

Modern Bath Houses and Pools by W P A

Several Park Boards and leaders in Iowa communities which had need of employment for jobless skilled and unskilled certified relief workers, planned and sponsored necessary public swimming pool projects through WPA. Shown above are views of the Riverview Park bathhouse and swimming pool at Marshalltown, Iowa, during construction. Similar projects have been completed or are under construction by WPA in Atlantic, Des Moines, Villisca, Jefferson, Pella, Decorah and Dubuque. Numerous wading pools for children have also been constructed in parks and playgrounds throughout the state, adding to the improved health measures and the material wealth of such communities.
