, Ohio, Oklahoma.

On individual scores, Webster placed third, Mendell, fourteenth, and Watkins, sixteenth.

Dorchester (Coach), Fleke, Mendell, Webster, Watkins

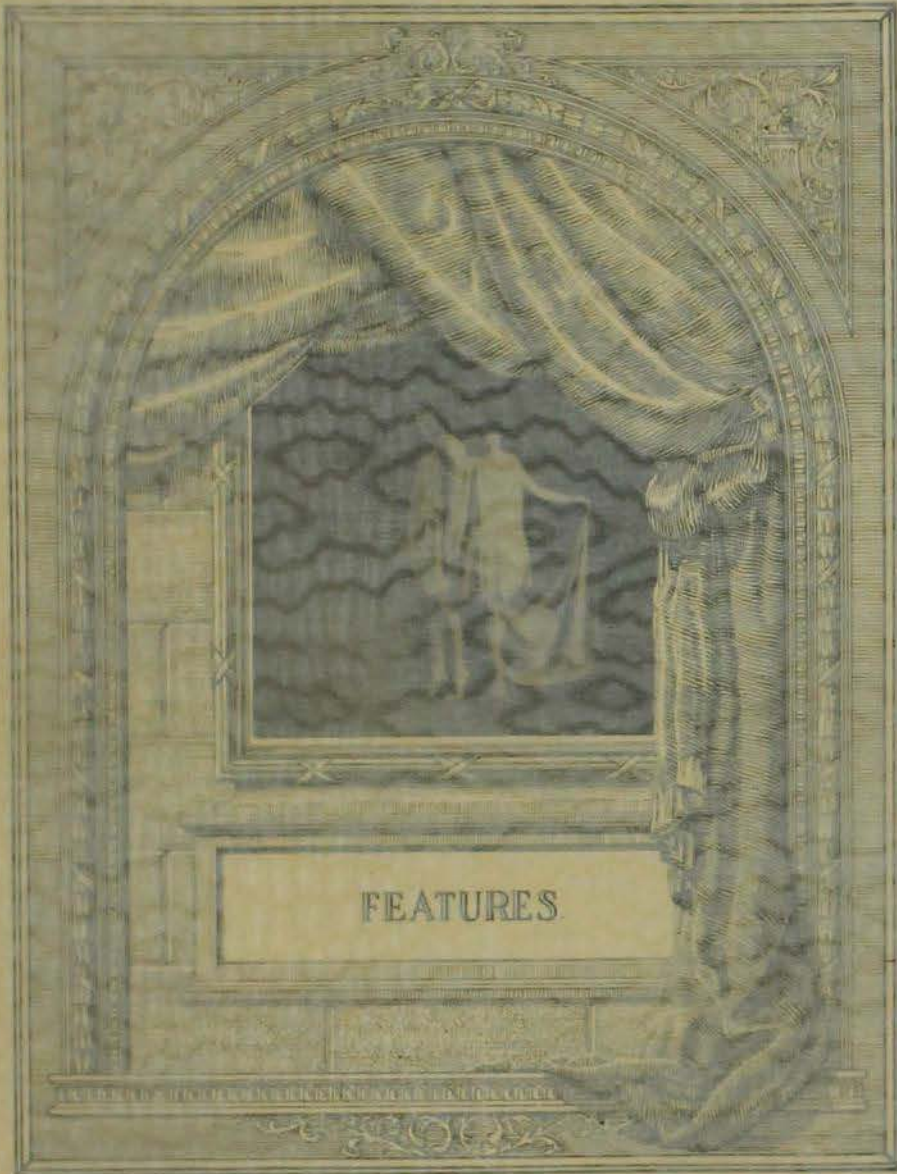

Donai, Rogers, Larson, Smith (Coach)

Horticulture Judging Team

The Iowa State Horticulture judging team met Missouri at Waterloo during the Midwest Horticultural Exposition. The members of the team were Kroeger, Donai, and Larson, with Rogers as alternate.

Out of a possible score of 1,500 points, the Missouri team scored 1253.5 points against 1147 for Iowa State, giving Missouri their third successive victory over Iowa State.

Mr. Hubert Garrecht,
Feature Editor, LIFE MAG.,
ANN ARBOR, MICH.

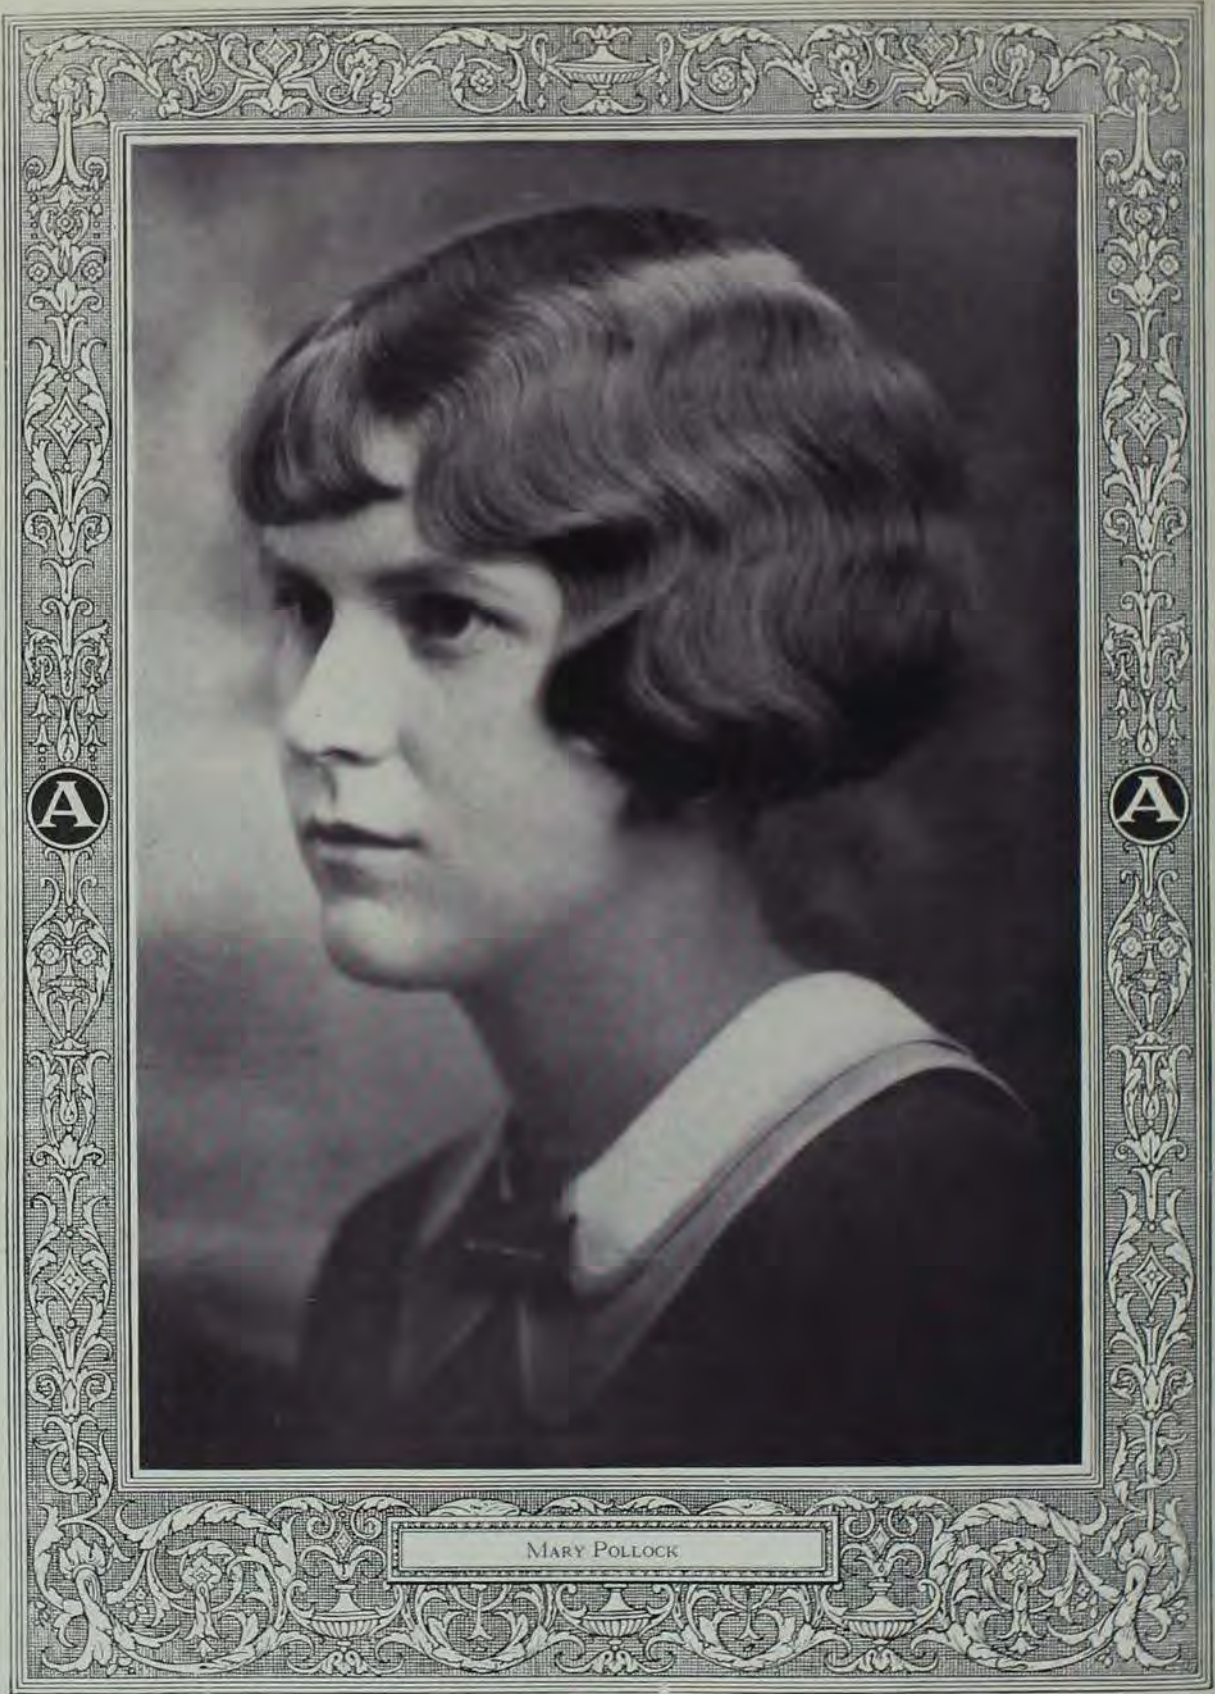

DEAR Mr. Garrecht:

I have just returned from abroad with
a couple for the delay. I am sending the pictures off
to you tonight, all marked as you requested. The first
five photos are dated as follows, according to your
numbers: 19, 24, 19, 27, 20, 31, 7, 20, and 20.

Very truly yours,

CDG:MAS.

The Interfraternity Council, which is made up of two members from each national fraternity on the campus, together with Dean R. E. Buchanan, of the Graduate College, and J. E. Foster, Dean of Men, is the governing body of the fraternities in the college. When the organization was founded, it was known as the Pan-Hellenic Council and was composed of representatives of the few fraternities then on the campus. The local body is a member of the National Undergraduate Interfraternity Council, which holds annual meetings where local council problems are taken and discussed. At the monthly meetings held at Alumni Hall, matters pertaining to fraternities and to the relation of fraternities to the school are discussed and acted upon; or recommendations are made when necessary to bring beneficial results to the fraternities on the campus.

WEeping WILLOWS

*Willow, in thy breezy moon,
I can hear a deeper tone;
Through thy leaves come whispering low,
Faint sweet sounds of long ago—
Willow, sighing willow!* —FELICIA D. HEMANS.

SORORITIES

*The thread of our life would be dark, Heaven knows,
If it were not with friendship and love intertwined.*

—MOORE.

SOUTH ENTRANCE

*Although I enter not,
Yet round about the spot,
Ofttimes I hover;
And near the sacred gate
With longing eyes I wait,
Expectant of her.*

—THACKERAY.

DORMITORIES

*Is it not better at an early hour
In its calm cell to rest the weary head,
While birds are singing, and while blooms the bower,
Than sit the fire out and go started to bed?*

—THOS. MOORE.

GLOWING FIREPLACES—WEST HALL

OVERSTUFFED DAVENPORTS—EAST HALL

MORE

K.P. VS. WAITERS

SERENADE SUPREME

DORMITORY FROST BITES

SUNDAY HANDOUT

RETURNED FROM THE WOODS

NORTH HALL DINING ROOM

SOUTH HALL RECEPTION ROOM

We had an extra page for the dormitory girls, so look what we have. The interiors at the top of the page may appear lifeless, but just one glance will recall pleasant memories for many a co-ed.

Inviting over-stuffed davenport before glowing fireplaces add romance for the co-ed who lives at the halls. The Lodge girls do not gaze on sparkling logs, but davenport around the corners will not be forgotten.

The waiter's morning rehearsal, "Coffee or Cocoa," at lunch, "Milk or Tea," and dinner, "Do you wish coffee?" echo through the dining halls.

"Dormitory frostbites," "preps resort to nature for stimulant. Whether food for a midnight spread or a ladder is reached from the window is a question in our minds." "More."

Bacon and eggs seasoned with the smell of the woods satisfy the appetites of hungry co-eds on Sunday morning.

"Sunday Handout," aids in bearing up the co-ed until 7:15 Monday morning.

"Serenade supreme," something different in the order of serenades.

OLD AG HALL THROUGH CAMPANILE ARCHES

*We're charmed with distant view of happiness,
But near approaches, make the prospect less.*

—YALDEN.

THE BOMB OF 1925

Morse, Cozy, Conrad, Hiner, Peterson, Miquelon, Rous, Garretson, Hoffman, Brown, Calhoun Hill, Romig, Liljedahl, Noble, Hosler, Wills, Lyle, Huehn, Holcomb, Knight

Over fifteen thousand people attended the Drake game and many were unable to find standing room. Ames has a good schedule of home games for next year and many returning alumni and visitors will help to fill the new stadium for each game.

Chatterton, Dickinson, Bierwerth, Drennan, Bower, Cunningham, Child, Evans, Dorr, Doak, Dorsey Crawford, Dale, Carrier, Carmichael, Davidson, Benton, Bunnell, Downs, Blomge, Auspurger, Ericson

THE BOMB OF 1925

Tolstoy, Wiles, Skeels, Henningos, Whitland, Schrag, Wills, Walter, Cation, Wherry, Smith, Kildes, Sprague, Herdman, Weigle, Williamson, Sanders, Wozden, Scholz, Sholin, Sparks

The kick-off at the start of the Drake-Ames game. This was the big game of the year. After a slump the week before with Grinnell the Cyclones were determined to win. They did win, 10-0, and thus ruined Drake's cinch for Valley championship.

Eyans, Unz, Greenwald, Eder, Sharlack, Varenwald, Moss, Meriele, Perkins, Garvin, Sheldorf, Macklin, McMurchie, Parsons, Fritchel, Adams, Schindel, Cowan, Gibson

HONORARY

*I strife with none; for none was worth my strife,
Nature I loved, and next to nature, Art;
I warmed both hands before the fire of life,
It sinks, and I am ready to depart.* —MOORE.

The A. A. Fraternity was founded early in the existence of Iowa State College for the purpose of promoting and raising the standards of athletics at this school. Of late the Fraternity has been very active in the development of athletics. With over forty members at present, the organization is as strong and active as it has been any time during its existence. All men who have won the Major honor "A" are eligible for membership. The purpose of the organization is to support athletics in every possible way, to urge all able and eligible men to take part in intercollegiate contests, to encourage athletic men to choose Ames as their school, and to promote athletics at Iowa State College in any sportsmanlike manner.

The Women's "A" Fraternity was founded at Iowa State College in 1915, in order to further women's athletics and gain better sportsmanship among the women on this campus. It is our purpose to cooperate in every possible way with the Physical Education department, to be of assistance to the Women's Athletic Association and to stand for good sportsmanship in all things. Any W. A. A. member who has won one thousand points is eligible for membership.

Wilson Chapter of Alpha Zeta Fraternity was installed at Iowa State College in November, 1905, by W. J. Kennedy and W. H. Stevenson, who were members of the chapter at Ohio, and who saw the need for a chapter at Ames. The first students were initiated on November 27, 1905. The chapter was named in honor of the Hon. James C. Wilson (Tama Jim), former Secretary of Agriculture, who was later made an honorary member. Undergraduates are chosen from among those whose grades place them in the upper two-fifths of the Senior College. Personality, activities, and interest in agriculture are taken into consideration in selecting members.

Gamma Sigma Delta is the Honorary Society of Agriculture. The organization was founded in 1905 at the Ohio State University. The Iowa State College Chapter was installed in 1907 and has taken a leading part in the affairs of the National organization since that time.

The purpose of Gamma Sigma Delta is to encourage high standards of scholarship in all branches of Agricultural Science and Education. Students are elected to membership from the graduating and post-graduate classes who have shown exceptional ability during their undergraduate or graduate work. Faculty members are also elected to membership, who have rendered signal service to the cause of Agricultural development.

Each year the society awards a trophy to the Freshman student in Agriculture ranking highest in scholarship during his first three quarters' work.

Jack O'Lantern was founded at Iowa State College in 1908. The purpose of the organization is to promote higher scholarship, create a vital interest in college activities, and to develop a democratic spirit on the campus of Iowa State. The members are chosen in the spring of the Sophomore year and the requirements are based on scholarship, activities, high ideals, and learning applied to living.

Phi Kappa Phi was established to provide for an honor society dedicated to the unity and democracy of education open to honor students of all departments of American Universities and colleges. Its prime object is to emphasize scholarship, the character in the thought of college students, to hold fast to the original purpose for which institutions of learning were founded, and to stimulate mental achievement by the prize of membership. Members are chosen from the upper one-fifth of the graduating class and from the graduate school upon departmental recommendations.

Phi Lambda Upsilon, honorary chemical society, was founded at the University of Illinois by a group of senior students in chemistry. The purpose of the society is the promotion of high scholarship and original investigation in all branches of pure and applied chemistry. At present there are nineteen active chapters with a total membership of approximately three thousand. The local chapter was installed in 1912 with a membership of eight. The election of undergraduate members is restricted to members of the junior and senior classes majoring in chemistry or chemical engineering. Members are also elected from the faculty and graduate college. The basis of election is scholarship.

Sigma Delta Chi was founded at De Pauw University in 1909 by a group of nine men interested in promoting the highest professional interest in journalism. The organization has spread rapidly among colleges with strong journalism departments and there are 38 active chapters at present. The Iowa State chapter was installed in 1914 and is one of the strongest chapters in the fraternity, having won the national efficiency trophy three times in succession, 1922, 1923 and 1924. The fraternity is strictly professional in character and picks its members from the Seniors, Juniors and third-quarter Sophomores. Candidates must have given evidence of superior intellectual ability in journalism and must have a definite intention of following that profession.

The first chapter of Scabbard and Blade was founded in 1904 at the University of Wisconsin. At present there are 59 active chapters in American colleges and universities. Company "A", Second Regiment, was installed at Iowa State in 1915. The primary purpose of Scabbard and Blade is to raise the standards of military training in the colleges and universities, to encourage and foster the essential qualities of good and efficient officers, and to promote intimacy and good fellowship among the cadet officers.

Order of the Goslings

Honorary Journalistic Fraternity

The purpose of the Order of the Goslings is to gather scandal for the wise old bird, The Gander. The hatchlings seek and peer for every bit of news that can be used. The editor of the Green Gander is the keeper of the Hock. The Order was established on this campus in 1921.

This fraternity was organized October 6, 1898, at the New England Conservatory of Music by Ossian E. Mills and thirteen associates. Its organization at first was that of a club, but in 1900 it expanded into a regular college fraternity in musical schools of approved excellence.

In 1920 eight outstanding members of the Iowa State College band formed the Beta Mu organization, and in 1922 Beta Mu was granted a chapter in Sinfonia. The purpose of the fraternity is to promote and stimulate interest in musical activities which will prove beneficial to the college in general.

The members are chosen from the various musical organizations on the campus.

National Collegiate Players was formed by the union of the Associated University Players and Pi Epsilon Delta, two national dramatic organizations. The local dramatic club, The Masqued Players, was the first chapter to be installed in the resulting union. The purposes of the National Collegiate Players are to affiliate closely the college groups which are working for the betterment of the drama in their own institutions and so in America; to stand as a national collegiate unit in all nation-wide dramatic movements; to raise dramatic taste and standards, and to further the dramatic activity in the community. Members are chosen from both the cast and producing staff of the campus theatricals. Experience and excellence of the work done are considered in selecting members.

Sigma Upsilon grew out of a federation of literary societies in various colleges in the southern states. Four clubs, Sopherim of University of the South, Calumet of Vanderbilt University, Osiris of Randolph, Macon College and Senior Round Table of University of Georgia, combined to form Sigma Upsilon in 1906. There are now thirty-one active chapters. The organization conducts a national short story contest each year. Its publication is the Sigma Upsilon News Letter.

Kappa Lambda Alpha chapter was formed in March, 1924, by a group of students and faculty who were publishing the "Ames Narratives." The group contained men whose stories were published and part of the English instructing staff. The local chapter was installed into Sigma Upsilon in June, 1924. Members are chosen from those who have done excellent work in English and who show marked ability in story writing. It is limited to an active membership of twelve. Its purpose is to encourage English work and especially the writing of short stories about rural life, and to publish from time to time in book form, narratives of the Middle West.

Local Mortar Board of Iowa State College was founded November 1, 1914. Its purpose was to further democracy and good fellowship among the women of the college and to accomplish some permanent good for the college each year.

On February 7, 1925, the local chapter of Mortar Board became the twenty-ninth chapter of the national organization. It is an honorary society for senior women in recognition of leadership, scholarship and campus service. Members are chosen in the spring from the junior class. Iowa State College is the first agricultural college to have been granted a chapter of National Mortar Board.

On October 21, 1868, the first class of our college was called to order. A few weeks later the Philomathean Literary Society was brought into existence. It was thus the first formed at Iowa State, and its history is closely entwined with that of our college. For two years the society met in the Chapel in Old Main; then in the freshman room for many years, and then in Professor Stanton's recitation room. For three years the society met in the old dining room in Margaret Hall; then in Engineering Hall until the completion of the new Central Building. Originally the society was a mixed society, but now is for men only. It is still adhering by its original purposes, namely: by the use of essays, orations, debates and extemporaneous speeches, to give its members experience in speaking effectively in public.

The Bachelor Debating Society was organized in 1870, two years after Iowa State was founded. Although it is essentially a literary society in character, the Bachelors have placed more emphasis in their programs on debating, which is also varied with extemporaneous speaking and parliamentary drill. Many Bachelors received their first training in this society, to later gain a berth on the varsity squad. Its membership is open to all student men who desire experience and training in expressing themselves clearly and forcibly before any sized audience, whether one or a hundred.

The Crescent Literary Society was organized in 1870 by a group of fourteen men, among whom were Dr. Cessna, former Dean Stanton, and LaVerne Noyes. At first only men were eligible to membership, but women were soon included, for the society realized that literary training was as essential for women as for men. The purpose of the organization is to provide opportunities for developing the students in debating, in extemporaneous speaking, and in parliamentary abilities. Since membership is limited to sixty students, members are chosen from those who show interest and ability in literary work.

In the fall of 1906, with the aid of Miss McKinley, the Quill Literary Society was planned and organized as a sister society of the Philomatheans. It was composed of eight members and has gradually grown until at present there are thirty-one enrolled as active members. The purpose of the society is to improve its members in literary work, give good training in oral expression and to encourage good reading.

The Delphian Literary Society was founded in 1908 with a charter membership of eighteen. Its purpose is mutual advancement in debate, composition, oratory and parliamentary usages, and the promotion of good fellowship. The membership is limited to thirty-five, no more than twenty members of one sex being considered. Undergraduates not members of other literary societies with an average scholastic standing of 82.5 per cent are eligible to membership. The Delphian Literary Society attempts to fill the needs of the students that reside downtown, but also includes in its membership students who live in the Fourth Ward.

The Cardinal Guild is the student-governing body of the college. During the present school year the Guild has been reorganized and now is more representative of the entire student body than ever before. The Guild has a very responsible part in college life inasmuch as it passes rules governing the conduct of student affairs, takes charge of Homecoming, receives nominations and takes charge of all-college elections and many other such duties.

It is an honor to be a member of the Cardinal Guild and each member has great responsibility placed upon him.

The Women's Guild is the women's governing body of Iowa State. The primary purpose of the Guild is to cooperate with the faculty in solving problems of government for women students. Another purpose of the Guild is to support college activities, especially those in which the women are interested. The Guild Board is an open forum for the women student body when problems are discussed. Every woman in college has the opportunity of becoming a member upon paying nominal dues. The Women's Guild is a member of the National College Women's Student Governing Association.

The Agricultural Council is the governing body of the agricultural club. It is composed of twenty-six members, consisting of a junior and senior representative from each departmental club in the agricultural division. The object of the club is to promote a closer bond of fellowship between the students and faculty of the different departments. Another object of the club is to promote and support functions of an agricultural nature, such as judging teams, grain and live stock shows, fair celebrations and receptions. Any worthy student in the agricultural division is eligible to membership upon payment of club dues.

Through the medium of the Engineering Council the desires and suggestions of the twelve hundred Ames engineers on the campus are placed in definite form and acted upon. This council is responsible for the successful staging of the Engineer's Campfire and the Engineer's ball. Before the inauguration of Veishea displaced the divisional celebrations, the council was the prime mover in the St. Patrick's day celebration each March 17th, and since the establishment of Veishea, the council is responsible for the part the engineers play in making this affair a success. Another important activity that the council has taken up this past year has been the securing of engineering speakers of national importance to address Ames engineers.

In 1920 ten engineering colleges sent representatives to Ames to consider the matter of a national organization of student engineering governing bodies. Out of this meeting grew the Association of Collegiate Engineers. Although the national organization takes no direct part in shaping the policy of the council on the Iowa State campus, two representatives are sent from Ames to the national meeting each year to discuss problems common to student engineering councils. The local organization is known, in this national group, as the Iowa State Chapter.

R. D. HAYS	Treasurer

The Veterinary Medical Society of Iowa State College was founded by the veterinary students of the class of 1896, in the spring of that year. Originally the students of the veterinary division were required to write a thesis before they were granted a degree of Doctor of Veterinary Medicine. A provision was made whereby active membership in this society could be substituted for a thesis. All matriculated students of the Division of Veterinary Medicine are eligible to become active members. In the past the faculty compelled the students to become active members. At present the affairs of the society are entirely within the hands of the students for the purpose of developing initiative and experience in organization work. There are now eighty-three active members. The purpose of the society is to promote fellowship and intellect and provide an organization for the promotion of student activities.

The Block and Bridle Club is a national organization of animal husbandry students. It was founded at Chicago in 1919 by four judging teams—Iowa, Missouri, Kansas, and Nebraska. The membership has grown until at present there are nine chapters, located at the agricultural colleges of West Virginia, Oklahoma, Kansas, Missouri, Kentucky, Iowa, Minnesota and Nebraska.

The purpose of the organization is to promote a high scholastic standard among students of animal husbandry, to promote more interest in intercollegiate judging contests, to bring about a closer relationship among the men pursuing some phase of animal husbandry, and to encourage students to take up animal husbandry.

Members are chosen from animal husbandry students who have completed one and one-half years' work and who show an active interest in live stock work.

The Agronomy Club was organized to promote a general interest in farm crops and soils among the students and faculty of the Farm Crops and Soils Department. Meetings are held two times a month when problems of importance from a crops and soils standpoint are discussed. All students, graduate students, and faculty members of the Farm Crops and Soils Department are eligible for membership. The officers are elected two times a year from among the active members. The annual Students' Corn and Small Grain Show is sponsored by the organization.

The Forestry Club was founded in the spring of 1912. It is for the purpose of bringing the students and professors into closer relationship with one another, being both technical and social in its programs. Every student enrolled in the Forestry Department is eligible for membership. It was in the fall of 1914 that the official "stag-shirt" bearing the Forester's emblem, the pine tree, was adopted. The Foresters were the first on the campus to take up this custom. The Ames Forestry Club is a member and also the President club for this year of the Intercollegiate Association of Forestry Clubs. This is a national organization composed of the leading forestry schools of the country, being founded in 1914 and having sixteen chapters. The annual convention was held here in March. "The Ames Forester" is the annual publication. It is a magazine of semi-technical nature, dealing with the activities of the club and its alumni.

Rural Economics Club

OFFICERS

The Vistonian Club was organized at Iowa State in 1918 by students and faculty of the department of Landscape Architecture. The purpose of this society is to promote the general welfare of those pursuing the study of Landscape Architecture, to bring students and faculty into closer relationship, and to stimulate interest among its members and others in the profession of Landscape Architecture. In addition to representing the department in campus activities, the club brings to Ames practitioners in Landscape Architecture of national eminence. The Vistonian News, bi-monthly publication of the club, endeavors to keep in touch with alumni and similar groups in other schools throughout the country.

The Horticultural Club was organized to promote interest in horticultural affairs among the students of Iowa State College. Any student or member of the staff of the institution may become an active member of this club upon the payment of club dues. Meetings are held regularly on the first and third Thursdays of each month of the school year.

The Horticultural Club was the first group of students to separate from the Ag Club, which separation occurred in 1900, and from that date with the exception of the period, 1909 to 1912, has maintained a continuous organization. As it now exists, it does not represent all of the students in the Department of Horticulture and Forestry, but only those who are majoring in floriculture, vegetable crops and pomology.

John Rosenberger, Lamen Powell, Morris, Holsinger, Lehman, Schoonover, Shippy, Danson, Fanner, Jamison, Fox, Hudson, Darnell, Simons, Walker, Healy, Spencer, Kung, Tung, Holsinger, Reeves, Carpenter, Rickey, Benson, Smith, Volz, Ward, Schilleter, Haber, Hoff, Nichols, Erwin

Vocational Education Club

Women's Division

OFFICERS

GENEVIEVE WIDNER
 AGNES CLAIN
 ANNA PAVLOVSKY

President
Vice President
Secretary-Treasurer

The Women's Division of the Vocational Education Club was organized by prospective teachers to develop in themselves an appreciation of the responsibilities of teachers as leaders of future citizens.

Any woman, a student of Vocational Education, may become a member by showing interest in the teaching profession and a willingness to take part in the activities of the organization.

The meetings are held twice every month. One of these meetings is a joint session with the Men's Division of the Vocational Education Club. This year the club has a membership of one hundred ninety.

The Men's Division of the Vocational Education Club was organized in 1914. Its purpose is to stimulate interest in the teaching profession and to emphasize what is expected of those that enter this vocation. The membership numbers about one hundred and is limited to students taking vocational education. Honorary members are chosen from the graduates in Agricultural Education and such others as the club sees fit to elect.

Once a month the club meets jointly with the Women's Division and problems common to the teaching profession are brought up and discussed. Besides keeping up the work in regular meetings the men's club sponsors the Junior High School Ag Clubs throughout the state and keeps in contact with them by sending out information in the form of bulletins and publicity issued by the Journalism Department specially for high school students.

First-Year Herdsmen

The Herdsmen's course was started at Iowa State College in 1918 by Dean Curtiss, Prof. H. H. Kildee, Professor Pew and Professor Thornburg. The course consists of two consecutive winter quarters of the regular college year and is intended for men with live stock inclinations rather than for general farming.

The Ames Herdsmen's Club was organized in 1919 for the purpose of furthering the interests of the members in an educational and social way. The membership consists of the graduates and students enrolled in the regular herdsmen's course. It also includes members of the Animal Husbandry faculty, college herdsmen, shepherd and groom as honorary members.

The average enrollment of the course is about seventy-five. Almost 100 per cent of these are members of the club and attend the regular Thursday night meetings at which there is always a good program, members of the faculty and live stock men from various parts of the country being secured as speakers.

Fister, McFarland, Brandt, Qande, Young, Benson, Mallams, Borge, Niekler, Holbert, Braers, Montgomery, Winklemann, Ely, Swineheart, Sheldon, Albricht, Bryson, Johnson, Metcalf, Schuckmann, Carver, Smalls, Rice, Thussen, Tellman, Thomas, Swedberg, Smith, Tyrrell, Stralter, Wolfe, Nelson

American Society of Civil Engineers

OFFICERS

HOWARD R. OLSON	President
EDWARD H. OHLSEN	Vice President
ESTILLE A. VAUBEL	Secretary
PETER K. MILLER	Treasurer

The Civil Engineering Society was organized in the fall of 1910, having for its object the rejuvenation of the old junior and senior seminars which were gradually losing their popularity and value. It was felt that more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since the society has been organized it has instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded. The Civils were the first to adopt a distinctive shirt and insignia, worn only by juniors and seniors as a recognition mark of the department. This custom has been followed for fourteen years and in the past few years it has spread to other departments of the college.

American Society of Mechanical Engineers

OFFICERS

C. C. LUCHTERHAND	Chairman

The Chemical Engineering Society was founded at Iowa State College in the fall of 1918 by a group of seniors. The purpose of the organization is to promote loyalty, co-operation and fellowship among the Chemical Engineering students. The meetings of the society are held twice a month, at which times programs are presented by the students, or a lecture given by some outside specialist. These meetings serve to further acquaintance between the different classes and enable the planning of departmental activities. All students of Chemical Engineering are eligible to membership.

JOHN TELFER	<i>President</i>	W. M. HURST
C. F. MILLER	<i>Vice President</i>	BRUCE RUSSELL
M. J. HUBBARD	<i>Secretary-Treasurer</i>	PAUL V. MORRISSEY

The American Society of Agricultural Engineers is a national association of engineers who are interested primarily in the problems of engineering as they are applied to agriculture. Its purpose is to encourage research and development in the fields of farm machinery and power, drainage and irrigation, and farm buildings and equipment. The society was organized at the University of Wisconsin in 1907. The founders were a group of college instructors who were teaching farm mechanics and allied subjects in agricultural colleges. There were 17 charter members, Professor Davidson of Iowa State being the first president of the society and prominently identified with all its early activities and development. Conventions are held annually, at which times subjects of interest to the profession are discussed. The society maintains student branches in schools where professional instruction in agricultural engineering is offered. A monthly magazine, "Agricultural Engineering," has been published by the society since 1920.

M. H. SCHULTZ	Vice President
G. G. THOMAS	Secretary
ALBERT BURKETT	Treasurer

A. I. E. E. is a nationwide professional society for Electrical Engineers. It is composed of engineers who have had varied experience and training and who hold ranks accordingly. These are Fellow, Member, Associate and Student Member. The last one only is open to students and then to those taking the regular four-year course. Enrollment in the national organization is the only entrance requirement. The student or college branch hold technical meetings that will be of general interest.

Trades and Industries Society

OFFICERS

MEMBERS IN FACULTY

PROF. ADOLPH SUANE	PROF. G. L. MITCHELL	VIRGIL GUNDER
L. P. ARDUSER	L. E. PUTH	WAL. E. KOKULFF
	PROF. W. T. ELDER	

The purpose of the society is to promote a higher scholastic standard and a closer relationship between the faculty and students. Social entertainments and mixers are given to encourage a better feeling toward each other and Iowa State College. This society is guided by the belief that the social side of life is one of the most important factors of a higher education. A spirit of loyalty and co-operation is developed by the society in its meetings and the new members are made to feel at home. New students are encouraged to bring their troubles to the society and are helped to get the proper stride of college life.

American Ceramic Society

OFFICERS

ROY C. MEENER	President
J. C. PEARSON	Vice President
HOARCE A. BRUECHERT	Secretary
EUGENE H. WHITNEY	Treasurer

The organization was founded during a convention of the National Brick Manufacturers' Association in 1898. It was founded for the purpose of studying ceramics from a scientific standpoint, and to increase a student's technical ability along ceramic lines. Ceramic Engineering is coming well up to the front, as was shown by the marked increase in the enrollment this year.

The Young Men's Christian Association was organized in 1844 by George Williams and a small number of clerks in a clothing store in London. The first national convention of the association in this country was held in 1854.

Records show that there were voluntary religious organizations in colleges as far back as 1706. In 1858 the University of Virginia organized the first student Y. M. C. A. During the next twenty years close to seventy colleges organized Y. M. C. A.'s without connection with each other or with the national organization. These student associations were united and made a part of the International Young Men's Christian Association in 1877. The local association was organized in 1890.

The primary purpose of the Iowa State College Y. M. C. A. is to help develop Christian ideals and practices in the lives of men and the college as a whole. Its membership is limited to students and faculty.

Kappa Phi, National organization for Methodist girls in State Universities and colleges, grew out of the need of the church to reach student women with the aim of promoting fellowship and leadership in the church. The National organization at present includes fifteen state schools. This club became Gamma chapter of Kappa Phi in 1916. Mr. L. E. Bradford, sponsor at that time, is responsible in great measure for its success.

An evidence of the progress of Kappa Phi club is its national publication, "The Candle Beam."

The Baptist Student Group is composed of all Baptist Students in college. Special Sunday school classes and a special social program are planned by the church for the students. The pastor and the church cooperate to help each student find a church home here in Ames. The church program includes a social hour and a Baptist Young Peoples' Union meeting each Sunday evening in addition to the regular Sunday services. The church makes every effort to train the student along religious lines to meet conditions as he will find them after leaving college.

The Kemper Guild is the local chapter of the National Student Council, which is under the Department of Religious Education of the Episcopal Church. Membership is open to all college and university students and faculty members affiliated with the church. Since the Guild's founding in 1918 by the Rev. LeRoy Burroughs, Dr. Pammel, Miss Henderson, Miss Freegard, Miss Russell, and a small group of students, it has enjoyed a continual and flourishing growth. The purpose of the Guild is to bring the students into closer relations with each other and the church.

In 1902 a group of twenty six-footers, all members of national fraternities, organized a social fraternity and called it the T. L. B. Fraternity. It was founded for the purpose of creating better fellowship between members of national fraternities on the campus and is the only organization of its kind which has been permanently fixed on the Iowa State Campus. The only requirements for membership are that the candidate be six feet tall and that he be active and well liked on the campus.

THE NATIONAL ASSOCIATION OF COSMOPOLITAN CLUBS

Some eighteen years ago a small group of men and women in one of our great western universities formed a Cosmopolitan Club, for the purpose of organizing foreign and American students in our universities and colleges into an association for the purpose of a better understanding of each other's problems. This Cosmopolitan Association adopted the motto: "Above All Nations is Humanity." The purpose of the Cosmopolitan organization was to bring out the best in all nations and to promote friendship—that we as nations shall live in brotherly love; that we shall show tolerance for the views of other nations, and that as members of Cosmopolitan Clubs we shall have a broad friendship, which is only one way to build up a higher civilization based on the broad principles of charity and love. As students of human life, it is interesting for us to observe how these different nationalities can meet in the classroom and the forum to discuss international problems, and how eager they are to forget differences.

The national organization has grown rapidly. Cosmopolitan Clubs are scattered from Syracuse and Cornell Universities to Indiana, Michigan, Illinois, Wisconsin, Minnesota, Kansas and Iowa, to Leland Stanford University in California. The national association is divided into districts, each with a vice president. The other national officers usually are selected from faculty members of the institution and located where the next convention will be held. The association, through its membership, is adding much to the college life of American institutions of higher learning. It is, above all, cementing a friendship of a wholesome kind and will leave a lasting impression on our educational work.

League of Women Voters

OFFICERS

ONICA PRALL	President
MILDRED WILLIAMSON	First Vice President
KATHERINE HOLDEN	Second Vice President
MILDRED ROGERS	Secretary
MARGARET VAN PATTEN	Treasurer

The College League of Women Voters was organized in the spring of 1923 and in the fall of the same year affiliated with the national organization. There had been felt, for some time, the need of such an organization. Miss Lawther and Mrs. Deavitt, on the State Board of Education, had talked of such an organization at a Women's Convocation and a group of girls who had attended the Y. W. C. A. conference at Geneva felt the need so strongly that they asked for such an organization. The Woman's Guild appointed a committee who organized a citizenship council and thus the organization was started.

All women connected with the college are eligible for membership. The Board of Directors is made up of the officers, one representative from each organized hall and house, and a representative from various honorary organizations.

The aim is to promote citizenship in all activity on the campus.

 K. M. LIU *Publication Manager*

A kind of general organization to realize the following purposes:

1. To promote the common interests of the Chinese students at Ames.
2. To cultivate international friendship.
3. To cooperate with the Chinese Students' Alliance in the United States of America.

The club has at present Dr. and Mrs. L. H. Pammel, head of the botany department, and Mr. and Mrs. LeRoy Burroughs, minister of the Episcopal Church, as its honorary members. There are twenty-six active Chinese members this year. Its officers hold their office for one year.

*The rule of my life is to make business a pleasure,
The rule of my business is to make people look pleasant.*
—BIGELOW.

A FIERY TALE

*The rule of my life is to make business a pleasure,
The rule of my business is to make people look pleasant.*
—BUFELLO.

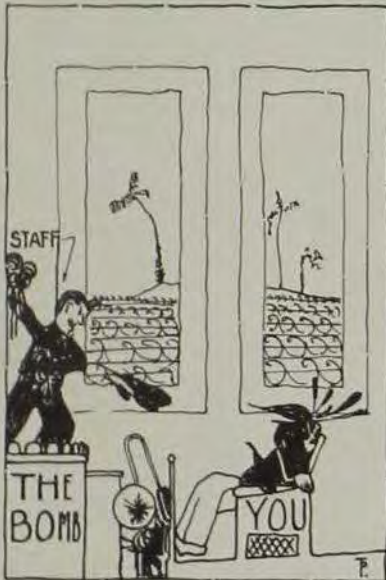

A FIERY TALE

Act Eleven

Now that the curtain has fallen on act ten of our little drama, *THE BOMB*, we can see you out in the audience leaning back in your \$4.50 seat and heaving a self-satisfied sigh, as much as to say, "Yea, verily, I am the stuff. Didn't I get my picture in a lot of times, though!" You tell 'em, Kid; so far in this little play yours has been the apparently praiseworthy role.

The section editors have sweat blood making each of you appear at your best (the Seniors even wrote their own writenps), and the photographer put in an extra half hour retouching your photo to make it appear as handsome as it does in act three. But do not be misled, as the truth is coming. Yea, the deluge has arrived. Slip on your slicker, slump back in your chair and start to dodge. If you don't get hit, it's not because we have a kind heart, but because you aren't important enough to rate the time that it requires to make a bull's-eye.

Let 'er vent!

The Campus Beautiful

At the north entrance of this year crampus one is met with a freshly painted sign which, due to the hot air passed out behind it, is full of holes, yea! even as a strong cheese. Laid in a nimble setting of hilarious lambs and sportive cows, the sign proclaims that this is the famous "Ioway State College of Agriculture and Farm Machinery."

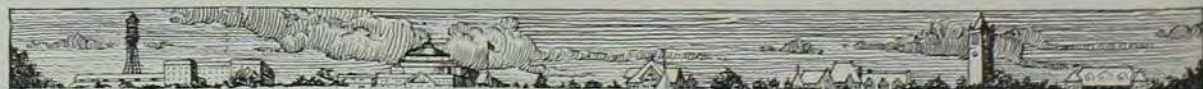

Its gleaming green-topped spires, rearing from an immense pile of half-shot cigarette butts, Central building stands serene. Central is known by its broad and spacious cuspidors from which open the many class rooms where the young are taught and caught. The sight of co-eds sitting on the wide steps has served as a setting and inspiration for many promising photographers.

"Your nose knows"—and your clothes—in the words of the poet, mark the Chemistry hall of flunk. Walking down the corridor with eyes closed, we detect a prehistoric chicken ranch, a zoo, an odiferous fertilizer factory and a soap works. On the upper floor can be smelled a defunct shoe dump and a glue factory. In other words, why go to Chicago's stockyard district when you can get all the aroma at home?

Bouncing 'round the corner with two baboon tires on the ground Engineering hall bursts into view, bristling with slide roofs and problem paper. 'Tis here that the youths of the school learn that "'twas better to have stayed at home than to have come to Ames and flunked.'" Many promising section hands are graduated from its limestone classrooms each year—and with the help of the Governing Board others graduate by a speedier route.

In this hardwood edifice, the perspiring Freshmen are lead through their daily twelve at the beck and call of the moronistic efficient teaching staff. Sacred to the memories of the un-scoring hoopless basket-eaters this water-soaked and lime-encrusted sanctuary of exercise and labor has been the scene of many Ruth-less baseball games.

On the banks of beautiful Lake LaVerne one has (but) to unscrew the needle valve in the nostrils to imagine garlic and onion-decked gondolas slipping noiselessly through scummy waters while schools of seals hilariously leap about among the trees which line the banks. Student-owned yachts are in abundance and bathing beaches have been constructed at the suggestion of the legislators.

Our Athletic Section

With the death of Walter Camp, the responsibility of picking the following athletic teams has fallen upon our shoulders, necks and all that is up in that section of the anatomy and since it is up to us we have figured that of a necessity we will add the following departments:

ALL-COLLEGE NECKING TEAM (WOMEN)

<i>First Team</i>	<i>Position</i>	<i>Second Team</i>
GRACE GLASS	<i>Standing</i>	ANN LEICHTER
LILLIAN RUSSEL (The Chi O)	<i>Sitting</i>	ADELE HEBBET
GWEN BINGHAMAN	<i>Riding</i>	MARY O'CONNELL
CHRISTINE PHELPS	<i>On Blanket</i>	VIRGINIA ALEXANDER
DOROTHY PARKER	<i>Off Blanket</i>	MAGGIE DATESMAN
MILDRED KLOPPENBURG	<i>Caught</i>	RUTH SONNERSON

Women's Coach: FRANK TRAVERS
Hot-Water Boy: DAVE AINSWORTH

ALL-COLLEGE NECKING TEAM (MEN)

<i>First Team</i>	<i>Position</i>	<i>Second Team</i>
CHUCK CHEBIAK	<i>Standing</i>	J. K. WILSON
FRANK TRAVERS	<i>Sitting</i>	LEE HARRIS
CHUCK TOWNIE	<i>Riding</i>	CHUCK MARSH
HELB WOODLAND	<i>On Blanket</i>	LOUIE THOMPSON
COOTIE MATTHAM	<i>Off Blanket</i>	CHET WALLING
RALPH PRUNTY, Capt.	<i>Catch us Catch Can</i>	SETH WINSLOW

Men's Coach: PRADL HARRIS

SORORITY PIN-SHOWING TEAM

VIRGINIA ALEXANDER	<i>Full Length</i>
ALICE FOLLETT	<i>Rolls</i>
MARION RICHESON	<i>Half Length</i>
HELEN POLLOCK	<i>Lengthless</i>
IVY COBB	<i>Trainer</i>

ALL-COLLEGE WEEK-END WRESTLING TEAM

WALT BERGER	<i>Heavyweights</i>	MAGGIE BROOKHART
FRANKIE TRAVERS	<i>Let-'er-Falls</i>	MAR-G BEING
ALVINUS PERRY	<i>Long Walls</i>	NANCY ELLIOTT
LEBOT APLAND	<i>Winter Weights</i>	MYNETTE LOMAN
THOMAS CUSSEINGHAM	<i>Summer Weights</i>	GWEN EDWARDS
Trainer: HEDD VAUGHN		
Waxer: CHUCK COWNIE		
Orchestra: THURBER AND HIS ORIOLES		

Society

ENGINEERS' BALL-UP

The cold season social events were crowned by the desecration of the Engineer's ball. Naturally, since the season was crowned it was dead and truly it flopped.

Late music was the feature of the dance and the brawl was disguised in the Engineer colors, Black and Blue. Before the evening had well progressed into the tired stage K. McCarney, the trailer for the good of St. Pat, was carried into the fracas and nervously tripped up the aisle with the quite vulnerable Marc Bissett. Queen Mae looked like a case of insolvency for papa Mac and most of the Chi Omega set thought she looked "perfectly adorable" and all of that.

About 11:30 the representatives of the Dean of Women, who had been casting a deep gloom in their hibernation corner, consulted a standing committee on the campus for the cruelty to animals, declaring that the brawl must be called off. Mistreatment of dogs was the charge. The board then ordered the band to disband and the sleepy janitor was rolled from his dowry couch. The lights were turned out in hopes that the participants would take the subtle hint and go home. Which they did NOT.

The committee on absconding with the remuneration was composed of men—two from the hangless pin fraternity and one from the Sigma Snooze, but their plans were overrun by a man named Nichols who got them.

MILITARY BAWL

Managing to stave off its creditors in some unaccountable way, Stabben and Bleed, ornery Militaristic fraternity and famed market manipulators, held the annual Military massacre in the Iowa State Exercise building.

White suits were in predominance even in spite of the dirty taxis in which the wearers had pressed them while coming to the match. The first part of the dance was spent in trying to dodge the flying swords which were worn by the coming officers.

The hall was decorated in poison ivy, gathered from the oliferous banks of Skunk river, and added a realistic odor to the ball. The cavalry was barred from participating in the dance due to nasal reasons. Irvin Rasmussen, the Stabben and Bleed baby blue Cree, led the march but declared that he was not in charge of the open warfare that resulted following the announcement that the programs were ready to be distributed.

As entertainment, a short, snappy banquet drill was indulged in, but this was too much for the chaperons who declared that they would not permit students to cut up at a dance.

Little Maurice Prothorne featured with a very intelligent pledging ceremony and got by big until he stuck a pin into the manly chest of one of the drag-ins. He left to mourn him a family and a number of happy classmates.

FRESHMAN-SOPHOMORE ANHILATION

As a last resource in reducing the numbers of students attending classes in college, the T. N. E., national expulsion fraternity, working in conjunction with the governing board, announced that the tickets for the annual Red cap struggle would be fought for in Central building. On the morning announced, approximately one hundred fifty students were lined up in waiting for the three hundred tickets which were to be distributed. Many were turned away disappointed.

The hall was decorated in the conventional diacical decorations and before the evening was over seven or eleven were shot.

There was a certain amount of ambiguity mixed up with the leaders of the events, but was finally settled by the presentation of a corsage of gurlies and potato vines donated for the occasion by Dean Maria Roberts. A terrible roar went up from the remainder of the aggregation the noise of which was heard to town necessitating the police leaving their windows at the Shelton Bunn hotel.

As the dance was progressing nicely, the fire whistle blew and a number of the Freshmen answered the call, thus breaking up the fracas.

THE WINTER PARTY

AS THE MEN SAW IT

Friday night, due to the entire absence of work, the I Shambdu Guy fraternity entertained at the Chapter house in honor of the newly appointed Patrons and Patronesses. The evening was spent at linguistic games followed by a fourteen-course luncheon.

The house was decorated in ermine and gold. Favors consisting of sable coats were given to the women, together with snappy little sport model Packards as a mere reminder of what they had gone through. It is said that the party was inexpensive one—costing only approximately \$50,000 and was not entirely up to standard as set by the social leaders of the campus, the Sigh Flies, and the Alfataw Omegds.

Paul Blackman's orchestra furnished the incentive for the struggle and after having been tipped a paltry sum of a thousand or two condescended to lead the grand march down Lincoln Way to the Ames theatre where the Metropolitan Grand Opera company had been secured to entertain the guests.

A nice time was had by all.

AS THE WOMEN SAW IT

The worst flop of the ages was attended by some who could find nothing to do Friday night, at the I Shambdu Guy frat house.

Favors consisting of opportunities to walk to and from the house were given to the women who showed their house spirit by attending. The house was decorated in patched wall paper, soiled house skins, dirty chairs and what nots (lots of what nots).

The floor had been prepared with powdered resin and Lal'ages glue and say, sister, but wasn't it a slick go!

Rotten chow was served and no likker allowed with exception of a few whiskey bottle corks which were chained to the fireplace. The guests were permitted to smell the corks, although the odor was weak, having been mostly all absorbed by the brothers previous to the fracas.

Fifty per cent of the faculty were present to act as chaperons and special high-powered lights had been installed in all corners and over all the davenport. Tacks were in the davenports so that occupancy would not be for too long a time.

A good time was had by all (after leaving).

Typical S. A. E. House Meeting

(Stewed After Eight)

President: "The gang will kindly rush for the easy chairs and the meeting will come to order. The secretary will kindly call the roll. (Time Elapses.) We will have the reading of the minutes of the last meeting. (No time elapses.) They stand approved!"

Brother Thompson: "Mr. President, may I be excused as I have an important business engagement."

President: "You may—and may also tell Miss Klop-
penberg hello for me."

Brother Whitney: "Mr. President, may I be excused to use the telephone?"

President: "Outside."

Brother Behm: "It is my opinion that some cats should be procured to catch a few of the mice which are running us from our home."

President: "May I call your attention, Mr. Behm, that the last time we procured cats to kill mice, it was necessary to get 100 monkeys to kill the cats. At length there were so many monkeys that we had to hire a man to kill off the monkeys—and he shot all day, only to find that he had killed 10 monkeys and 20 of our members. No, Mr. Behm, we can't risk your life."

"Is there any more important business?"—
"Mr. Nave."

Brother Nave: "I move you, Mr. President, that Brother Thornburg be requested to take a bath as we are to have a house picture taken tomorrow."

Brother Thornburg: "I object to that motion on the grounds that it endangers my personal health, and furthermore it is only to be half length and will necessitate the washing of my face only."

President: "Objection sustained. We cannot risk having Brother Thornburg catch a cold."—"Mr. Garrison."

Brother Garrison: "I move you, Mr. President that the Red bulb be removed from the hall light as the crowds are gathering at our doorstep and are blocking the sidewalk."

President: "Do I hear a minu—er second?"

Brother Rasmess: "A white colored light in the hallway always proves distasteful to me as it hurts my eyes when I come in early in the morning."
(They Vote).

President: "It is carried. Any other business?"

Brother Coover: "When I played football back in my college days I never was injured. If Brother Watson would enjoy it I would prefer that he do his whittling on my thigh rather than on the pillars of our front porch. If he does not refrain he will have the walls of old Sigma Alpha Epsilon tumbling down upon us."

President: "Your suggestion is a good one. We will refer it to the committee on Athletics and Side issues. What is that Hellish noise outside?"
(Brother Nave rushes to the gazinta.)

Brother Nave: "It's a hot dog vender out on the street."

President: "Meeting's out. Do I hear a motion to that effect?"

(No motion is heard—but a number are seen.)

Veishea

Featuring a mystic 12-page issue of the Iowa State Student, the second annual Aehsiey, all college student deportation opportunity, opened with a bang—at least it blew up. Many of our well known fraternities took the opportunity to light up on the annual four-day drunk.

The hottest part of the celebration was the burning of the carmine caps of the yearlings which go to make up our lil college and while the odors of Stacomb, Glo-co and Sta-Put filled the air the band played Nearer, My Gawd, as a Sophomore was denuded in the midst of the wide-eyed populace. The college authorities are to be congratulated on letting the students out of classes one hour ahead of time. It gave many of the

Preps sufficient time to go home and get their red caps from the embrace of their trunks.

The greatest feature of the celebration was the "Mile-Long parade." Marching in columns of ones, the military department was a sight to behold. Bedecked in their itching idioms—at least that's where the rub comes in, they formed 9/10ths of the event.

Homer Elaine Huntoon caused the years dam-attie success to raise to the heights through his tiring efforts. Twas a huge success. The greatest uncarded act was the foot snubbing of in the ballot act.

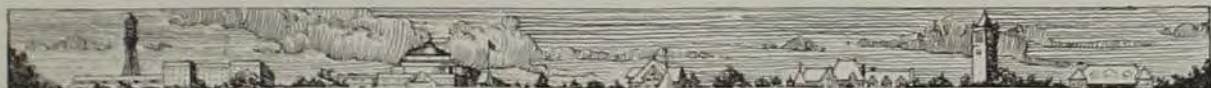

A great number of visitors left Ames Saturday night, leaving the campus deserted.

The Happy Perforated Onionwear Family

Onionwear**

Omission

The Bomb wishes to state that during the spring quarter, the office was forcibly entered and the desk of the Satire editor was ransacked. The thief was not at all particular, and took only thirteen pictures, and several writeups, sent to us by one of the Pi Phi's that live downtown. These writeups and pictures were all concerning Miss Charline Woods, and due to

the lateness of the date the editor was unable to procure more, so we regret to state that we will be unable to mention this lady's name in connection with this section.

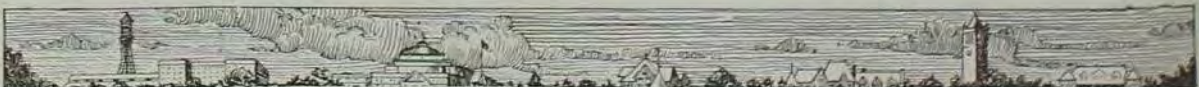

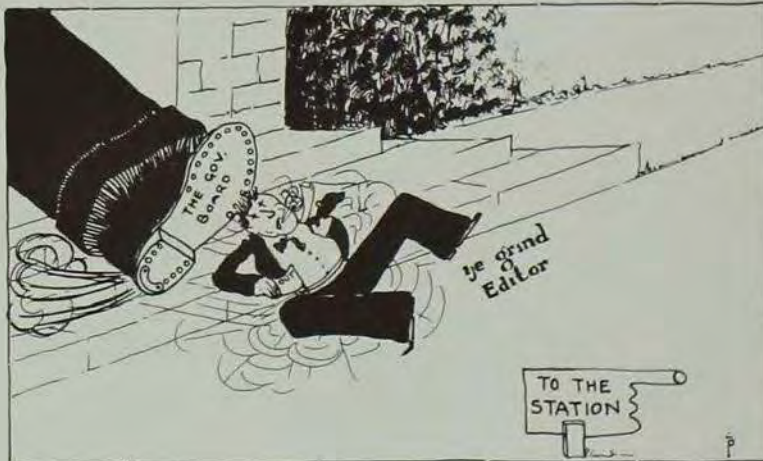

No, Horace, the editor did NOT take all the pictures that appear in the Satire section.

FINIS

Our blocks in here may all be punk
Our copy may be a pila junk
The entire section may be bunk
And thus our classes we will flunk.

Be that as it may—we wish to state
That we scratched our pate and stayed up late
And all eruller crunchers have tried to berate
But if we've failed—it is just fate.

Now we have speared the Jellies bold
And sprung a lotta bunk that's old
And if we have pooped the pearls up cold
Well, Pack the grip—MY TALE IS TOLD.

Fountain Pen Satisfaction Guaranteed

Don't
blame
your pen!

We will guarantee Fountain Pen satisfaction if you will do these two things:

FIRST

Buy a point that is suited to your style of writing. No two points are alike and no two people hold a pen in the same position—for this reason it is important that you use great care in choosing your point. We make this easy by carrying a large variety of **Conklin Duragraphs, Wahl Signatures and Sheaffer Lifetime** pens.

SECOND

Fill your pen with good ink—call for Carter's. All pens, like all automobiles, require a certain amount of attention and good, clean "fuel." We recommend Carter's Ink because we have always found it to be free from sediment and less liable to clog your pen. If you like a colored ink—use the same color in your pen continuously, as mixing inks cause a chemical reaction which will give you trouble.

YOU SHOULD HAVE A WRITING INSTRUMENT THAT PERFORMS ITS DUTY WHEN REQUIRED—IF YOU HAVEN'T—SEE US.

GET OUR ADVICE

Can You Explain Some of These?

What were the cops doing at the Beta house one Sunday afternoon during the spring quarter?

How do some of the girls get downtown when the buses aren't running?

Why is the Gym floor so darn slippery?

Who writes articles for the student on antismoking, and then is seen the next night doing a little bit of the same?

Why is anyone fool enough to spend hours writing this stuff?

What happened to the Adelantes?

Why didn't it happen to the Phi Deltis, too?

How did some of the notables get away without being burnt in this year's section?

Who goes to Olsan's on Friday nights?

When will the G. B. get all the fraternity men out of school?

When will they take the mud out of Lake La Mud?

She Spits, She Snarls

(Rushing Noos, post-season as it were, from the Leaders)

Pie Phi's: We always serve rhinoceros a la king to our newly acquired pledges. Why?

Kay Deez: We have nothing to say! !

Chow Omegaz: Our Freshmen have a sense of literary humor!

Gamma Phi's: After all we didn't get warped so bad!

Alpha Deltz: If you want to pledge, just call us. Phone 1288-W. Lydia Pinkham was an Alpha Delt.

Try Deltz's: We usually get our weakly dozen.

Sigma Corpses: Our chapter at Illinois makes us.

Awful Jam: We got 'em all. A landslide (right into the cellar—camouflaged).

Alpha Cheese Beater: We announce the pledging of Sallie Nitwit of Bazoomp, Cuba; Fanny Phlatyre of Sewerville, Missouri; Ima Sittingbull from Pocohontas. (My Gawd, girls, what a scoop!!)

WE WONDER

WHY the Chi Omega's rented a phonograph just before rushing.

WHO carried away the Gamma Fize front porch.

WHO was Beulah Roberts' tailor in the Hee Vaudeville.

WHO went to the Sigma Kappa open house after the Drake Game.

WHY the AXB bunch didn't return the baseball cap to the new winners until after rushing.

WHY the Try Deltas and the Gamma Fize didn't get along so well during rushing.

WHAT Nance Elliott said at the Women's Pan Hell meeting when the Gamma Phi and the Pi Phi were not there.

WHY the Chi Omegas are so interested in men's necks.

WHO were winners at the Pi Phi benefit (to who) bridge.

WHO took the pictures of the beauty contestants. (We are going right over and have ours taken.)

WHY the Alfie Sigs got to school early on April First.

After All, if its studying that causes our poor eyesight.

WHEN the Legislature is going to install the Victrolas in the new library.

EAST TECHNICAL HIGH SCHOOL
CLEVELAND
OCTOBER 30, 1934.

TO WHOM IT MAY CONCERN:

When Miss was enrolled in the E. T. H. S. at East Technical High School, Cleveland, Ohio, during the spring term of 1931, and passed the work with a grade of 75%.

As this time two years of military training was required for all students except un-scholastic subjects or those physically disabled, after one semester service was qualified as a con-scientious objector. He substituted Physical Training. Therefore, he is entitled to one semester's credit for Military Training.

Very truly yours,
Principal

OUR DATTIN MOPE

Tri Delts Win Annual Cup

Place First in All-College Fire Teams

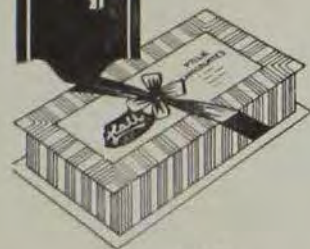

Finishing the season with a percentage of 1,000 the Delta Delta Delta sorority, 302 Ash avenue, scored an easy victory over their opponents, who finished with a total of 397.

On being interviewed today, the girls stated that they had only started, and that most of their old team would be back next year. Big things can be expected from them next year, and they can be relied upon to uphold the records for which Ames has become famous. Nancy Elliott, retiring captain, was lavish with praise of the efficient help they had received from the Ames Fire Department. "Never before have I had the privilege of working in cooperation with such an efficient body of firemen," she stated.

The presentation of the cup will take place the day before graduation. A silver cup, fully two feet high, with the inscription, "Presented by Ben Cole, Contractor, for the Hottest House on the Campus," and beautifully decorated in miniature ladders and climbing fire hose, will be the permanent possession of the house if won next year. The cup has been won twice before by the Try Delts, and will become their permanent trophy after the fourth time.

THE COPS WILL NEVER GET YOU IF YOU OWN A TRIDELTATHETA.

College Bred Is a Four-Year Loaf

EARL V. FISHER
The New York Life Man

This may be true of some college students, but not those of Iowa State College. They are honest and sincere in their efforts to broaden their minds and increase their efficiency.

Every student has an economic value, even tho he may not be on a salary, and that economic value should be protected with life insurance. If his parents are paying the bills they are doing so at a sacrifice, and should be protected. Those who are borrowing money for their education, certainly can see the need for life insurance.

The New York Life writes the broadest protection on the market today; old age endowments, double indemnity for accidental death, and complete total disability benefits included in one policy, and for women as well as for men.

Mr. Earl V. Fisher, the local agent, has kept close touch with student life and can advise with you as to what is best. Mr. Fisher believes enough in his company to advertise it, and is trying out this plan to save both your time and his. Call or phone for an appointment and we will make it snappy. Before buying elsewhere see what the New York Life will do.

Don't Be a Skinny Runt!

Be a Real He-Man That the Girls Run After!!

Ten hours a day spare time spent at my special muscle-making exercises will absolutely qualify you as a piano mover or street sweeper. Look at me. It made me what I am today, and I'm satisfied, so why can't you do the same. Recently I placed three of my pupils with a firm in Africa digging post holes.

Such Popularity Must be Earned

Wear an
Arrow Collar
and Pass 'Em Out

Regardless of who wears it, the Arrow collar can make any bloke resemble the real thing. The above illustration proves it. Our special No. 236 XQZ 24 1/4 is a high cut model, and can be worn a number of times as it is a pongee collar, and does not show the terra cotta.

DEMAND THE ORIGINAL.
NONE GENUINE WITHOUT THE
SIGNATURE.

Men Wanted

Why take a college course when you can qualify already as nutmeg picker? During the last three years we have placed over three thousand young men in our nutmeg farms in British South Africa. Living conditions are ideal there, and you can easily earn enough in three years to pay your boat fare back. J. K. Kent, formerly of Iowa State College, writes, "After I left Iowa State, I knew that my dramatic ability and hard headed reasoning would be a greater asset to me in the nutmeg picking game than any other place. After working three years, I have three dollars and sixty cents in the bank, and I am nearly as good at the work as the oldest men on the force. I would sincerely advise anyone to take up this work, as there is a great future in it.

Signed,
J. K. KENT.

THE COLLEGE

THE Iowa State College of Agriculture and Mechanic Arts conducts work along five major lines:

Agriculture	Industrial Science
Engineering	Home Economics
Veterinary Medicine	

The graduate division conducts advanced research and instruction in all these five lines.

Four, five, and six-year collegiate courses are offered in different divisions of the College. Non-collegiate courses are offered in agriculture, home economics and trades and industries. Summer sessions include graduate, collegiate and non-collegiate work. Short courses are offered in the winter.

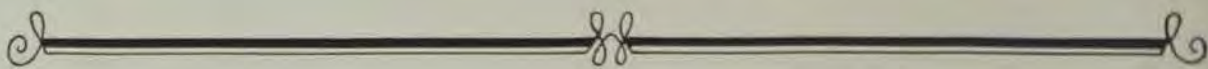

Extension courses are conducted at various points thruout the state.

Research is conducted in the Agricultural and Engineering Experiment stations and in the Veterinary research laboratory.

Special announcements of the different branches of the work are supplied, free of charge, on application.

Address The Registrar,
Ames, Iowa.

Here Are the Smartest of
 Styles in Summer Apparel

A dainty dress of fine silk with a matching coat of light weight—perhaps a silk coat with Georgette frock—is just what you will want for cool Summer evenings—for vacations at the mountains or resort—for many occasions when one wants to be well and comfortably dressed. Other Summer frocks reasonably priced.

YOUNKER BROTHERS

Des Moines, Iowa

Along with the handbooks given out to the Freshmen by the Y. W. C. A., we would suggest that the following valuable information be given also, in the form of a scrapbook.

Published and edited by "The society for the betterment of the Co-ed's life on the Ames campus."

Colors: Deep mourning.

Motto: "Hang on tight, girls, we may win yet."

In order that you, the new light and inspiration of our campus, may become at once very sophisticated and hardened to the wiles of the opposing element of this school, namely the Men, I do hereby submit the following suggestions.

Inherently yours,

I. B. WHOZZIT,
Editor and Thief.

TYPE OF MEN	INFORMATION
The tea-hound	Encourage for Sunday dates. He will be handy to wind the "Vic"
Athlete	Date him and write home about it
Hangers-on-to-the-brass-rail	Introduce to the girls you are with. They will be impressed
One who spends money freely	Introduce to Freshmen only, they soak it in
One who has a good blue	Introduce to your chaperone
One who has a car	Introduce to all of your sorority sisters
The wonderful dancer	Monopolize him
The collar-ad type	Take him to your party
A member of a Frat with a good-looking pin	Accept blanket party dates; you may be able to swipe it
One who wears pearl grey trousers and Rockford socks	Don't hold it against him; he may improve
One who invites you to have a Coca-Cola	Give him another chance; he may get a check in the meantime
One who talks about his girl at home	Check—these "home town" girls have an awful hold
One who calls up the night before for a date	Be gentle—he'll learn!
One who takes up Chemical Engineering	Don't take this to heart. He will change his course every quarter
The guy that asks you for a picture on your second date	Feed him and give it to him. He won't bother you after that blow
The diligent Y. M. C. A. worker	Date occasionally so that he will be on hand if mother and auntie should come to visit

COLLEGE CRIMES

"Hello, Jack, this is Helen;
I've been calling you all day long.
Will Friday be just as good as Saturday?
I've got my dates all wrong.
No, I can't see you on Wednesday.
Thursday? No, I have a Psyc exam.
Why, of course I do, don't be silly.
Why no, there's no other man—"
"Hello, Bill, this is Helen;
I got rid of Jack just fine,
I can hardly wait now until Saturday.
Now, Bill, don't start that line.
Of course, I like you to call me;
Tuesday? Yes, 'bout ten past eight.
Why, of course I do, don't be silly.
Yes, yes, no,—I won't be late."

I went into the new library yesterday. A co-ed said, "Turn on the heat, will you, please?" She must of thought I was the janitor. Next time I visit the library I will have to wear overalls. I thought I was all dressed up till she sprung that one.

The Fort Dodge, Des Moines & Southern Railroad Urges More Co-operation

Our patrons, both passengers and shippers, are assured that this Company's service will be maintained at the highest peak of efficiency as we desire to merit your future patronage by continuing to be a dependable RAILROAD.

THE FORT DODGE LINE wants to make the business of all patrons and citizens it can serve as successful as may be, and I am sure that the public is anxious to help us in order that we, in turn, may help to obtain that result.

Two-Hour Service between AMES, CAMPUS, and DES MOINES. Use this established service instead of your AUTOMOBILE. SAVE MONEY. TRAVEL THE SAFE WAY. Through tickets sold to all parts of the country.

The Non-Corroding Tank Works

Makers of Beer and gin tanks, of all sizes.

This is a reproduction of our latest engineering work which was done at Ames, Iowa. A 5,000 gallon non-corroding gin tank was installed at the Beta Theta Pi house just three days before the arrival of the federal officers, thus paying for itself. It was installed after a rumor that the national Beta Convention would be held in Ames next year. We have satisfied customers in all of the college towns in America. Let one of our engineers look over your situation and quote you prices.

National Gin Tank Company

On Leaving

THE printers have been satisfied in their insatiable thirst for copy. The last cuts have begun their journey from the engravers; the last page of copy is being written. The end of the task is in sight, the major obstacles have been overcome or sidestepped, and the success or failure of this Special Edition of THE BOMB OF 1925 is already made.

While the book demanded its usual quota—or, as it more often seemed, an unusually large quota—of disappointing changes in plans, of neglected studies and long, never-to-be-forgotten, sleepless nights of work, it would be decidedly unfair to say that the work has been unpleasant or that the sacrifices necessarily made were more than had been expected. The members of the staff were always willing to go to any amount of trouble to make the book better and more representative—more typical of Ames. To edit and compile a BOMB with the aid of such a staff was a privilege and a pleasure. The large number whose work went into the book precludes individual mention.

There is probably much in the book that will displease you; many mistakes which you will classify as inexcusable, many omissions you will fail to understand; yet if the book as a whole is what you expected of it, if the changes which you have noted have been improvements, if the good points overshadow the blunders, then THE BOMB OF 1925 (Special Edition) is a success.

Be that as it may, it is with mingled pleasure and regret that I grind out the last words of copy, put the battered old typewriter aside and go seek out a secluded campus bench to await what you have to say when you have read the finished product.

—G. W. W., EDITOR.
