

The fact is we feared it is not better
in bloom yet. We have a desire to
have made sleighs of your wills
some and you may have no money
wides as you wish for our horses
and just I say, enough this winter
for they don't seem much to do.

I wish I could share your will
you to meeting Christmas, but
wishes of that nature are of no use.
I hope however to see you & many
other friends between now & next.
Christmas of the abundance of good
horses, but he is no exception
I do not care to tell what changes
may take place before that time,
the reason that I thought I believe you
himself I was every day this winter
was to make his weathering. The care
near a Delaware ship. We speak with
pleasure of you & the desire to meet. There
had a sister gets it with me here as
these days. Give my love to all the
dear ones.
Yours and ever G. H.
