

started for home, got here about 2 o'clock
P.M. We started about half past 6 A.M.
There are hundreds of acres on the bottom
that has neither sticks, stone, fence or house
on it; perfectly level & green as a meadow.
There was hundreds of cattle feeding on
there. I bet you never saw half as many
cattle together. By the way I took Winnie
to church a week ago last Sunday, (I forget
to tell Mac, last week.) She was still all
through meeting. After church we went to
Mrs. Bowleys. (Mrs. Bowley is at the Peaks.)
& staid until nearly night. Had a pleas-
ant visit. Last Sunday it rained in
the morning, but was quite clear in
the afternoon, we went down to Mr.
Baxters and ^{staid} ~~staid~~ or two, had as many
strawberries & cream as we could eat, came
home did up the chores & went to bed.
Don't you think I have heard round some-
lately (that is for me.) I think mother's
dress is very pretty. I must close soon,
Wish you was here to eat supper with us.
