

# Some Carroll County W P A Projects

This map illustrates a few of the WPA programs planned and sponsored by local town and Carroll county authorities with community leaders to meet the needs of the 334 men and women of Carroll county certified as relief workers. Included has been 60 miles of gravel surfacing of county roads and ten additional miles of grubbing, grading and surfacing of rural roads. Laying one mile of water pipe, construction of storm sewer, 2500 lineal feet of curb and gutter, building and repairing sidewalks, grading and ditching are some of the jobs already accomplished. Development work on the new Municipal Cemetery at Carroll, a surplus commodity survey and a sewing-room project which will provide clothing for the county's destitute, round out the WPA activities to date in Carroll county.
